THIRTEEN TAKE FIRST AID TESTS

Thirteen Britannia men, who have been taking the Industrial First Aid courses for the past three months, sponsored by the Anaconda Co. of Canada, took their examinations on Wednesday evening of last week.

Dr. L. C. Kindree was the examining doctor and W. Timcoe of Vancouver was the examiner from the Workmen's Compensation Board.

Taking the tests were M. Adamson, R. Bailey, L. Bishop, D. Christie, K. Gardiner, H. Ingraham, A. McNair, G. Marchuk, W. Mitchell, H. Riley, M. Walsh, A. White and W. White.

Council upholds building bylaw

G. A. Wells, who had started work on the foundations of two duplex dwelling on lots 2 and 3 of block 23 on Britannia Ave., and another duplex on lot 13 of block 18 on Newport Ave., was told by village council at a special meeting at noon last Thursday that he would have to "cease operations until such time as he obtains a building permit and if he does not do so he will be faced with legal action."

According to the village by-laws, a dwelling in residential areas, must be 15 feet from the front street, or set back the same distance as 40% of the other home on that street. In the case of Britannia Ave., the average set back is approximately 35 feet and on Newport Ave., it is 25 feet.

In both cases, Mr. Wells was planning to have only 15 feet between the front of the building and the street. Home owners in the area had protested.

Wells attended the council meeting on Tuesday evening and admitted he had not received a building permit but said one was allowed to proceed without one in other areas. He also said he was not aware of the clause which stated that buildings must conform to 40% of the others in the vicinity.

He also said that if he was forced to move the front of

the building back to conform with those already on the street, he would be unable to proceed with his buildings plans.

Council chairman P. J. Brennan and commissioner Mitchell visited the site on Wednesday and Brennan said that "all that has been done is to ruin one man's home and the appearance of the street."

SHOULD HAVE OBTAINED PERMIT

"Mr. Wells has no right to start construction without first obtaining a building permit," the chairman said and he added that "it might be necessary for council to amend the by-law to see that all duplexes face the street."

A group of interested residents from the streets on which the buildings were to be placed attended the meeting. Present were Mrs. O. Dykstra, Mrs. E. Hansen, Mrs. L. Ingraham, Mrs. T. B. Marsh, A. Bird, G. Goodall, A. Lloyd and A. Summerskill.

Commissioner Hendrickson told the group that "bylaws change, but they are only changed when the need arises. They become obsolete as progress occurs. If there is something wrong with the bylaw we will have to amend it."

Gordon Goodall suggested that if the "construction had not been brought to the council's attention, work might have proceeded so far that nothing could have been done."

Mr. Brennan said that this was incorrect. "It would not matter how far he had progressed. If he didn't conform with the building bylaw, he could be forced to change the building or we could have made him cut it in half."

Building inspector G. S. Clarke told them that he did not look at a building until a permit had been taken out for its construction. After this has been done he made regular visits to inspect the progress of the work.

ENJOYING A TREAT after the kindergarten's visit to Fred 'n' May's Bakery is Ricky Stammers devouring a doughnut while classmates, Iris These and Diane Wood are helping themselves to the tray of doughnuts held by Mrs. E. Binning, one of the kindergarten teachers. The children have visited the Royal Bank as well as the bakery and will go to the library and the fire hall.

Football membership drive

Members of the Cardinals football team will stage a membership drive on the second Saturday in April. The boys will canvass the community on April 11th, selling membership cards in their club.

In addition to supporting the club, each member will have a chance on the two transistor radios which the boys are offering to the lucky holder of a membership card.

Proceeds from the drive will be used to purchase equipment to outfit the Squamish teams which play in the Gordon Sturtridge League.

All boys between the ages of 13 and 15 and weighing between 115 and 150 pounds who would like to play football with the team this fall are asked to contact Fred Bennett at the Standard Oil plant.

Scholarships for school district

Howe Sound School District No. 48 was informed at the school board meeting last week that Canadian Collieries plans to offer three scholarships to secondary school students in the district. The board was delighted to hear of the decision.

G. W. Hayes of the Pemberton Elementary - Secondary School will attend the provincial principals' conference at UBC from July 20th to the 31st. The conference, which is limited to sixty principals from the province, is sponsored by the B.C. School Trustees Association in co-operation with the Department of Education.

T. B. M. Fougberg and Mrs. A. Philip attended the seminar for school board chairmen and vice chairmen at UBC last week. They mentioned that many of the matters discussed, particularly in the business field, were applicable to a much

larger district than Howe Sound.

The trustees attended Trustee Day in Vancouver and Victoria and met many of the teachers who are interested in obtaining positions in the various school districts. The board felt that this was more successful than it had been in the past as more students took the time for interviews with the various boards and if they decide to apply for a position in the district the trustees feel that they will have some knowledge of the teacher who is making the application.

4.25 percent dividend

Big year for Credit Union

The Squamish Credit Union declared a 4.25% dividend at the annual meeting on Saturday, March 14th. Shares have reached an all time high of \$220,454.30 and the total amount of the loans is \$284,292.26. In addition to the dividend, a 10% patronage refund was voted.

The meeting also decided to assess each member the sum of one dollar per year for education purposes, the assessment to be deducted at the time the dividends were paid.

Two directors, L. Babuin and F. W. Allott were elected for three year terms. They replace T. Fowler and K. Farrow, who are both retiring. S. R. Bishop, W. Curran and R. E. Jordan are the other directors. F. Golaiv was elected to serve a three year term on the credit committee and R. Kilmartin to a two year term. D. DeBeck is chairman of this committee.

L. McKenna was elected to a three year term and O. Dykstra and D. Kirkwood to one year terms on the supervisory committee, joining R. Armstrong and J. Mulhern on this committee.

In the president's report, T. Fowler said that "both income and expenses have increased over the last year, leaving a slightly increased surplus. We were able to increase our Manager's salary and give her part time help. Another office machine was purchased for accounting purposes."

Membership has increased with 169 new members. Many of these have transferred from other Credit Unions. Share capital has increased, but there is still a marked shortage of available money to loan out. All members should be urged to build up their savings.

During the year permanent part time help was required to handle the increased business, as well as transferring all accounts from ledger books to ledger cards. The directors felt there was a need to have a trained person in a position to handle relief work when required at the office.

The Directors held 12 regular meetings and 5 special meetings during the year. Mrs. Brock attended the Convention at Vernon, and found it was a very worthwhile experience.

The President was a delegate to the special B.C. Credit Union meeting in Vancouver. Improvements were made to the building in the form of a paved area and planters out front. The side lot line was straightened out to conform with the buildings, this was done at the time the Overwaitea built next door.

The manager, Mrs. Jessie M. Brock, in her report said that "On March 1st the Squamish Credit Union took another step forward and started secondary checking and it is surprising how many accounts we have already."

She also added that plans

for the coming year include some remodelling of the Credit Union office and the purchase of additional equipment and furnishings.

She thanked the retiring president, Tom Fowler, who is leaving for Prince George, and the vice-president, Ken Farrow, who started on the Credit Committee in 1955 and has served on the directors and supervisory committees since that date. She also thanked W. V. Manson and F. D. Ross for their work on the credit and supervisory committees.

Credit Committee chairman, D. DeBeck in his report said, "In the past two years the number of loans processed by the Credit Committee has increased tremendously. Also the amount requested tends to be larger than formerly. Now the Committee does not know many of the members, even by name. So the policy has changed somewhat. Rather than putting the onus on co-signers the person requesting a loan is asked for a mortgage on house or other property, or a lien on a car. This is found to be more satisfactory to all concerned in the event of a bad loan."

"To handle the increase in loans, the Credit Union has, for the second consecutive year, found it necessary to borrow from the B.C. Central Credit Union. Several times during the past year, we reached our maximum borrowing capacity from the Central Credit Union, and so were forced to refuse, or postpone loans. This very definitely points out the need for more share capital. Our own local Credit Union is not making the money it could, if it is using borrowed capital."

Business Loans	\$ 29,253.07
Real Estate	71,360.85
Cars	7,576.00
Home Improvement	15,365.00
Miscellaneous	49,304.53
	\$173,559.53

Miscellaneous loans were trailers, holidays, consolidated debts, Christmas expenses, etc.

J. R. Thompson of B.C. Central spoke on secondary checking and said that this has been introduced in one third of the Credit Unions as an additional service. He said it is separate to savings or share capital. Current funds go into the checking account with a charge of ten cents per cheque issued.

He also suggested that the directors look into the matter of term deposits.

The B.C. Central Credit Union, also started in 1944, so it (Continued on Page 3)
See CREDIT UNION

A. Stefiuk heads Car Club

Alex. Stefiuk was elected president of the Squamish Car Club, with Ken Crowston as vice-president, Doug Barnfield secretary, and Stan Olsen treasurer. There are twelve members in the club.

Bill Fairhurst, head of the safety committee, says that the club was started with a view to making cars and car driving safer. He added that it is an opportunity for the boys who have their own cars and are interested in them, to learn more about their vehicles and how to take care of them.

Members' cars are checked periodically to make sure that they are safe to operate and if they are not, the owner must see the car is repaired.

She also added that plans

THE SEVEN BROWNIES who earned their Golden Bar and their leaders from left to right: Brownies Marcia Seymour, Debbie Borg, Anita D'Appollonia, Donna Doherty, Beverley Hill, Claire Minchin and Ethel Kenedy. Leaders are Mrs. J. McKenzie, Mrs. J. Hill and Mrs. L. Moule.

W. I. convention in Pemberton

The Pemberton Women's Institute is making plans for the forthcoming North Fraser convention which will be held in Pemberton on May 13th. These were discussed at the first meeting of the year, held at the home of Mrs. J. O. Decker.

A member who recently returned from a vacation in Mexico brought back several colorful sun hats which could provide the necessary shade during the summer months when there is a great deal of sunshine in the Pemberton valley. Modelling the various colored and shaped hats were Mrs. J. Cosulich, Mrs. Bek, Mrs. T. Collier, Mrs. E. Hellevang and Mrs. P. Sinnes.

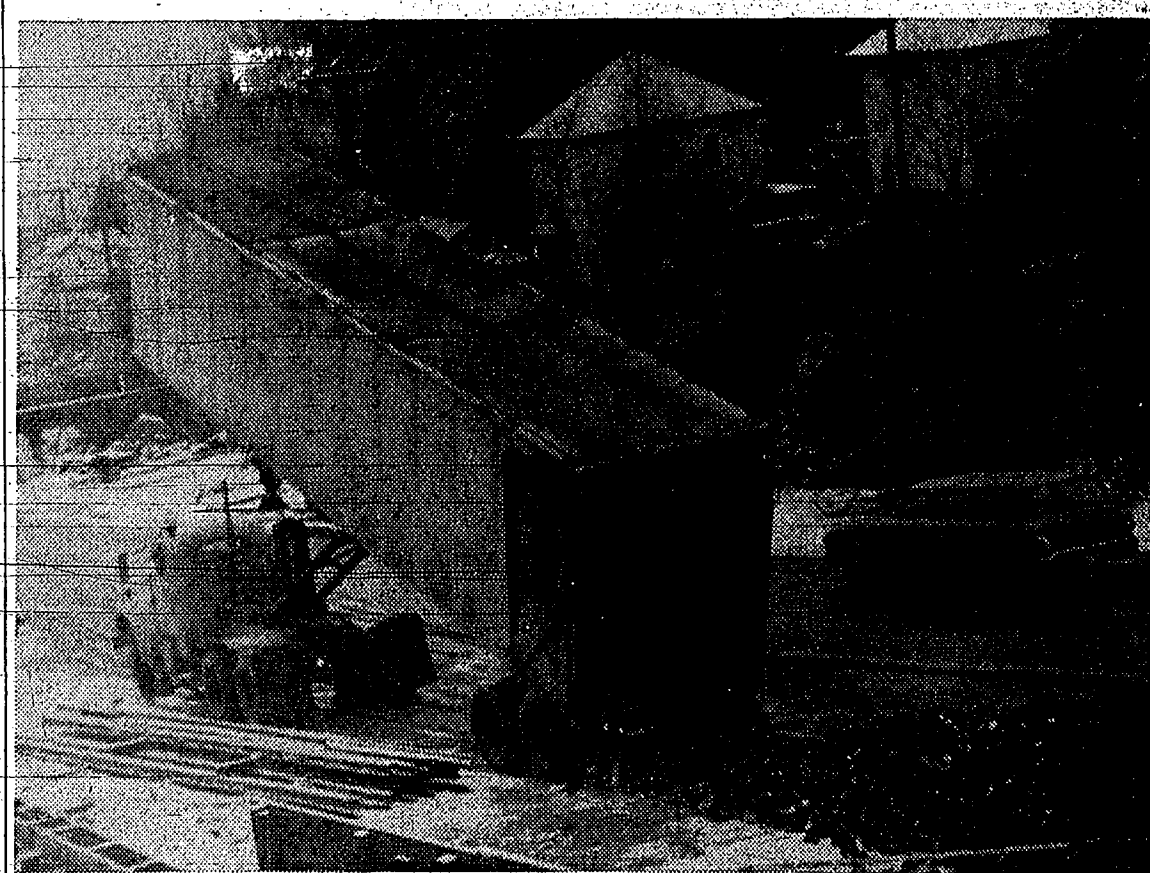

The next meeting, a working get-together, will be held at the home of Mrs. Decker where the group will work on the used and outdated school books which have been collected and which will eventually reach the Turks and Caicos Islands after being sent to a depot in Vancouver.

The B.C. Women's Institutes

Gaglardi says road complete by next fall

Highways Minister P. A. Gaglardi told the legislature last week that the Squamish to Pemberton road should be completed by fall this year.

He later told reporters that it should also be paved this year.

TRUCKLOAD OF TINS, 75 tons in all, has just come from Victoria Disposal Co. of Victoria, B.C. The tins, which are found at the city dump, are burned and shredded and then brought to Britannia in this specially built dump truck. The tins are placed in troughs

and water from the mine washes through them. The iron goes into a solution and copper sludge is formed through chemical action. The sludge is then shipped with concentrates from the mine to the smelter in Tacoma, Wash. (Wayne McGregor photo)

Vol. 8, No. 11 SQUAMISH, B.C. — THURSDAY, MARCH 19, 1964

First Things First...

So Mr. Gagliardi told the House that the Squamish-Pemberton road should be completed by this fall and later told reporters that it should also be paved this year.

This is good. But please, Mr. Gagliardi, didn't any one tell you about the old saying of first things first? What good will a completed road from Squamish to Pemberton be if there is an eight mile bottleneck in the forty mile stretch from Vancouver to Squamish?

We don't know what kind of highway building our minister is indulging in, but it doesn't make sense to us to have a first class highway to Britannia, an excuse for a road from Britannia to Squamish, and then another good highway the last fifty miles to Pemberton.

We would say that the road from the Alice Lake cut-off to Garibaldi, with perhaps the exception of a few small stretches in the canyon, is far superior to the one from Britannia to Squamish, even if the latter is paved.

Certainly the new road is wider and does not have the blind corners and sharp curves of the "missing link". We would suggest that the road from Britannia to Squamish be re-located and re-built.

Our MLA, D. F. Robinson, said last fall that this would be done as soon as there was a slackening in the summer

tourist traffic. Evidently he doesn't see eye to eye with the highways minister. According to information given to the Regional Development Committee of the Howe Sound Industries Association, he contemplates no immediate action on the road from Britannia to Squamish.

Traffic along this road is already heavy, even during the tourist free winter months, with all the commuters from Woodfibre and Squamish industrial plants going to and from their homes in Vancouver. With the summer coming, the increase in tourist traffic and the attraction of the new area to the north which is being opened up, we can see immense traffic jams between this town and Britannia.

The narrow winding road, with its sharp curves, many of them blind, and a speed limit of 30 miles an hour, creates a traffic hazard, especially when a slow, cautious driver, usually a tourist, travels even more slowly, and exasperated drivers, more familiar with the road, attempt to pass them. This can really be a dangerous situation, and will become more dangerous as time goes on.

We would urge the highways minister to widen and straighten the Squamish-Britannia road before he completes and paves the Squamish to Pemberton link, if only in the interests of highway safety.

A Road To Cheakamus Lake...

In setting aside almost 50,000 acres of Garibaldi Park as a nature conservancy, the Department of Recreation and Conservation is preserving the choicest portion of the park. This has long been recommended both by the Garibaldi Joint Action Committee and the North and West Vancouver Council of Women, who sent such a resolution to the department last month.

However we hope that this does not mean that the remainder of the park will be commercialized or industry will be permitted to exploit the timber resources therein. It is our understanding that much of the timber is such that it would not be economical to log because a considerable quantity of it is over-mature. If selective logging, which is costly and has to be subsidized is the only method, we can see no urgent need to log the approaches to the park or the narrow valleys which lead into it.

We would like to suggest that Chea-

kamus Lake be included in the conservancy, or if it is not, that no logging be permitted around this Lake. It would be easily accessible by road and here is one area in which it would be possible to open up a portion of the park for the use of the general public without too costly an outlay for highways. It could also lead to the possibility of developing the Singing Pass area for a future ski resort.

We have received reports that the timber in this portion of the park is in some cases as much as 80% over mature and that much of the timber in the same altitude but outside the park ran very heavy to "conk" and was not suitable for lumber. This would preclude all possibility of making it a successful logging operation.

A road into Cheakamus Lake and the opening up of the surrounding portion of the park to the general public should not be too costly once the highway north to Pemberton is completed.

Chief Not Chieftain...

We don't know how the name of the stately mountain which towers above our town was corrupted from Chief to Chieftain, but in the past few years we have noticed that there is a growing tendency, particularly in the city papers, to call it by the latter name.

So, we'd like to take a few minutes to correct the situation and point out that the proper name is the Stawamus Chief. We've lived here for a great many years and only in the last few have we noticed the alteration in name. In fact the old pictures, one or two of which we have in the office, refer to it as the Chief.

We weren't too happy when Bug-house Heights was changed to Northridge, and we think Skunk Hollow had a far more intriguing sound than Valleycliffe. But we can see that a person

developing a subdivision would like a more beautiful name. However, when they try to alter the name of the Chief, our hackles rise.

We are fortunate in having such a natural phenomenon on our doorstep. Tourists who come to the valley stand in awe, overpowered by the sheer rock face which towers above the town. They are always interested in hearing about the reason for the naming of the rock and in having the profile of the reclining chief pointed out to them.

You've all heard the old rhyme: "Soldier, sailor, Indian Chief..." Well that's it. Indian chief, not chieftain. And that's the name of the mountain. And as far as we're concerned it will be the Chief as long as the granite of which it was created endures.

What Happens To The Saved Time..?

Nobody has been able to provide a satisfactory answer to the question, "What does the excessive speed driver do with the time he saves?" But tests have shown that the time is not worth the risk.

The B.C. Automobile Association points out that if a car is driven at 65 m.p.h. on the open road where the posted limit is 60, four minutes will be saved on a 50-mile trip. One-fifteenth part of an hour!

If you drive at 35 m.p.h. where the safe speed would be 30 m.p.h., the BCAA says the time you save in one mile is no more than 17 seconds.

Following too closely, passing without waiting until all risk is absent, weav-

ing, cheating on traffic signs, beating the change in traffic lights by a fraction and you save parts of a second.

However frantic life may be, nobody would notice reducing a meal hour by one minute; sleeping time by five minutes; the time spent under a shower by 30 seconds.

Yet such adjustments in even the most hectic schedule would eliminate the risks of excessive speed — a primary cause of highway deaths.

Dangerous driving is not the calculated action of an intelligent person. It is a silly attitude of mind developed by people who have never learned to organize their minutes safely and efficiently.

Remember Walking To School..?

Squamish mothers and fathers will be interested in this item.

The Wall Street Journal recently published a letter from a reader (father of four) in Oregon, who reports that a local school district which had to reduce its budget and restricted transportation of pupils to those living beyond one mile

from the school.

This is a sharp contrast with the days of the Oregon Trail.

Even most people now living in Squamish will remember when getting to school was an effort to be made on foot, whether or not the school was next door or five miles away.

"ANGELS" OF MERCY — Believing in the truism that "practice makes perfect", two para-rescue airmen from the RCAF's Search and Rescue flight at Station Vancouver glide earthward near Abbotsford, B.C., in a continuous training program designed to improve both techniques and reflexes. Skilled in first-aid and dedicated to their cause of aid-

ing those in distress, two airmen from this unit recently jumped to the assistance of an American flyer in mountainous terrain near Penticton. In thanking them he remarked, "you sure looked good coming down". The para-rescue section's six airmen jumped 317 times last year for various reasons; an average of 52.8 jumps per airman.

Coral seas sparkle

Snorkel, scuba divers find haven in Jamaica

The crystal clear waters surrounding the island of Jamaica are as fascinating below the surface as they are enticing above.

Where the keels of Spanish galleons, pursued by privateers, once cleft the Caribbean Sea, pleasure craft now carry skin and scuba divers out to the coral reefs to explore the mysteries of the undersea world.

Here the divers sometimes find the shattered ribs and rusted cannons of sunken sailing ships which once plied the Spanish Main, driven to destruction by weather or pirates.

But finding a sunken ship is a rare occurrence for the amateur, so the Reef Club Hotel at Ocho Rios, on Jamaica's north coast, has had the re-

mains of an ancient Spanish galleon lifted from a reef 90 miles south-southeast of the island and reconstructed in about 30 feet of water half-a-mile off the hotel beach.

The wreck was raised from Banner Reef, Pedro Bank and transported to its new site by Art McKee, marine archaeologist, student and adventurer.

Capt. McKee carefully researched the history of the vessel and discovered it to be the Spanish galleon "Genovese" which was sunk in a violent storm in 1730.

The galleon was raised piece by piece only after careful mapping of the area in which it was found, then sunk again off the Coral Reef Hotel in exactly the same position to re-create as perfectly as possible its condition as originally found.

The water here is so clear that the visibility is almost as good at 90 feet as it is on the surface, and the coral reefs encircling the coast prevent large predatory fish from entering the waters where divers operate.

Complete skin and scuba diving equipment can be rented at the Coral Reef for modest rates, and Mr. Lamoureux, beach and pool manager at the hotel, maintains a staff of five experienced divers as instructors and guides.

Scuba diving and snorkeling have opened up whole new worlds to Caribbean vacationers, and nowhere are there more exciting reefs to explore than off Jamaica's north coast at Ocho Rios.

Trans-Canada Air Lines operates regular flights between Vancouver and Montego Bay, on the North Coast, and Kingston, Jamaica's capital, to the south.

Final plans next month

Preview valley planning project

by Rose Tatlow

Have you ever wondered what Squamish and its surroundings would look like in 2000 A.D.? If there would still be a town or a valley? Whether it would be a suburb of Vancouver or a self-contained community?

Commissioner A. W. Hendrickson, F. Leeworthy, village clerk Glenn Felt and I were given the opportunity to see how the students in the graduate study class in community planning at UBC think the valley should be developed.

It was a fascinating insight into the way a class works on such a project. The sixteen students split into four teams and each team presented its ideas on what should be done with the valley. Their suggestions covered the eight miles from tidewater to Cheekye and while some of their suggestions were visionary and idealistic, many were practical and all showed the considerable work and thought which had been expended on the planning.

A striking feature of the four plans were the many suggestions and developments which they had in common. All mentioned some form of river control, the incorporation of the valley as a municipality in order to plan the proper development, reclamation of tidal flats for industrial purposes, the ultimate industrialization of the entire lower portion of the valley, an airstrip, wide use of "green belts" and park development, and the construction of residential areas on the neighbourhood plan with schools, churches, shopping centres and other allied services.

Another interesting feature which each plan showed was the rerouting of either the highway or the railway to run side by side in order to minimize the cutting up of the usable land in the valley. Most of them deplored the existing power lines and the way in which they split the valley into several segments, and wished to see this altered.

In the first plan, presented by D. Grimmer and D. Barcham, river control was the key to eventual development. With this control, salvaged land could be used for parks and green belts, while the orderly development of a town of 30,000 to 50,000 people could proceed without setbacks. They visualized a concentration of industry in the present town, and as far north as the PGE shops with a commercial center in the flat area east of the shops. There would also be a residential area here, with others at Valleycliffe, Garibaldi Estates and the Cheekye fan.

Future development would see light industry in the Cheekye area and more residential development in that sector. Another suggestion was for a heliport in the industrial area.

R. Bonsor and E. Thiessen, in the second plan, seemed to think that Squamish might one day be a suburb of Vancouver and concentrated their planning on development of the valley as a commuter residential area with a population of 25,000 and three to five thousand people in secondary industry.

Valleycliffe and Garibaldi Estates were the residential

THE THREE SIRENS

—Irving Wallace

Irving Wallace's novel tells the story of the shattering impact of a seemingly Utopian way of life on a group of American anthropologists who go to the Polynesian Islands called the "Three Sirens" to study the people.

RAFTING down the Rio Grande at Port Antonio, Jamaica, is a favorite excursion for visitors to this Caribbean island paradise. Native captains skillfully guide the bamboo rafts down the river reaches, both smooth and turbulent, on a two-hour journey through the jungle. (TCA photo)

Village planning pollution bylaw

Village council at its meeting last week indicated that it is working on drafting a bylaw to deal with the smoke and fly ash problem. In answer to a letter from the Chamber of Commerce, the clerk was instructed to continue the drafting of the bylaw started by the late municipal clerk, R. C. Horne.

The Chamber's letter commented on the seriousness of the situation, stating that it was worse than last year and that the community is very concerned about the situation. This was indicated by the importance given to the problem at the public meeting last December.

OUTDOOR MUSEUM

B. Davies, of Vancouver, attended the meeting and discussed his plans to develop an outdoor museum and showcase for the logging industry, which he hoped to see located in Squamish.

Council was interested but felt they could not sponsor such an ambitious program. They suggested that the matter be placed before the Provincial parks branch which might consider locating such a tourist attraction adjacent to Alice Lake park.

Commenting on Mr. Davies' suggestion that the museum portion contain examples of early logging machinery, commissioner Kindree asked A. W. Hendrickson if there was "much in the way of old logging equipment in the valley" to which Mr. Hendrickson replied "Certainly, but we're using it all."

A delegation from the Library Board requested that the village grant to the Board be raised and backed the request by quoting that circulation had more than doubled since the original grant was made. Council decided to raise the grant from \$300 to \$500, a raise which will be matched by the provincial government.

Controversy regarding the construction of duplex dwellings on Britannia and Newport Aves., and locating them too close to the road, in contravention of the building bylaw, resulted in instructions to the builder to arrange to leave the required amount of space in front of his buildings.

DYKING FINISHED

Works foreman Frank Wilson reported that dyking was finished and that a road would be constructed along the top of the dyke in order to permit the village equipment to proceed to any potential trouble spots without delay.

Mr. Wilson also reported on the progress of the water main and said that there was not expected to be any difficulty in

completing the work by the specified date. Installation of the pipe on Pemberton Road commenced early last week.

Commissioners Hendrickson and Leeworthy and municipal clerk Glenn Fell reported on the community planning seminar they had attended at UBC where the graduate studies class in community planning presented its four preliminary plans for the Squamish Valley.

Commissioner Hendrickson said that he "was very impressed with the work which had been done and the knowledge they had of the problems which confront the valley."

Commissioner Leeworthy commented on their keenness and the method in which they had utilized the land in the valley which was suitable for development. Both Commissioners said they were eagerly looking forward to seeing the completed plan.

Credit Union

(Continued from Page 1)

is celebrating its 20th birthday along with the Squamish Credit Union. In that time it has grown into a 21 million dollar operation.

Door prizes were won by R. Armstrong and H. Buffrey and two special gag prizes, one for a New Year's baby, won by Mrs. Paul Visona, and the other a "Little CHAMP" trophy consisting of an enamel cup on a wooden stand, was presented to Mrs. Jessie Brock by F. W. Allott.

First Credit Union home off to new site

The first home of the Squamish Credit Union, the small building which later became the Record Shop and then McDougall's Music and Furnishings, moved off the main street last Saturday afternoon heading for a new home.

It was taken up to the Rod and Gun Club's shooting range at the Mamquam. Overseeing the removal was Jack Carraice, one of the executive of the club.

SENIORITA Mrs. Iris Harrison with the linen hamper which has come to be a feature of the Britannia PTA's Spring Fair. It was won by Mrs. D. McGregor. (Wayne McGregor photo)

Election in water district

The Mamquam Waterworks District will elect two trustees for three year terms at the annual meeting in the Mamquam Elementary School on Monday, March 23rd, voting hours from 7 p.m. to 8:30 p.m.

The trustees, one from the area north of the Mamquam Bridge, and the other from the area south of the bridge, will be elected for three year terms. Each candidate must be a taxpayer within the Water Board District. Nomination for the trustees closed on Monday evening, March 16th.

Anyone who owns a lot or parcel of land within the Water Board District is eligible to vote. Each voter will have two votes, one for a candidate in each of the two districts. Financial and progress reports will be given and present and future plans discussed.

Retail spending in Canada, totalled \$18,433,091,000 in 1963, nearly five per cent higher than the 1962 total.

MRS. T. HILL, District Cubmaster for East Howe Sound.

PROGRESS ON CURLING CLUB

Good progress has been made on the curling club building. On February 24th, the forms went in and cement was poured on March 3rd. The framing should start to go up in two weeks.

Gold and brown have been chosen as the club's colors and Jantzen curling sweaters for men and women will be available, at reduced prices for members, at the Alpine Sports Shop.

There are only 32 shares left to sell before the maximum number of members has been reached.

U.S. Plywood may purchase Cancoll.

Western Plywood Co. Ltd., a wholly owned subsidiary of U.S. Plywood Corporation, is expected to offer shareholders of Canadian Collieries Resources Ltd. \$20,000,000 for the shares in the firm.

The offer will be made about the middle of April according to a joint announcement made last week by Norman R. Whittall, president of Canadian Collieries and John Bene, president of Western Plywood.

Canadian Collieries holds two timber reserves including two tree farm licences on Vancouver Island and the coast, with one TTL in the Squamish Valley acquired at the time the company purchased Empire Mills. Its manufacturing plants are Flavell Cedar at Port Moody, Empire Lumber at Squamish, Timberland Lumber at New Westminster and Timber Plywood and Mt. Baker Plywood at New Westminster.

Western Plywood has two plywood mills at Vancouver, one at Quesnel, and one at Edmonton. It also has a sawmill

and planer mill at Quesnel and a sawmill at 100 Mile House. Canadian Collieries Resources merged with Empire Mills in 1962 and early in the following year the hemlock mill in Squamish was opened.

Social Notes

by Freda Clarke

Our sympathy is extended to Mr. Les Walton on the sudden passing of his mother.

Mr. and Mrs. Clive Lewis of Vancouver spent the week-end with her parents, Mr. and Mrs. Frank Wilson.

Mr. and Mrs. James Bird and daughter Deborah returned Wednesday from Selkirk, Manitoba, where they visited Mr. and Mrs. John Bird.

Three local people won the \$5.00 door prizes at the Star Theatre this week. They were: Monday night, Percy Fairhurst; Tuesday night, Miss B. Strom; and Wednesday night, Ralph McClintock.

*What, another HOUSEPOWER QUIZ? Yes! Another opportunity for you to check up on your personal HousePower Quotient... and plug in on better living... electrically!

Do some of your appliances take a long time to warm up? Count ten. Check box!

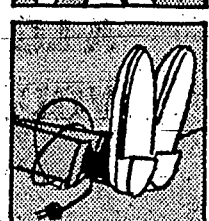

Are you 'roughing it' 'cause your present wiring won't handle another appliance?

Interested in a low-cost way to improve your home's re-sale value? Check this...

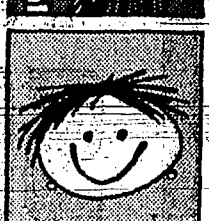

You don't cook in the bathroom, why shave in the kitchen? Outlet shortage?

Ever take a trip on the Extension Line? Tick it here, please!

Do your lights go dim when you plug things in? Kindly check box!

If you haven't checked any of the above boxes, check this one and have it framed. You're the one homeowner in five

who is well-endowed with Housepower!

If you suffer from any of the above symptoms, your electrical contractor is the man to see. You'll be given a complete, professional HOUSEPOWER check-up free. If your home isn't up to strength you'll get an estimate on the work. What do you get for your money? FULL HOUSEPOWER! Rewiring to include plenty of outlets and switches where you want them. Generous distribution circuits. Healthy, 100-amp service entrance. All designed to handle your growing appliance load — to give you full value and convenience for your appliance dollar. Ask your contractor about the HOUSEPOWER FINANCE PLAN, too. It lets you budget the work on easy monthly installments combined with your electric bill. For full details call your electrical contractor or B.C. Hydro, Residential Advisory Service, today.

Debate featured at open house

by Henry Johns

Our High School Education Week program opened at 7:15 p.m. on Thursday, March 12 with a panel discussion on the changing curriculum in the High School.

Mr. Swanton, the first speaker, emphasized that we had to have a new curriculum because the old curriculum was out of date in many subjects. Mr. Baldry then stressed that students in grades 8, 9 and 10 (in the new program) would be preparing themselves for one of the programs in grades 11 and 12. Mr. Zebrowski stated that parents could help students by encouraging them to enter the program which best suited them.

Some of the prominent features of the new program were presented. Grades 8, 9 and 10 would be exploratory, and qualifying years. During these years, a student had to take the electives which qualified him to take further work in one of the fields of study.

These fields of study, the programs in grades 11 and 12, would be: Academic-Technical, Vocational-Commercial, Vocational-Industrial, Vocational-Service, and Vocational-Arts.

Whether all these programs would be offered in the Howe

Sound Secondary School would depend upon facilities, upon the numbers of students demanding them, and upon the number of teachers available.

After the panel, parents had a few minutes to look at displays in the gymnasium.

Shortly after, the school band presented three selections. The band was made up of the band class (a course being offered for the first year), and other students who had played instruments before.

As a close to the formal program, John Frizell, Ike Patterson, Neil Sowerby and Marilyn Smith held a debate on the subject: Resolved, that the Squamish Valley should become a district municipality. Mr. Ramsdale, who has sponsored the debates held earlier in the school, chaired the debate. Marilyn Smith and Neil Sowerby, speaking for the negative, won the debate by a narrow margin.

To end the evening, coffee and sandwiches were served

JOHN POWELL and Cub Mark Lasby trying to guess the weight of a rock for the prize of a beautiful Easter Cake seen on the table. Mrs. Ruby McGregor, in charge of the bake table, is seen at the side. (Wayne McGregor photo)

LOCAL BOYS WILL ATTEND LIONS' CAMP

Local high school football players, Jim Cameron and Wayne Marchant will attend the Lions' annual development camp from March 30th to April 11th.

The boys are among the fifty high school, juvenile and junior football stars chosen from among the 6,000 youngsters playing amateur football in B.C. Each boy has been personally recommended by his coach and the group will receive two weeks of professional training.

The training will be under the supervision of the B.C. Lions head coach, Dave Skrien, his two assistants, Frank Johnston and Jim Champion, and Joe Davies, assistant football coach at UBC.

Wayne and Jim played with the Howe Sound Secondary School's football team, the Chargers, and both boys are applying for scholarships at American universities, Jim at Western Washington, while Wayne may go to Oregon State, Idaho, or possibly Western Washington.

THE NATURAL BEAUTY OF

WOOD

SELLS ON SIGHT!

Prospective buyers instantly recognize and respond to the natural beauty of wood... the incomparable warmth and elegance it brings to any home or office you build. Wood's eye-appeal adds sales-appeal indoors and out... from floor to ceiling, from foundations to roof. In homes large or small, modern or traditional, beauty stands high on the list of wood's contributions to livability unlimited.

Extremely versatile, workable, durable as well... wood enables you to build, in any price bracket, a more beautiful home or office for the money.

WHAT'S COOKING

by Poppy McKenzie

At this time of year, the tag end of winter and almost but not yet quite spring, meal planning is apt to become a bit of a drag. The cook gets a bit bored with standard, repetitious dishes and so do her customers.

At such a time, quick breads give that needed fillip to the menu and they can be speedily mixed and baked.

The following, for example, with a rather stiff batter can be put together in less than ten minutes from start to finish and the muffins take only 15 minutes to bake.

CHEESE MUFFINS

2 cups once-sifted all-purpose flour
3 tsp baking powder
1 tbsip granulated sugar
1/2 tsp salt
few grains cayenne pepper
1 cup shredded old (sharp) cheddar cheese
1 egg, well beaten
1 cup milk
1 tbsip vegetable oil
1 strip side bacon, finely cut up (optional)

Preheat oven to 400 degrees.

Grease 12 average muffin cups. Into mixing bowl, sift flour, baking powder, sugar, salt and cayenne.

Using fork, stir in cheese. Make a well in dry ingredients, add, all at once, combined milk, egg and oil.

Stir only enough to dampen dry ingredients and divide this stiff batter evenly among prepared muffin cups. Sprinkle bacon on top.

Bake in preheated oven, 15 to 18 minutes.

Turn onto cooling rack and serve warm or cold.

Lamb and springtime seem to go together so we'll anticipate the season only slightly (I have two hyacinths in bloom in my garden) with these economical recipes.

LAMB PLATTER

2 1/2 lbs lamb breast, boned in
1/2 cup finely chopped celery
1 medium sized onion, finely chopped
1/3 cup finely chopped green pepper
1 can (20 oz) tomatoes
1 tsp salt
1/4 tsp pepper
1/4 tsp thyme
6 small onions, peeled
3 large carrots, scraped and cut in quarters
6 medium sized potatoes, peeled

2 tbsip flour
1/4 cup water

Brown lamb richly on all sides in large heavy saucepan or Dutch kettle; add celery, chopped onion, green pepper; tomatoes, salt, pepper and thyme; cover and simmer for two hours.

Add the 6 onions, the carrots and potatoes; cover and simmer for about 40 minutes or until vegetables are tender.

Remove lamb and vegetables to warm platter; keep warm. Sift fat from stock in saucepan. Combine flour and water; mix to smooth paste; slowly stir into stock and cook until thickened and bubbly.

Four thickened sauce over meat and vegetables on platter. Makes six servings.

SWEET AND SOUR

BUDGET LAMB

2 lbs lamb ribs or flank, cut in 1-inch strips
1 onion, thinly sliced
1/2 cup tomato ketchup
1/2 tsp salt
few grains pepper
2 tbsip brown sugar
1 tbsip vinegar

Brown lamb richly on all sides, in frying pan; cover and simmer for about 45 minutes or until lamb is fork tender. Turn meat occasionally while it is cooking.

Drain off fat. Add onion; combine remaining ingredients and pour over meat. Cover and simmer an additional 15 minutes.

Serve hot with fluffy mashed potatoes and cooked spinach. Makes 4 or 5 servings.

VILLAGE WORKER HURT IN ACCIDENT

Pete Marlow, a member of the village works crew, was injured last week while clearing trees from the village park site near the Stawamus school.

The men were felling the trees surrounding the curling rink and cutting them into blocks when the log on which he was working slipped and hit his leg.

He was immediately taken to hospital where the full extent of the injury was discovered.

the installation of officers of the Squamish Branch
No. 115 of the Royal Canadian Legion.

JACK DAVIS

Ottawa Diary

One of the pieces of legisla-

tion given prominent position
in the recent speech from the
Throne was that dealing with
the future of Canada's rail-
ways. Their rate structures
need to be modified. More im-
portant still, our railways have
to be brought up-to-date and
re-equipped to meet Canada's
future needs.

While no details were given
it is reasonable to assume that
this legislation will draw heav-
ily on the recommendations
made by the MacPherson Royal
Commission on Transportation.

The Commission's three vol-
ume report completed in 1962
said that our railways should
be freed from the burden of
public regulation and that they
should be free to compete ef-
fectively with water transport,

trucking companies and the air
lines.

It called for an overall rail-
way policy which included the
orderly abandonment of un-
economic branch lines. Losing
passenger services, it said,
should be done away with and
new machinery should be es-
tablished for setting freight rates.

Another clue as to the nature
of this new government legisla-
tion can be found in a Resolu-
tion tabled last year. Its high-
lights included the establish-
ment of a new authority which
would supervise the abandon-
ment of uneconomic branch
lines over a 15 year period.

Federal subsidies were en-
visaged in respect to the move-
ment of grain. Meanwhile the
authority of the Board of
Transport Commissioners over
freight rates would be reduced.
If this is the case this new
legislative package may well
be one of the most complex
and far reaching measures ever
placed before Parliament.

All parties, meanwhile, recog-
nize that something must be
done to meet the problems that
continue to plague our railway
systems. However, they are by
no means agreed as to their
solution. Hence this new legis-
lation is likely to be referred to
a Committee of the House of
Commons for detailed study.

No doubt the Provinces will
wish to present their case. So
will the trucking industry, the
airline and pipeline companies.
As a result of their recommen-
dations some changes may have
to be made in the government's
legislative proposals.

The important thing is that a
start has now been made to-
wards dealing with an issue
which has great economic con-
sequences to the nation as a
whole.

Legal Notice

Take notice that Toni Jessa-
cher, 5821 Sumas St., North
Burnaby, occupation, Electric-
ian, intends to apply for per-
mission to purchase the follow-
ing described land:

Approximately 470 ft. south
west of the intersection of B.C.
Hydro right of way and the
west side of lot 2246, thence
north 660 ft., thence west 330
ft., thence south to B.C. Hydro
right of way, thence along right
of way to post. The purpose for
which the land is required is
cabin site and contains 6 acres
more or less.

STUDENT TEACHERS
WILL VISIT SQUAMISH

Seven student teachers, two of them former
Howe Sound Secondary pupils, will be coming to
Squamish and Britannia for their three weeks
practicum at the end of the spring term at UBC.

Linda Mitchell will be at Mamquam school
working with Mr. Carrieco and the other Squamish
girl, Katherine Mulhern, will teach in Mrs. Saw-
tell's class at Squamish Elementary.

Also at Squamish Elementary will be Laura
Addinall in Mr. Thane's class and Sheila Buckley
in Mrs. Gosling's. Betty Jane Maloney and Deirdre
Bowers will go to Britannia Beach in Mr. Stevens
and Mrs. McCullough's classes while the sole male
student teacher, Ray Melendez-Duke will be with
Mr. Gosling at Stawamus.

Howe
Soundings

Have you heard the latest
definition of an "expert"? Just
analyze the word and you'll
come up with "X," an unknown
quantity and "spurt," a drip
under pressure. And that's
what most of these self-styled
experts are, "drips."

One of our local merchants
received a cute thankyou note
from a youngster who had won
a prize in a contest sponsored
by his store. The note was well
written but he really liked the
signature. Beside the "bye"
was a little drawing of a hand
waving goodbye—a nice little
extra touch.

Local shutterbugs had a busy
time when the rockslide block-
ed the highway at Porteau a
short time ago. Some terrific
pictures of the slide were taken
and Al Bird's shots, from the
other side, are just about tops.
He brought them down town on
Saturday afternoon and every-
one wanted to see them. Some
of the shots, showing the men
working on the slide among the
rocks, give one an idea of just
how big those boulders were.

On the subject of the slide,
orchids to the highway crew
and the railroad employees who
cleared the slide in a little over
24 hours. From the look of the
road at 10:30 on Saturday
morning, no one would have
bet it would be cleared in less
than two or three days. In
fact, some official estimates
said Monday at the earliest,
maybe Tuesday. But by 6 p.m.
on Sunday, traffic was flowing
over the cleared highway and
the railroad was operating a
short time later. And a tip of
the hat to Walter Goss and son
Sam who rolled the giant boulder,
as big as a house, into the
chuck. They got behind it with
two huge "cats" and after a
bit of shoving and lifting, she
started to slide and over she
went. Sam says it really cre-
ated a tidal wave. But Al Bird
wants to know why didn't
someone let him know they
were going to do this.

Of all the provinces, Ontario
has the largest Indian popula-
tion, about one-quarter of the
208,000 national total; the larg-
est Indian tribe has always
been the Ojibwa, who live
mainly in northern Ontario.

Don't forget — EASTER IS ONLY A WEEK
AWAY — We have treats for everyone!

BEN SANDBERG — SQUAMISH R. A. TAYLOR — PEMBERTON

LOGGERS' SPORTS ON AUGUST 8th

The Loggers Sports Day committee at the first meeting of the year decided to hold its annual sports day on Saturday, August 8th.

Terry Burt was chosen as chairman of the Sports Day committee with Dave Brock as secretary-treasurer.

Additional bleachers have been added to the grounds and the committee is laying plans for a bigger and better show this year.

DOWN IN THE ALLEY

In the Hospital Hill League this week Dulcie Mahood bowled the Ladies' high single score of 234 and Eve Worthington the triple of 597.

For the men Jim Harley bowled a 220 game for the top single. The high three score was 589 bowled by Dan Thom.

Another good score was made by Fran Hurren with 224.

In the Squamish Valley Ring Club and Lions League Ger-tie Street rolled the top ladies' score of 266 while Renee McIntosh took the triple with 603. D. Jenkins bowled both men's top scores, single 244 and triple 614. Other good scores were made by Renee McIntosh 257, Al Angell 243, Eleanor Binning 233 and B. Wood 228.

In the Howe Sound Timber League the highlight of the evening this week was the single 1135, three-game total 2954 chalked up by the Naughty Pines. Team average was 784 with 40 points handicap. Good scores were made by spares Minnie Dyke 262, Tom Chesterman 248 and Warren Knight 214 and 227.

Eddie Bishop scored the high single game of 282 in the Early Birds League and Gladys Wood the triple of 633. Games of over 200 were made by Lou Skerratt, Dulcie Mahood, Flora Blasco, Grace MacDonald and Velda Reimer. Spare Crystal Hurren had a three-game score of 638.

Top scorers in the Squamish Mixed League were Kathy Boothroyd and Colin Wetterstrom. Kathy bowled a 242 single and 573 triple while Colin had a 228 single and 664 triple. Jack Mc had a 295 single and Bob S. a 230. Lorin McKenna had a big score of 61. Tough luck, Lorin.

In Elks League Dorothy Dawson took both scores for ladies with 217 single, 598 high three. Chuck Herridge bowled the men's high single of 241 and Ed Antosh the triple with 609. Lofters are in first place with nine points with the Gutters close behind with 8 points.

In the Royal Purple League Rose Fox bowled both the high single and the high three with scores of 239, 244 and 680.

Other good scores were made by Marg Hendrickson, Alice Elliott, Dot Chapman and Ann McRae.

The Slickers are in the lead with 13 points, followed closely by the Sparkplugs with 9, the Speedballs with 12 and the Hopefuls with 10.

In the PGE League Eve Beckman took both ladies' scores with 260 and 671. The men's high single of 269 was bowled by Max Vroom and the 636 triple by Jack Maveety.

Points for the night games were all divided on a 3 to 1 basis. There are now only 4 points separating 4th place from first place. Fifth and sixth place teams are following sufficiently close to yet end up in the top four and qualify for a chance at the "Champs" trophies. It looks like a fight to the finish.

In the Bantam League Sue Clark and Ronald Kuhn were the top bowlers. Sue bowled 127 and 354 while Ron rolled 298 and 810. Other good scores were made by Sam McRae, 259, 624; Vernon Kuhn 203, 505; and Jann Trudell 121, 351.

Mary Hoodkoff was high single in the Britannia Teachers League with 229 and Shirley Oakes took the top three with 526. Spare Derek Jenkins almost reached his 300 goal with a second game of 298. He made it on the third with a score of 304 to take the men's single and triple of 736.

DO'heads took the team high single with 1020 and Road-runners took second with 972.

The Ten-pin Rematch game with Pender Lanes will take place on March 22 instead of the 15th as reported last week. One mixed team will compete.

Britannia Beach News

by Betty McNair

Mexico was the theme of Britannia's annual PTA spring fair. Gaily dressed seniors and senoritas served behind all the booths. Mr. John Friesen, school principal, opened the fair at 6:30 p.m. Teachers Mrs. Fairburn, Mrs. McCulloch and Mrs. Reisbeck served tea in the schoolrooms while M. Stephens was in charge of the Bingo. Mrs. D. McGregor won the linen hamper, valued at \$75 and Mrs. A. Dzuris won the Easter cake.

Congratulations to Mr. and Mrs. Hans Novak of the Royal Apartments on the birth of a daughter on Tuesday in the Squamish Hospital.

Mrs. D. H. Pickard of Powell River is visiting her son and daughter-in-law, Mr. and Mrs. G. Pickard of Monaty Bay.

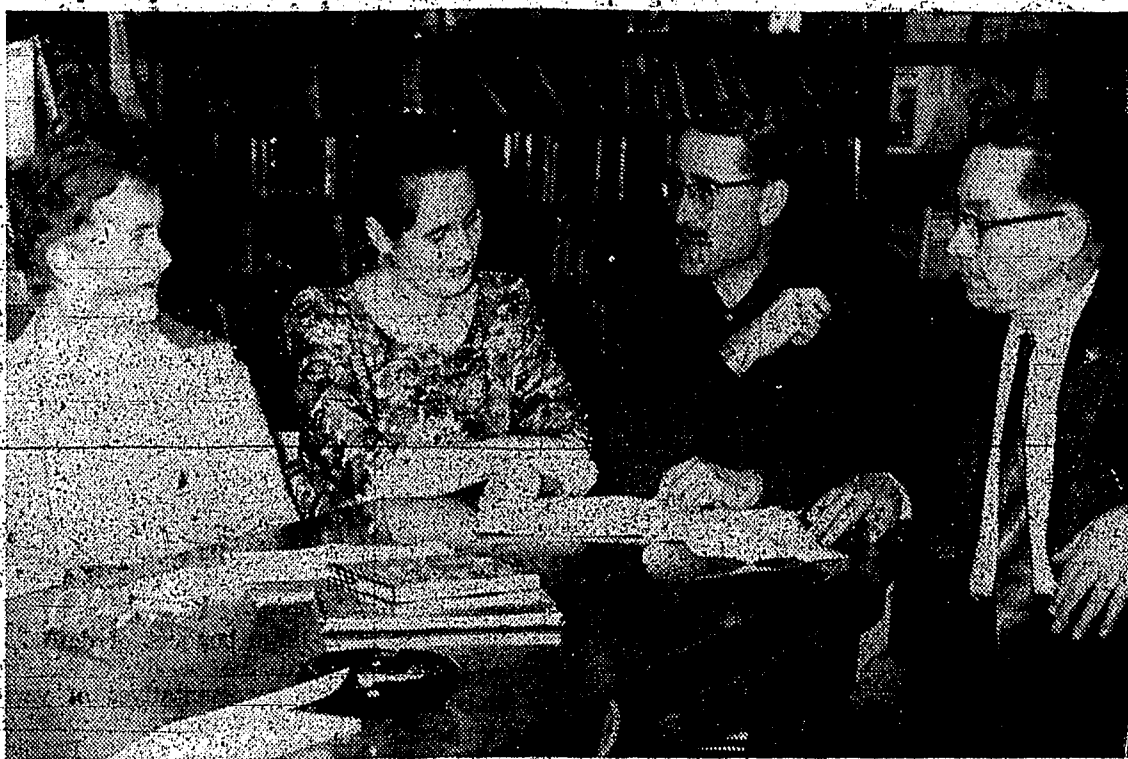

Colds and flu are really taking a toll at Britannia. Nearly everyone here has had it including your reporter and her family. Michael Van Unen, Sharon Hoeflich, Mrs. Ida Holsten and Mrs. K. Smith are patients in Squamish General Hospital. Also at Squamish is Pete Dodyk who injured his hand while at work on Wednesday. Mrs. Myrtle Ellis, who is in St. Paul's Hospital, is reported doing very well after having surgery on Friday. Best wishes for a quick recovery to you all.

My apology to the Guide and Brownie leaders for misprinting of the news last week regarding the spring training course they have just completed. They are already fully accredited leaders.

At the W.A. meeting held at the home of Mrs. V. Gladman on Thursday evening, plans for a spring tea on April 9th were discussed. Bring in your ideas. So far they are planning a modelling contest for the best and most original hat. Men, as well as ladies, can enter the contest.

Four of the local boys who belong to the Army Cadet Corps in Squamish spent the weekend on a scheme at Blair Range in North Vancouver. Making the trip were Glenn Booth, Tommy Holsten, Glynn McNair and Sammy Mazzaco.

The Britannia Beach Guys and Dolls Clubs, the teenage group, met on Sunday afternoon to elect a new slate of officers. They are: president, Charles Harvey; vice-president, Richard Dickenson; secretary, Darlene Zorn and treasurer, Willa Smith.

MEMBERS of the Squamish Library Board at the first meeting of the year. G. S. Clarke, Mrs. H. Johns, chairman. From left to right are librarian Mrs. L. C. Minchin and M. Carrico.

HOWE SOUND HIGHLIGHTS

by Karen Kristianson

On Monday morning, March 2, several students spoke to an assembly in the gym. Rita Naujoket, Klara Riis, Jerry Fairbanks and Grant Dawson had gone to UBC the weekend before and each gave his impressions of the trip.

They were allowed to sit in on two lectures. They were impressed not only with the informality (feet on desks) but also with the seriousness of the students. Diane Seymour spoke for herself and Lesley Hanson. They had gone to Future Teachers Club Conference. Lesley and Diane agreed with the others, who said that they would like to attend university. Mike Buchanan spoke of his trip to Victoria. There he saw Parliament in action! He was taken on a guided tour of Victoria and through the Archives Building.

The Junior girls challenged the Senior girls to a basketball game after school March 5, but of course the Seniors won! It just goes to show you, they shouldn't pick on Seniors!

With the nice weather the Math 31 class is going on field trips, surveying, thanks to Mr. Goddard. Maybe the fresh air will clear some of the cobwebs that were gathered during the winter. It's worth a try!

That's not all the nice weather has brought out. In the past few weeks a new sight has come from the H.S.S. gym. It is the track team. Outdoor sports day is approaching and hopefuls from every house and grade are turning out. Before school, at noon and after school; there always seems to

be someone practising something. Especially running (for the cross country). I wonder if it's only track they're preparing for, or maybe they are anticipating bad marks on their Easter reports?

On Saturday, the seventh, there was a slide just past Britannia. Several teachers and students were almost trapped in Vancouver. But, of course, school went on just as usual. The teachers and students had arrived home on Sunday, by boat and many returned by road late that afternoon.

March 12 was a busy day. It was Education Night and there was Open House at the high school from seven to ten p.m. Students were given a bulletin outlining the courses for next year. It helped to put the parents (and students) in the know. Apparently.

On Friday the grade 10, 11 and 12 I.A. boys went through the Vocational School in Vancouver. Plans are for Mr. Swanton's chemistry class to go through the mill at Wood-fibre sometime before Easter.

There are only four days next week. There are exams for the first four days and Friday is a holiday. It is Good Friday. This marks the first of ten days Easter Holidays! Next after that, are summer holidays. Anybody counting the days 'til summer yet?

Police Court

The following case appeared before Magistrate W. J. Elliott in police court here.

Wilf Wallace, charged with driving a motor vehicle while his licence was suspended, was fined twenty-five dollars and costs.

SQUAMISH Bulletin Board

B.P.O.E., Squamish Lodge No. 119, meets every second and fourth Wednesday.

Thursday, March 19th, in the Legion Hall. Annual Hospital Meeting.

Friday, March 20 at 2 p.m. — Hospital Auxiliary bake sale at Squamish Furniture (New and Used). Raffle tickets being sold.

March — Scout and Cub Paper Drive. Save your paper to help the boys equip the 3rd Squamish Sea Scouts' ship.

Saturday, April 4th — Rummage Sale — United Church Hall.

Saturday, April 11th — Junior Football membership drive.

April — Oral polio shots will be given again in April. Watch for the dates.

Accident Vaccine?

WELL, NOT EXACTLY. Ten years ago, polio was a major killer of youth; today, vaccine has made the disease a comparative rarity. But, even when polio was claiming lives by the hundreds, traffic accidents were killing more people under 25 than any other single cause of death—and they still are. Do we have an accident vaccine? No. People can't be vaccinated against accidents, but the toll can be reduced through the teaching of correct driving habits—and safety habits—to our teen-age population at the formative stages in their lives. This is what the automobile insurance business does through its sponsorship of the National Teen-age Safe Driving Championship—the culmination of a coast-to-coast series of safe driving competitions involving more than 30,000 young drivers in 225 Canadian communities each year.

Outdoor News

By John Wright

It seems the fall closure of the Cheakamus River is starting to pay off. Steelhead fishing is better than it has been for years. Many limit catches are being recorded at the Cheekye Dog House.

Good fishing was to be had all over the Cheakamus River last weekend. Scores of fishermen turned out and it was nearly impossible to find a place to fish.

The largest one weighing 16 1/2 pounds fell to Ted Moore, who was using red wool. Heck Field had one weighing 15 1/2 pounds. Bill Spagnum had four, a 15-pounder being tops. He also had a 9 1/4 lb. dolly plus six others of assorted sizes.

Other good catches were George Tickell who had four, Dave Jones a 12 and 7 pounder, Dick Olsen with a 12 1/2 pounder. Best baits were shrimp, worm, artificial or otherwise, and chaffy drifter.

To get back to the fall closure, I think that the river should be closed off to nigger fishing at all times. Many young steelhead are caught this way. They are generally just over the 8 inch size limit, so the people who catch them think they are small rainbows. Possibly they are right, it is beyond me to prove otherwise, but it is a shame to see young fish slaughtered by the

Afternoon bowling results

The Jean-Nell Circle sponsored an afternoon of bowling for the ladies at the Squamish Lanes on Saturday, March 14. Winners of the prizes were: Mrs. R. E. Gordon, Ollie Long, Bernice Boscariol, Rose Watson, Esther McFadden, Flora Blasko, Jo Reeve, Leona Lattimer, June Halvorson, Bev Munro, Roberta Carson and Vi Antosh. High game winner was Shirley Halvorson with a game of 323. Booby-prize winner was Berta McRae.

The Circle wishes to thank the Alpine Sports Shop and Squamish Lanes for their donations and also all those who turned out for the afternoon.

Lions ladies Shamrock tea

The Squamish Lions Ladies were hostesses at a delightful spring tea held in the parish hall on Friday, March 13.

Convened by Mrs. Dany Thom the hall was prettily decorated with St. Patrick's Day posters and shamrocks adorned the walls and tea tables. Even the refreshments carried out the Irish theme with green bars and confections of green fluff being very noticeable and delectable.

A large bouquet of daffodils centred the serving table at which representatives of various local women's groups presided in turn. Mrs. Patrick Brennan poured on behalf of the Village Council, Mrs. E. Kristianson for the PTA, Mrs. E. P. Stathers for the ORP, Mrs. Paul Russell represented the Hospital Auxiliary, Mrs. E. V. Morris poured as a member of the OES and Mrs. John Shaw on behalf of the Legion Auxiliary.

The pillowslips offered as a door prize were won by Mrs. Pat Brennan and Miss Sandra Fairhurst held the winning ticket for the copper tool picture.

Social Notes

by Freda Clarke

Congratulations to Mr. and Mrs. Ronald McCormack on the birth of a daughter weighing eight pounds, at the Lions Gate Hospital on March 13.

Mrs. Nellie Powell is visiting relatives and friends while on a California holiday.

Our sympathy is extended to Mrs. William Manson on the recent death of her father, J. F. Feeney of Vancouver.

Cliff Thorne of Grand Forks returned to Squamish for a few days last week. The rain he found here on March 6 was the first he had seen since early last November. There has been knee-deep snow in Grand Forks but that is exceptional and Cliff claims that it's a grand country.

Dennis Marks of UBC spent a recent week-end here with his parents Mr. and Mrs. Norman Marks.

80TH BIRTHDAY FOR FRED DOWNER

Congratulations to Mr. Fred Downer who celebrated his eightieth birthday on March 7. A family get together was held at the home of his son John and his wife, Sons, daughter, grandchildren and great-grandchildren numbering more than thirty gathered to wish the octogenarian many happy returns of the day. Unfortunately, the infamous slide prevented his son-in-law and eldest daughter, Mr. and Mrs. L. Geddes of Vancouver from being present. Dennis Downer of Kifmat arrived prior to March 7 and was on hand for the big day.

Fred Downer is an integral part of the history of Squamish having arrived here more than fifty years ago with the first logging locomotive to be used in the valley. He has seen the town grow from a few houses separated by a muddy path to its present state of explosive growth.
