## RAILROAD GETS MORE DIESELS

Two new 1600 hp Diesel engines, the last of those on order, arrived in Squamish last week. Bearing the numbers 567 and 568, they bring the total number of engines owned by the railroad to 24.

Fourteen of these are Diesels, eight of them the large, sixteen hundred horsepower units, the other six being the smaller five hundred and fifty horsepower ones.

Railway officials hope that these engines will be able to handle all the traffic along the line including that which will result from the completion of the railroad to Prince George.

Barring any unforeseen delay, the steel should be joined within the next two months. The Ahbau Creek bridge, now under construction, is the last major job to be done.

## REPAIRS CLOSE ROAD

Traffic along government road was halted for several hours on Tuesday while PGE crews replaced the planking at the crossing by Castle's.

Cars were detoured between McRae's corner and the school via the Britannia highway and River Road.

## Teams Split Sunday Games

The Hardwoods and Catholic Youth Organization's team split the two ball games played here last Sunday.

The visitors won the afternoon game by a score of 17-8 but the Hardwoods came back to take the evening game 5-2.

## SQUAMISH BOYS WIN IN SCOUT RALLY

The Squamish Scouts and the Britannia Beach Cubs were the winners in the first Howe Sound Scout rally held at the ball ground, Townsite, Britannia, last Saturday.

In the senior group, Squamish led by two points with Britannia Beach and Woodfibre tying for second place. In the Cubs competition the townsite placed second.

Mr. E. C. Roper, president of the district council made a short speech and the District Commissioner, L. Hobby of Woodfibre, presented the Boy Scouts Howe Sound District shield for 1952 to Lex Ross, troop leader of the Squamish Scouts. Barry Mounsey, the Britannia Beach Cub leader, took the shield for his group.

Refreshments were served to the boys by the Townsite group committee, headed by Mr. C. Hinson and Mrs. Bjorkman. All the scoutmasters and members of the council were very pleased with the showing the boys made and the excellent way they conducted themselves throughout the day.

The meet will be an annual affair with each of the Howe Sound communities playing host in turn.

## To Call Tenders For New Dyke

Engineers from the Public Works Department were in Squamish last week and surveyed the site of the new dyke to be built from the end of Seventh St., northward to the PGE Rly. tracks.

Tenders for the construction of the dyke will be called for in the near future.

## School's Out

Yesterday marked the last day of school and the beginning of the summer holidays for the more than three hundred pupils of the Squamish elementary and high schools and their teachers.

Four of the teachers, Miss McFarlane, Miss Wilson, Mrs. Seymour and Mr. Thompson have resigned and there will be some new faces among the staff next fall.

The students are all looking forward to summer vacations but for many of the seniors, who will be going on to advanced studies, summer will be a working period as they are all planning to earn money towards their future studies.

Results of final government exams will be out sometime next month and the waiting period will be a long one for those who have just completed their exams.

## Neighborly News

The most avid reader of B. C.'s weekly press is undoubtedly Les Way, CBC's Neighborly News commentator on the Pacific coast. In his search for items reflecting the course of rural life in the province he scans each week some sixty-odd papers.

Neighborly News, heard on the Trans-Canada network of the CBC every Wednesday at 6 p.m., is designed to keep listeners informed of the news and views of those people who live outside the big cities:

## STRIKE CONTINUES

The IWA turned down the Labor Relation Board's suggestion that the striking loggers return to work while the negotiations continued.

The strike, now in its 11th day, shows no sign of an early settlement.

## Brackendale

Picnics have been very popular here lately. The Institute held theirs at Wiwakum on Sunday and on the same day the Britannia Beach Sunday School had one at the Joyce Ranch. Last Friday evening Mr. Tinney's class had a weiner roast and square dance in the pasture behind the Brackendale store.

Born, to Mr. and Mrs. J. Riis of Brackendale, on Friday, June 20th, a daughter, Jennifer Louise.

Roy and Johnny Lewis are home from an up-coast logging camp.

We are pleased to hear that Mr. R. Green is home from the hospital.

Mrs. E. Axen and Iris spent the weekend in Vancouver.

Mrs. Laurens and her son are visiting her parents, Mr. and Mrs. H. L. Rae, while her husband is working for the railroad.

## Waiting and Wishing

## FINAL ELECTION COUNT STARTS NEXT WEEK

The fate of 41 seats in the B.C. Legislature will be decided next week when the final counting of the ballots cast on June 12th begins on July 3rd. Five Social Credit members and two CCF were elected on the first count.

The counting, which will include the second choices and more if necessary may take several days so final results will probably not be ready till sometime during the following week.

## GRAVELLING ROADS

Work has started on gravelling the roads and lanes here. George Behrner and Mr. A. McRae, Sr., are loading and hauling the gravel.

Mr. G. S. Clarke discussed the purchase of the lots through which the drainage pipe laid, with officials in Victoria last week. The village would like to secure them to make a small, centrally located park.

## And It's Not Even A Road

On Tuesday, repairs to the PGE Railway track in the vicinity of Castle's crossing closed government road to traffic for several hours. It was re-routed via River Road.

Whenever the residents of River Road have asked for a

load of gravel or some road grading, the answer given by the Public Works Dep't is that it's not a gazetted road. We fail to see how a road which isn't there when it needs work can be used as an alternative route when the main thoroughfare is closed. Yet this has happened twice within the past year.

During wet weather the road is covered with deep puddles which necessitate walking in the brush bordering it, and ruins the brakes of the cars using it. River Road is a good name, the river runs down it. Yet, except for the odd load of gravel dumped by generous logging companies, the only work done on the road has been done by those residing along it. But this road is used by the public at all times, and the government truck has hauled heavy timbers over it.

Surely a reasonable amount of gravel and occasional grading is not too much to ask for a road that is used by everyone. And we still fail to see how a non-existent road can be used as a detour. Perhaps someone can explain it.

Miss Mary Lloyd of Vancouver is visiting her grandparents, Mr. and Mrs. W. James.
