C of C Urges Extension Of Time At Alice Lake

Extension of the Federal Winter Works program to end of May to allow completion of development underway at Alice Lake will be urged by Squamish Chamber of Commerce.

The one month extension, under which the government pays 50 per cent of all costs, has been granted to some federal projects.

Development at Alice Lake is under the provincial parks department and there is concern that it may stop at the end of April with considerable work yet to do.

Alice Lake Benefits

Program Extended For Winter Works

Overtures to the federal government to have the federal-provincial winter works program in provincial parks extended to the end of May have been successful, the Hon. Earle C. Westwood, Minister of Recreation and Conservation has announced.

In a wire received from the Hon. Walter G. Dinsdale, Minister of Northern Affairs and National Resources, the Federal government has agreed to extend the program of park development work which could mean an additional \$100,000 to the province's economy.

The federal agreement matches, dollar for dollar, money expended by the provinces in park development work.

Mr. Westwood said, "The news from Ottawa is extremely good from our standpoint and we are happy to announce

that work projects, scheduled to be terminated on April 30, will be continued and in many instances, projects which would have been uncompleted by April 30 will be finished by the end of May.

This extension will greatly assist in alleviating the unemployment situation, Mr. Westwood declared.

Squamish Chamber of Commerce, fearing the work at Alice Lake would be stopped at the end of April before the job was finished, urged an extension of the parks winter works program last week.

"Beautification Time"

Clean, Paint, Fix Plant Campaign

A clean up, paint up, plant up campaign has been instigated by Squamish and Howe Sound District Chamber of Commerce to begin May 1.

ITF Booth Under Way

The Squamish booth for the Vancouver International Trade Fair in May will be mostly prefabricated here at the home of Al Bird.

Chamber of Commerce members plan to set it up at the fair on the weekend of April 29 to be ready for the opening on May 3.

Fred Bennett, in charge of the campaign, has arranged for 20 trucks on the weekend of May 6 and 7 for people requesting pick-up of refuse. The Boy Scouts and the High-Cs will be for hire to clean up lots, fix fences, or any general jobs or handiwork that needs attention.

Posters on the theme "Beautification Time" are being put up around the community and all residences and businesses are urged to make a clean and sparkling sweep of the whole area.

If assistance is needed, such as trucks or workers, phone Mr. Bennett or Bob Bishop, C. of C. president.

Tempo Quickens As May 22 Nears

—by Joyce Tinney, Convener

As May Day approaches, more and more Squamish people become involved in the preparations.

All the girls in the Grade III classes at the Squamish Elementary School, which include students from the Mamquam and Stawamus schools, are now learning the intricacies of the maypole dance under the experienced eye of Mrs. Hilda Fairbanks.

Last Monday the flower girls and page boys gathered at the high school for their first practice. They are being trained by Mrs. Lorraine Huxren, with help from Mrs. Jennie Eross, Mrs. Viola Nichols and Mrs. Babe Boscarol.

Nick Candy has agreed to be parade master again this year, and is anxious to know of parade entrants well before May 22. Please phone him as soon as you decide on your entry.

There has been a small change in the plans of the Mamquam Volunteer Fire Brigade for their cabaret dance on Saturday, May 20. Because of a tightening of restrictions, no liquor may be taken to the dance, but it will be sold there at a nominal charge. Music

is by Jim Tinney's group. Members of the Brigade will be selling tickets soon, so be sure to get yours early.

The schedule of events for Monday, May 22, is as follows: 10:30 a.m.—Parade begins.

11:15 a.m.—Crowning ceremony and program.

12:30 to 2:00 p.m.—Public luncheon.

1:30 p.m.—Little League ball game.

3:00 p.m.—S.R.A. children's sports.

7:30 to 10:00 p.m.—Family dance.

Watch for more particulars next week.

New Baby At Gilmour's

Second daughter of Mr. and Mrs. Bob Gilmour was born April 18, in Vancouver. She weighed 7 lbs. 8 ozs.

Austerity Program Approved To Rebuild Water Works Line

Spend \$40,000 To Avoid Repairs

An austerity program that should yield \$22,000 out of this year's budget for renewal of a troublesome section of the main water supply line was sanctioned by Village Council April 18.

Main concern is for a 5,200-foot high pressure stretch of 40-year-old wooden pipe where several recent bad breaks have cost nearly \$2,000 to repair.

With the \$22,000 pared from general revenue and the expected \$20,000 surplus from the reconstruction debentures, the way appears clear to Council.

TO SPEND \$40,000
Commissioner Brennan made the motion that council spend \$40,000 to build as much 10-inch concrete asbestos line as possible by doing the work with the village works crew under the supervision of works superintendent Frank Wilson and Associated Engineers. Commissioner Clarke seconded it and the vote was unanimous.

The engineers strongly recommended the use of 10-inch pipe which they claim is adequate for 5,000 people plus industry.

EMPLOY OWN CREW
They estimate the cost by contract at \$38,000. Council is certain their own crew can do as good a job as a contractor and do it cheaper.

This feeling is reflected in the motion that allows as much pipe to be laid as possible for \$40,000. Certain means of saving on construction costs have already been suggested and council feels that considerably more pipe may be built.

ANOTHER LINE LATER
In their report, Associated Engineers recommend the 10-inch pipe now and another 10-inch pipe when the population goes over 5,000.

They also recommend that the present tank storage of 40,000 gallons be increased in the same location to 675,000 gallons.

Council's decision to borrow money from general revenue obviates interest charges if the money had to be acquired elsewhere.

Little money will be spent in the village during the year except on general maintenance.

Old Money In New Pool

A \$60 swimming pool fund that has been kicking around the Chamber of Commerce treasury for 12 years was turned over to the new Community Swimming Pool trust fund at the regular meeting of the C. of C. April 19.

Convention Draws 3 From Pemberton

Three members of Pemberton PTA attended the Provincial PTA Convention.

Frank MacNeil went as the official delegate accompanied by Mrs. Beth Pipe and Mrs. Doris Morozoff.

DONATING CORNER LOT in Garibaldi Park Estates, Pat Goode, center, turns over deed to Mrs. Peter Alder, right, and Mrs. A. Shemko of the Community Swimming Pool committee while volunteer work party clears and burns brush. Tickets on lot are now on sale. Chris Arnet felled all the trees last Sunday morning and the clearing party gathered in the afternoon. Seen above are William Petruck, Harold and Thor Halvorson and Al Shemko. Among other

volunteers were Mrs. Walter Goss, Jim McKellar, Archie Elfter, George and Kay Lyons, Johnny and Eileen Schmidt, Mrs. Helen Robinson. A work party is being called again next Sunday morning from 10 to 12 noon. There is a particular need for men with power saws to cut up fallen trees. Walter Goss has offered to level lot with bulldozer if clearing can be completed in 10 days.

Will Work On At Whistler

GODA Pledges Support To Banff: Hopes For '72

The Garibaldi Olympic Development Association sent its congratulations to Banff today and pledged every support for the 1968 Winter Olympic Games.

John S. Shakespeare, chairman of the Garibaldi Association, said the choice of the Canadian Olympic Association was an excellent one. He offered his group's assistance in preparing for the 1968 Winter Games if Banff receives the International Olympic Committee nod in 1963.

The Whistler Mountain area of Garibaldi Park was discovered as a potential Olympic site by Sidney Dawes, Canadian representative on the International Olympic Committee, in March of last year.

"If Banff does not receive the International Olympic Committee vote in 1963, then we will be back in the running for the 1972 games," Mr. Shakespeare said.

He added that proposed development of the Whistler

ing next winter.

"We wish to thank the citizens of the lower mainland and other parts of B.C. for their magnificent support and assistance over the past year. We hope they will continue to help in establishing the area as a year-round recreation site and tourist attraction," he said.

Bd. Of Trade Becomes Chamber Of Commerce

Squamish and Howe Sound District Board of Trade became Squamish and Howe Sound District Chamber of Commerce at the regular meeting April 19 in the Legion Hall.

This follows a general trend throughout Canada where it has been found that foreigners, especially those from United States, mistake a board of trade for a government agency.

DAVID AXEN, winner of a \$2200 scholarship from the National Research Council, plans to continue his studies in nuclear physics at UBC. He is the son of Mr. and Mrs. Eric Axen, Brackendale.

C of C Gets Dentist Bill

From advertising in the British Medical Journal for a dentist, the first communication received by Squamish Chamber of Commerce was the bill.

For classified in the 13,700 circulation monthly the invoice is two pounds, two shillings and six pence, or \$5.90 as figured by secretary-treasurer P. E. Russell.

DOWN IN THE VALLEY

by John Alexander

With the Winter Olympics out of the way, we understand that the next function of GODA will be to bestow the title "Cecil of Garibaldi" on the man whose government has done so much to keep Garibaldi Park pristine and pure, uncluttered by development, the ultimate in conservation.

Well done, GODA. May the grace of this gesture temper your loss and that of the people of British Columbia.

Guests Come To United Church

A team of young people will conduct the evening service at Squamish United Church on April 30 at 7 p.m.

They have just graduated from the Christian Leadership Training Center at Nanaimo, B.C. and along with other teams will be addressing dozens of churches in the lower mainland area during the next few weeks.

On May 14, William Wilson, education director of alcohol research, will be guest speaker for the evening service.

He is a graduate of several courses on alcohol problems and has had 20 years experience as a policeman.

He addressed over 300 meetings during 1960.

ONE OF THE BUSIEST MEN about town these past few Saturday nights has been Ian Hamilton, right foreground. Here he pulls car out of wide ditch at Buckley's Crossing after it careened 430 feet out

of control. Driver William Thomas Anderson, North Yards (opening door of his car), was charged with driving without due care and attention.

Editorials by the Publisher

Keep GODA and Whistler Mt. Alive...

Although disappointing, the news of Banff getting the consultants' nod for the 1968 Olympics was really no great surprise. Most of us secretly knew it would be this way, but overtly claimed that Whistler Mountain was the one and only choice.

Why did most of us think that the engineers would pick Banff? Because most of us have felt all along that our B.C. government did not support the efforts of the Garibaldi Olympic Development Association. We criticize the government for its watered-down, non-committal attitude towards the whole effort.

But let us not belabor the government's attitude any further. We still have Whistler Mountain and what is of further importance the tremendous interest shown by young and old from all over the northwest. To drop GODA would be the most foolhardy move.

We therefore, are pleased to hear that further work is being planned by the GODA supporters to bring Whistler Mountain and its outstanding natural features closer to public use.

But first, we urge the government of B.C. to continue its program of road construction to Alta Lake and eventually through Pemberton Valley to Lillooet. Aside from the fact that such a road would open a wonderful country with many Whistler Mountains, it is practically an economic must for the future development of Pemberton and Mt. Currie.

However, the important thing to remember is that Squamish Valley will stand to gain with any type of development of Whistler Mountain or any other part of the western side of Garibaldi Park.

But a road to Pemberton is the first step.

Play Ball ...!

While ice hockey is readily acknowledged to be Canada's national sport, the popular all-age sport of baseball runs a tight second.

It is a game of the people, a truly spectator sport that mixes all social and intellectual classes into one cheering section of red-blooded Canadians.

And this includes ourselves of the Squamish and Pemberton valleys.

It is the local youngster who skips classes to play ball. It is the top level executive who shuns a high level conference to rub elbows with the man who delivers his milk or his mail, the man who trucks his products or packs them.

Baseball is a bit like football. It's a free man's privilege to jump up and cheer, or boo the ump's decision; to grandstand manage when apparent vic-

tory for the local team suddenly turns into disappointing defeat.

And in today's fast moving world, as we look longingly at paths to other planets and strive doggedly to keep the peace, the attention after school, on the Sunday afternoons when baseball games are in play, that is the anchor of stability for our nation.

Not even the highway to Vancouver, or the varied entertainments of television have dimmed baseball's popular beacon in Squamish Valley. The ball and bat mean a game for all, offering the opportunity to every boy to compete on an equal footing with his fellows.

The umpire's shout of "Play ball!" heard throughout the North Howe Sound districts this week carries an unmatched appeal. A sign of the vernal equinox, yet.

Tourists and Crosswalks...

There is no apparent relation between tourists and crosswalks except when tourists with their cars begin plugging up our village streets and there is danger of accidents to pedestrians.

Squamish is growing and the day when anybody can stroll across Cleveland Avenue at any point his fancy takes him are gone. Traffic is on the increase and most of it is out-of-town, made up of drivers of all ages and experience who are not accustomed to the town.

The Times suggests that the Village Commission and/or the Chamber of Commerce take steps to see that proper authorities are instructed to paint in

white "crosswalk" lanes. This all-important life-line denotes to pedestrians the area of safety in crossing streets and avenues in the busy traffic centers of our village.

Must we wait until an accident occurs before action is taken? Let us not rest too long on our good luck for before you have read this editorial a pedestrian—child, adult or elderly citizen—could be injured, crippled for life or killed outright.

It would be a bright, well-earned feather in the cap of the Village Commission if it would see that crosswalks be provided at all major intersections.

Three Categories

B. C. Teachers Approve Status Selection Program

B.C. teachers at their annual convention in Vancouver during Easter week established a plan to have their Federation classify their own members according to qualification, experience and record, and deny status to any held unfit.

The plan implementing principles laid down a year ago provides three categories: "professionally certified teacher," "teacher," and "probationary teacher." Members will hold cards stating category. Those unable to meet standards will be issued "Category Withheld" cards.

PROFESSIONAL
A "professionally certified teacher" is one having at least three years' experience, proven competence, and having a provincial department of education certificate SB, SA, PB, PA or PC elementary, degree.

A "teacher" is defined as one holding a permanent B.C. teaching certificate, having three years' experience and proven competence.

A "probationary teacher" is one entering the teaching service of the public schools of B.C. for the first time, or an experienced teacher from outside the province.

may be persons "authorized to write official reports" on teachers. Teachers must be advised in writing of the reasons for granting particular categories. They have the right of appeal to the executive committee of the B.C. Teachers' Federation if they have objection to the category they receive.

A start will be made on implementing the plan this year but it can not be put into full effect until the Federation's constitution is amended. The required constitutional changes will be made at the 1962 teachers' convention.

The membership plan highlighted the four-day convention held in Vancouver.

ART AND MUSIC
The convention considered several aspects of the Chant Commission Report. It opposed the rigid prescription of mite allotments for art and music. It expressed support for such a program as that described by the Commission for a Junior Vocational Course, but disagreed with the examination system recommended for placing pupils in the program.

The meeting agreed with the necessity for effective selection and streaming of pupils in the secondary school to improve standards, but stated that the desired standard of achievement can be gained by means more acceptable than the drastic school re-organization proposed by the Commission.

The meeting expressed concern that the term "intel-

tual development" as used in the Commission's report may be interpreted too narrowly. The Federation stated that the term should be broad enough to take cognizance of the contribution that such subjects as art and music can make to intellectual development.

AID PLAN
The convention decided to allocate one dollar per member each year to cover the cost of sending a teacher to an under developed Asian or African country.

The Federation's Fergusson Memorial Award went to Robert R. Smith, a retired Vancouver elementary school principal. Honorary life membership in the Federation was awarded to Bernard O. Gillie of Victoria, John H. Sutherland of Vancouver, Victor A. Montaldi of Burns Lake, Harold K. Bearisto of Vernon and Mrs. Elva Kettlewell of Nelson.

Lynn Peachy, a UBC student from Victoria, received the \$200 Federation Charlesworth Memorial Scholarship. Mrs. Ingrid Cowie, an elementary school teacher in Campbell River, was awarded the Christie Scholarship.

The newly-elected officers of the Federation are: President, Kenneth M. Aitchison of Burnaby; first vice-president, Harold M. Palsson of Sooke; second vice-president, James W. Stewart of Coquitlam; secretary-treasurer, F. James Cairnie of Victoria.

NEW LOOK at the old Alice Lake beach shows curved stone steps being built and new bridges built over the creek. This section is adjacent to the children's pool area.

Ends at UBC

Modern Exodus Canada's Gain

The final chapter of a modern exodus will be written in May when the last 23 students of the Hungarian Sopron faculty of forestry take part in graduation ceremonies at the University of British Columbia.

The ceremonies will mean that the Hungarian school, which was founded in 1809 and found another home in British Columbia in 1956 following the ill-fated Hungarian revolution will close its doors forever.

The flight of the foresters began in November, 1956, when Russian tanks rolled into Hungary to crush the now famous national revolt.

Led by the head of the school, Dean Kalman Roller, 300 persons, including 196 students, 29 professors and their wives and families, fled to Austria.

In Vienna they came to the attention of the Hon. Jack Pickersgill, then Canada's minister of immigration, who was investigating the refugee problem. He suggested to the Hon. James Sinclair, then fisheries minister, that the refugees should be transferred to UBC in view of the Canadian need for foresters.

UBC's president, Dr. Norman MacKenzie, when approached, was enthusiastic about the idea and enlisted the aid of the forest industry of B.C.

Within 24 hours the Powell River Company had agreed to accommodate the refugees in an empty construction camp at Powelly River.

The head of UBC forestry faculty, Dean George Allen, and the public relations officer for the Powell River Company, Fred McNeil, flew to Vienna and returned with Dean Roller to survey the local situation.

The "University in Exile" sailed for Canada early in 1957 and after living in Powell

HOWE SOUND HIGH LIGHTS

—by Marsh & Moore

To paraphrase a saying of CKWX disc jockeys: "Our famous name for this week" is Roger Charles Zahar, grade 7J homeroom teacher.

He was born in Vancouver, one of ten children. (As a note of interest, four children of this family were born in China, two in New York and four in Vancouver.) He spent eight years in private schools.

The summer before he entered Grade IX he went to Europe, touring extensively over a period of four months. On returning he went to Grade XI at Lord Byng High School in Vancouver.

Then he decided to leave school and work. This decision lasted for approximately one year, after which he returned to school and completed Grade XII. Not only that, he also went on to complete a five-year course at UBC.

Some people may remember Mr. Zahar as a student teacher at HSH last year. He remarked that he liked Squamish and is planning to teach here again next year.

We suppose it is the duty of reporters to report the bad news along with the good.

Stop At Railway Crossings

Police throughout the province have been advised by the attorney general to step up surveillance of commercial vehicles not stopping at railway crossings in compliance with the Motor Vehicle, Motor Carrier and Transportation Acts. Local trucking and transportation firms will be advised by the Squamish RCMP detachment.

Mrs. E. McNeil Dies at 92

A long-time resident of Squamish, Mrs. Emily Elizabeth McNeil, passed away in Vancouver last Wednesday in her ninety-second year.

The deceased was the widow of W. McNeil, who operated a dairy in Squamish for many years. They built the house on Third Street now occupied by Mr. and Mrs. J. McLean.

Following Mr. McNeil's death, his widow lived with her only daughter and son-in-law, Mr. and Mrs. Stan Jordan. When they moved to South Burnaby she accompanied them.

Mrs. McNeil is survived by her daughter, three grandchildren and one great-grandchild.

To A Dedicated Athlete

—by Ross Cameron

How many people of the Howe Sound Area realize that we have in our Howe Sound High School the Midget Broad Jump record holder of Canada?

Roger Mercier is that person. In all he is one of the best things that ever happened to Squamish.

For two and one-half years he has been jumping consistently over 20 feet. His midget record is 20 ft. 7 1/2 ins. set in 1959 at the age of 15. This year as a juvenile he jumped 21 ft. 1 1/2 ins. at a UBC meet.

Roger is a dedicated athlete. He trains every day before school, during noon hours when everyone else is wasting their time, and after school.

Rain does not discourage him in the least as he constantly strives to better himself by watching his stride, his step, his take-off and his form.

After every jump he uses a measuring tape, and each time he is never quite satisfied, going back to the head of the running strip to try again.

He is a very good friend and a popular person at a dance or a social gathering and is very reluctant to speak of him progress to anyone.

In all he is one of the best things that ever happened to Squamish.

This year in his first meet he broke his old record with a jump of 20 ft. 9 ins. Since then he has jumped 21 ft. 1 1/2 ins. at the UBC meet, beat all opposition as a member of Vancouver Olympic Club in a Seattle meet, jumping 20 ft. 3 1/2 ins. and came second in high jump at 5 ft. 8 ins.

He was first again at Balalava Park with broad jump of 20 ft. 3 1/2 ins., and high jump 5 ft. 9 1/2 ins.

This season Roger has a total of 10 meets which he is planning to attend.

Surely this is something for everyone to know of and to take pride in, for very few small villages have ever had a Canadian champion in anything.

It is a great shame that such things should go unnoticed by so many people.

Stawamus Ties One On: Hurrah!

Two rounds remain on the local soccer scene with the Bombers leading the pack and league playoffs to begin May 13.

Stawamus found the range last week and held the second place Canucks to a 1-1 tie. Though their place in the cellar is fairly secure there is no telling just what a taste of success might do.

In other league games Britannia tied 3-3 with Bracken-

dale on Saturday and the first place Bombers shut out Mamquam 2-0 on Thursday.

Woodfibre was host to the east side boys on Sunday and fielded a team with enough soccer savvy to down Stawamus 7 to 1. But the adults took to the field and regained the east-side honor. Brackendale and Mamquam teams went along and Brackendale won 3 to 2 in exhibition.

The Squamish men, looking for a bit stiffer competition, will play the Park Royal team from West Vancouver next Sunday at the Squamish school grounds.

System of playoffs has not been definitely decided but it is probable that the first and second teams, and third and fourth teams will meet in semifinals and the winners will play off for the championship.

League Standings

	P	W	L	D
Bombers	13	6	1	1
Canucks	12	5	1	2
Brackendale	10	4	2	2
Mamquam	6	3	5	0
Britannia	6	2	4	2
Stawamus	1	0	7	1

LIONS NOTES

Guest speaker at the Lions Club meeting, Mr. Barry Clark, president of the Pacific Swimming and Life Saving Club.

The Squamish Lions Club will sponsor a one-day, possibly two-day show in the summer by this club.

Guest of the Lions Club on Thursday, April 20th, S. R. Bishop, chairman of the Village Council, and F. Wilson, works foreman.

Cpl. H. T. Routledge was received into the Lions Club. Welcome Henry.

ROGER MERCIER, 17-year-old grade 11 student at Howe Sound High is also a track star with an enviable record of firsts including the Canadian Midget Broad Jump championship won in 1959. Now in the juvenile class with a year to go, he has his sights set on the B.C. record of 21 feet, three inches. Next Saturday he goes with Vancouver Olympic Club to Bellingham for a dual meet with Western Washington and the following Saturday he will compete in the open Vancouver relays. Roger first showed himself as possible championship calibre at 12 years of age with a second place broad jump of 17 feet, 10 inches at a West Vancouver track meet. Since then he has been under the careful coaching and encouragement of Stu Foreman, Howe Sound High physical education instructor.

Mackenzie, Pres.

Local Men Are Taking On GSL Football

Alistair Mackenzie was elected president of the Squamish branch of the North Shore Gordon Sturridge Canadian Football League at an organizational meeting April 18 in the office of Squamish Valley Timber.

Manuel Seymour is secretary and will also be head coach of the minors when they are formed this fall.

"Hap" Allott is in charge of membership. Committees in charge of equipment and transport are yet to be chosen.

Loehle Brock will coach the Cardinals, who made their debut in the GSL majors last season.

Bill Curran is trainer and first aid attendant, as last

In 1945 the average wage, in Canadian manufacturing was 67 cent an hour, and at November 1960, it was \$1.79 an hour.
