IN EXPLOSION

Larkin Williams, an em-Co. at Pemberton, is in hospital in Vancouver in a serious jury last week.

a.m. on Sunday, Mr. Williams is reported to have lit the fuse on a stick of dynamite and held it in his left hand, outside the car window when it exploded. The explosion had disasterous results, badly damaging his hand. He also suffered facial injuries.

Mr. Williams was given first aid at Pemberton and brought to Squamish. He was flown to Vancouver to hospital where his hand was amputated.

Mrs. Hall, another passenger in the car, suffered minor injuries and was brouht to hospital here for treatment,

Morrison, Prince George.

LABOR DAY GREETINGS

THE MINISTER OF LABOUR

On this occasion which honours Labor, I take the opportunity of bringing to you a personal greeting on behalf of your Provincial Government.

Labour Day is one day of the year which has been set aside to honour the people themselves. It is not a day to honour heroes, statesmen or rulers—but it is a day that has been chosen to represent all those who labour, whether they be artisan, tradesman, labourer, production worker or office employee. To all working people, and to all those who help in making the labour force truly great and democratic, are sent greetings and felicitations.

As your Government commences its third year of offlice in British Columbia we look back over the past and it is with a certain degree of satisfaction and pride that we note the many changes that we have made to assist in bringing industrial peace and harmony to our Province. We fully appreciate the great role that is being played by the workers today in the industrial, development of this Province. To them, Labour Day is dedicated. To them, this Government offers its congratulations.

Over the past two years changes have been made within the Department of Labour to faciliate the administration of Labour Statutes. These changes have resulted in a more efficient service being offered to the public and a greater degree of competency being obtained in this administration. A most thorough study was made of the statutes and regulations adminstered by the Department and changes were made to produce legislation which will give to both Labour and Management the help and assistance it requires from time to time in the field of industrial re-

British Columbia is at present on the verge of a field of undreamed-of expansion. Every day we hear of new developments being planned that will aid this Province to become an area of industrial magnitude. This new future requires and must have every assistance to bring about its realization. Man's ability and perserverance will be taxed to the utmost and no obstacle must be placed in his path. To bring about this realm of prosperity and industrial development adequate legislation designed to assist in the continuous operation of industry and enterprise is essential.

On this Labour Day of 1954 let each of us resolve that he shall do his utmost to aid in this period of industrial development. If this resolution is observed and renewed on each succeeding Labour Day then we shall have within this Province the industrial peace and harmony that we all desire.

> Lyle Wicks Minister.

The Squamish branch of the Canadian Legion has named Gordon Gibson, MLA, as its delegate. He had already planned to attend the hearing and protest the licence, against which he has expressed strong disapproval.

School District No 48 (Howe Sound) NOTICE TO PARENTS

The Board of School Trustees wishes to advise the parents that, in order to comply with recent Department of Education regulations pertaining to the transportation of school pupils, one school bus trip only will be made on the Squamish-Brackendale route. Pupils in all grades, living north of the Mainquain River bridge will be transported, but pupils in Grades 1, 2 and 3 only, living south of the Maniquam River bridge will! be transported.

It is expected that it will be possible to transport all pupils from the Britannia route in one trip on the two buses If this is not possible, it may be necessary for the Board to curtail the service slightly.

These routes will be put into operation September 7, 1954, on a trial basis

F. D. Ross, Secretary-Treasurer.

Speed Limits Needed

On a recent visit to the small boat harbor, we were very pleased to see a large number of visiting boats tied up there. It has been very popular all summer and the harbor has undoubtedly caused many people to come to Squamish who would otherwise never have come here.

But one thing was noticeable. Several boats came in to the harbor at high speed and didn't check that speed until they had nearly reached the float, or gone around it to moor on the side closest to the shore. Each time a boat came in at high speed, the waves created by its passage, pounded the tied up boats against the float. Some of them took a terriffic beating and their owners would try to keep them away from the float.

No one coming here for a holiday cruise wants to have to be constantly on the alert, while in harbor, trying to keep his boat from being damaged. Speeds should be cut before coming to the float, or else speed limits will have to be set, within the harbor limits, and any infringements will have to be prosecuted.

Courtesy on the water is just as necessary as courtesy on a highway, and certainly a bit of consideration in this case will give our community an excellent reputation among the boating enthusiasts who come here. The small boat harbor can be a great asset to our community, but it won't be if the word gets around thet it isn't safe to moor a boat in the harbor at Squamish because some speed happy maniac may cause it to be damaged.

Communications

Editor, Squamish Advance, Dear Sir:--
