SQUAMISH, B.C. — THURSDAY, FEBRUARY 18, 1965

10 cents per copy

SCHOOL TRUSTEES FORM COMMITTEES

Seven committees were formed at the regular monthly meeting of the Board of School Trustees for Howe Sound School District No. 48 on Wednesday of last week.

Members named to the following committees were:

Finance and Salary: C. P. Kidson and T. J. MacDonald.

Education: Mrs. C. C. Marchant, Mrs. A. Philip, Buildings and Grounds: H. H. Bailey and T. B. M. Fougberg.

Public Relations: Mrs. A. Philip, Mrs. F. Mitchell, Mrs. C. C. Marchant.

Policy: T. B. M. Fougberg and Mrs. F. Mitchell. Vocational and Educational Committee: T. B. M. Fougberg and H. H. Bailey.

Representative to Coast Garibaldi Health Unit: T. B. M. Fougberg.

School budget approved here

The 1965 school budget of almost a million dollars, \$982,864, was approved at the regular meeting of the school board of Howe Sound School District No. 48 at last week's meeting.

Later in the afternoon the representatives from the various areas met and also approved the budget. Representatives attending were Mrs. H. Robinson, Mamquam; Mrs. E. Trekofski, Brackendale; L. Cartwright and Mrs. K. Pickard of Britannia Beach.

The board also approved a plan for group life insurance for both the teaching and the non-teaching staff. This plan was obtained through local insurance agent W. J. Elliott.

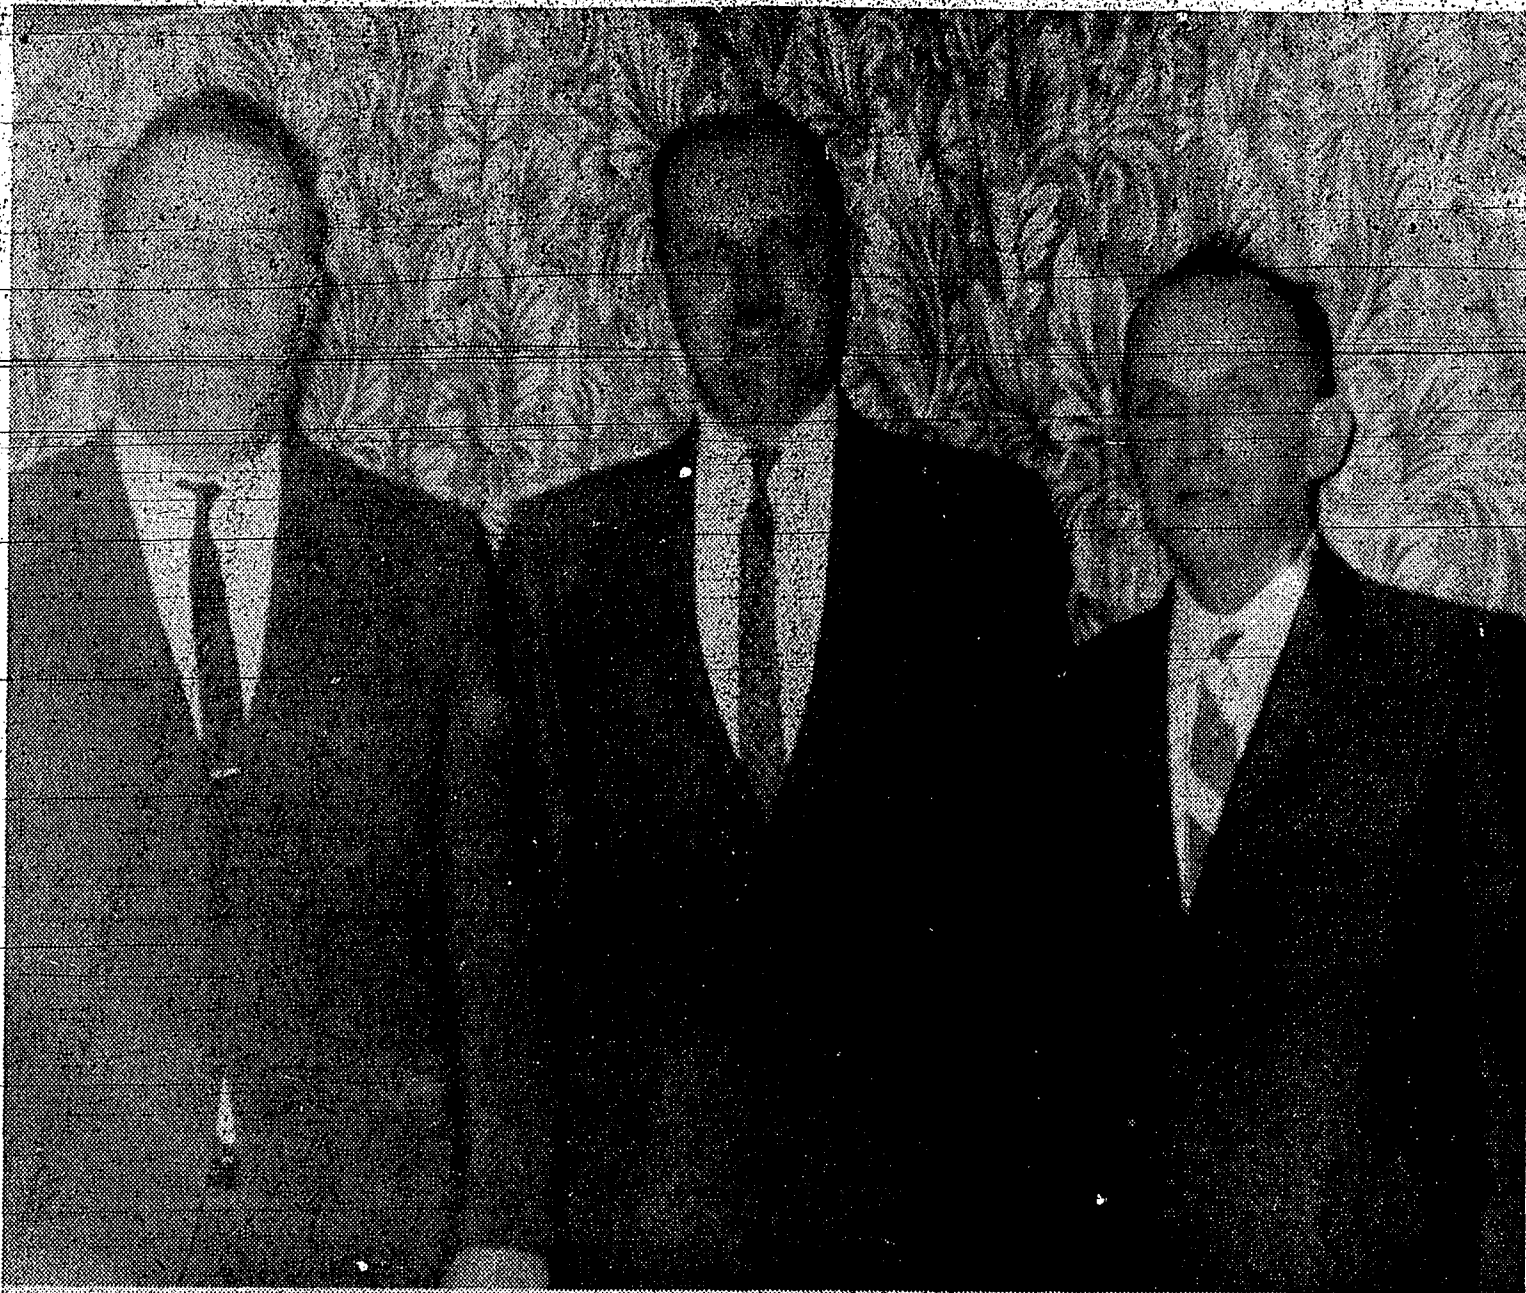

Plans were made for the official opening of the addition to the Pemberton Elementary Secondary school and while no definite date has been set, P. MacGregor, inspector of technical and vocational education,

has been asked to officially open the building.

H. H. Bailey reported that work is proceeding favorably on the additions to the Brackendale, Mamquam and Stawamus schools.

School environment reports were presented by the Coast Garibaldi Health Unit and Mr. Phil Crampton, the sanitary inspector for the district, attended the board meeting to discuss it with the members.

A generous offer of an acre of land for a primary school site, made by L. Laramée, was regrettably declined. The board felt it did not fit in with their overall plans for schools in the district.

REEVE Rollie Harvey of Surrey, guest speaker at last week's civic dinner with master of ceremonies Art Reynolds and Reeve P. J. Brennan.

Resist pressure to change

"Plan your zoning, then stick to it," Reeve Harvey

"Make your zoning plan and then stick to it," Rollie Harvey, Reeve of the District of Surrey, told the one hundred people who attended the civic dinner in the Legion Hall last Wednesday evening.

"Someone is going to be hurt by your planning. It can't be helped, it has to be detrimental to some people. Fantastic pressure will be brought to bear upon your council but this must be resisted. Make your plan for the best interests of the district and then stick to it," he said.

"You are fortunate in having the foresight to have a planning report made. The next thing to do is to provide adequate zoning and complete a zoning map. I would also recommend that you take a close look at control of subdivisions," he added.

OFFERS ASSISTANCE

Reeve Harvey said that his district, which is one of the fastest growing in B.C., has had to cope with all these problems. "Our population jumped from 5000 to 80,000 in 40 years with the fastest growth occurring in the last few," he said.

"In most communities there is some form of conflict between school boards and councils," he said and added this was inevitable when education is taking far more money than all other services combined. "25% of our population is between the ages of 6 and 16 years and going to school," he commented.

He suggested the creation of liaison committees to work between the council and the board, and that written policies should be adopted to equitably set up cost sharing formulas.

DEPENDS ON OTHER GROUPS

In a conversation before the meeting, Reeve Harvey said that, in his three years in office, he had come to depend a Planning Commission and on the Chamber of Commerce and Board of Trade.

"These can be of the greatest help to a council," he suggested and recommended that the chamber work with the municipal authorities.

He suggested that the council members of the Chamber of Commerce and planning commission visit his district and see how they are coping with some of the problems which have to be met.

Reeve P. J. Brennan thanked Mr. Harvey for the offer and said the council would be pleased to visit Ladnor and

Surrey as they had both dealt with a great many problems. Squamish still had to face.

COSTS INCREASE WITH GROWTH

"Three years ago we had much rural land with sporadic developments. Subdivisions were not able to support the facilities required," he continued. "These can be costly. Water mains run to \$20,000 per mile and other facilities are in proportion."

Mr. Harvey went on to say that his district had suffered in the past because it "was a bedroom for Vancouver" and being largely residential, was unable to afford many of the facilities needed.

"Your former village council has done an excellent job," he said. "Especially on your streets and sidewalks. You have

as many paved sidewalks in your village as we have in our entire district."

"Lots of responsibilities will fall upon your council, now that you are a district, which were formerly those of the provincial government," he added.

CLOSER LIAISON WITH SCHOOL BOARD

Reeve Harvey urged the council to work closely with the school board, saying that both groups had a great deal in common. "Joint purchasing for school sites and parks, can often be done more cheaply by both groups," he suggested.

He mentioned that school sites have to be drained and serviced and if these questions are discussed between council and board, before sites are purchased, costs can sometimes be reduced.

Developer plans shopping and housing complex

Plans for development of a portion of the 56 acres purchased by the village from the PGE Railway Co. last year were outlined to the municipal council last week by P. C. Toigo.

This is the same area which J. V. Puttkamer wished to develop some two years ago.

Mr. Toigo said his firm has developments of this type, containing shopping areas, a hotel and some garden apartments in twenty centres in the province and would like to put in a similar one here.

Dr. L. C. Kindree asked what his minimum land requirements would be and Mr. Toigo replied that a "commercial complex with a hotel would need about ten to twelve acres at the minimum, while the planned 60 units of garden apartments or multiple housing would require another three acres."

We would need to be assured of ample room to expand if necessary," he said. "We wouldn't like to find ourselves in the same position as we were in Powell River when we discovered we did not have enough land for expansion."

The area in question is bounded by Cleveland Ave., Pemberton Road, the extension of 7th St. Dyke and the PGE railway line. Council has zoned the area residential with one small corner opposite the Stan-

dard Oil station as commercial.

Any decision to permit construction of a complex similar to the one suggested by Mr. Toigo would necessitate the rezoning of the area.

Council decided to discuss the matter and give the developer their opinion in the near future.

Club starts Junior Programme

The Rod and Gun Club's Junior program will start the first week in March.

Any young person from 11 years of age and up is welcome to attend. This will include girls as well as boys.

Anyone interested should get in touch with Dan Otto. This new activity should appeal to most of the youngsters, and especially those who took part in the club's last junior program.

Reeve gives report on last year's activity

According to present indications we are on the threshold of a tremendous expansion, growth and development in the Squamish Valley, Reeve P. J. Brennan told the guests at the civic dinner last week.

The year 1964 will go down as a milestone that has decided the future of the Squamish Valley as an economic and geographic unit. In this connection I would like to quote to you the following facts that will give you some idea of the tremendous expansion from a Village to a District.

Until the end of August, 1964 the Village of Squamish contained 1124 acres of land. There was an extension of Village boundaries in September of 1964 that took in an additional 302 acres of land.

As a result of a vote on November 21st the District of Squamish was created on Dec. 15, 1964, containing 24,840 acres of land. Your support at the polls on November 21, 1964 meant that the land area within the District of Squamish exceeded the area within the Village of Squamish by more than 20 times.

At this point, I might add we have 20 times as many problems, and 20 times as many headaches as we had last year at this time.

PURCHASE OF PGE PROPERTY

Last year the Council of the Village of Squamish accomplished much prior to the vote on November 21st. One of the main accomplishments in 1964 by the Village of Squamish was the purchase of approximately 56 acres of land from the PGE in the heart of the Village.

We also paved 3600 lineal feet of roadway at View Place and completely paved the Swimming Pool parking lot. Council also came to grips with the parking problem in Squamish by creating 2 hour parking in the Commercial areas within the Village.

Council felt there was an overall need for the Squamish Valley and arranged through Dr. Oberlander at U.B.C. to have the graduate students in his department make a planning study of the Squamish Valley and create a model and a planning report.

PLANNING STUDY

There were 16 graduate stu-

dents involved in this planning study split up into four groups. Each group acted independently and created what in their opinion would be the ideal plan for the valley.

The four reports were evaluated and from these reports a final plan was created which embodied the most adaptable and the most practical ideas from each report. The final one was then made visual in the form of a model of the Valley incorporating the recommendations of the final report which is now on display at our local library.

If anyone present has not seen this model, I would recommend that it would be worth your time to examine it yourself at the library. I might also add that copies of the Oberlander report are available from UBC at a price of \$3.00 for each report.

ATTRACTS INDUSTRY

In 1964 the council of the Village of Squamish was also instrumental in attracting to Squamish the F.M.C. Chemical plant which is now under construction. The plant will bring in many tax dollars and will be a big factor in helping to keep our domestic water system in the black.

The village council in 1964 replaced the 10-inch water main from the water tower in Northridge to the corner of Victoria and Cleveland Ave. with 10" AC and 12" steel pipe. We also constructed a wood frame building to be used as a chlorination and fluoridation house for the water system and the latest report is that the chlorination and fluoridation equipment will be in operation within the next few months.

PARK SITE DEVELOPED

Council was also active in clearing the park site of brush and trees, and laying out of walks and the construction of bleachers at the high school.

Council also undertook to see REEVE'S SPEECH (Continued on Page 3)

Municipal hall to be enlarged

Building inspector A. E. Bird showed two plans for increasing the size of the municipal hall to council last week.

Increased staff and the amount of business transacted by the municipality make the expansion necessary.

He explained the suggested expansion as a two-stage plan if council so wished, with the simpler alterations taking place first and the full length addition to the rear of the building coming later.

In the first plan, which council has decided to proceed to implement with tenders being called in the near future, the present general office will be altered and the front of the building which contains the clerk's office and the welfare office will be extended forward and this will

become the new board room. The present board room will become two small offices and some storage area.

The final plan will allow for a full-length extension at the rear of the building with a board room to provide ample seating space for delegations and a waiting room, plus an office for the welfare department.

The area formerly used as a board room can be used for general office space. The fire hall and public health offices would remain as they are at present.

Mr. Bird said he felt this final plan would be adequate for the next few years.

Two more sirens for municipality

Two more fire sirens will be installed in the municipality, one in the Brackendale area and one to serve the Mamquam-Garibaldi Estates district.

In the latter, the siren will be installed at the north end of the Mamquam bridge. The Brackendale location will be at the corner of Depot and Government roads.

Discussions concerning the cost of the installation and ringing the sirens followed the announcement by B.C. Telephone Co. representatives that the cost, if rung independently would be about \$75 per month, but only half this amount if sirens in all three areas rang at the same time.

A small type of two-way radio was shown to council and it was suggested that these might prove suitable for installation in the fire trucks and municipal vehicles.

Council also suggested that a site for a fire hall be found in Brackendale and councillor Henderson was asked to see if the Brackendale Farmers' Institute could make any recommendations.

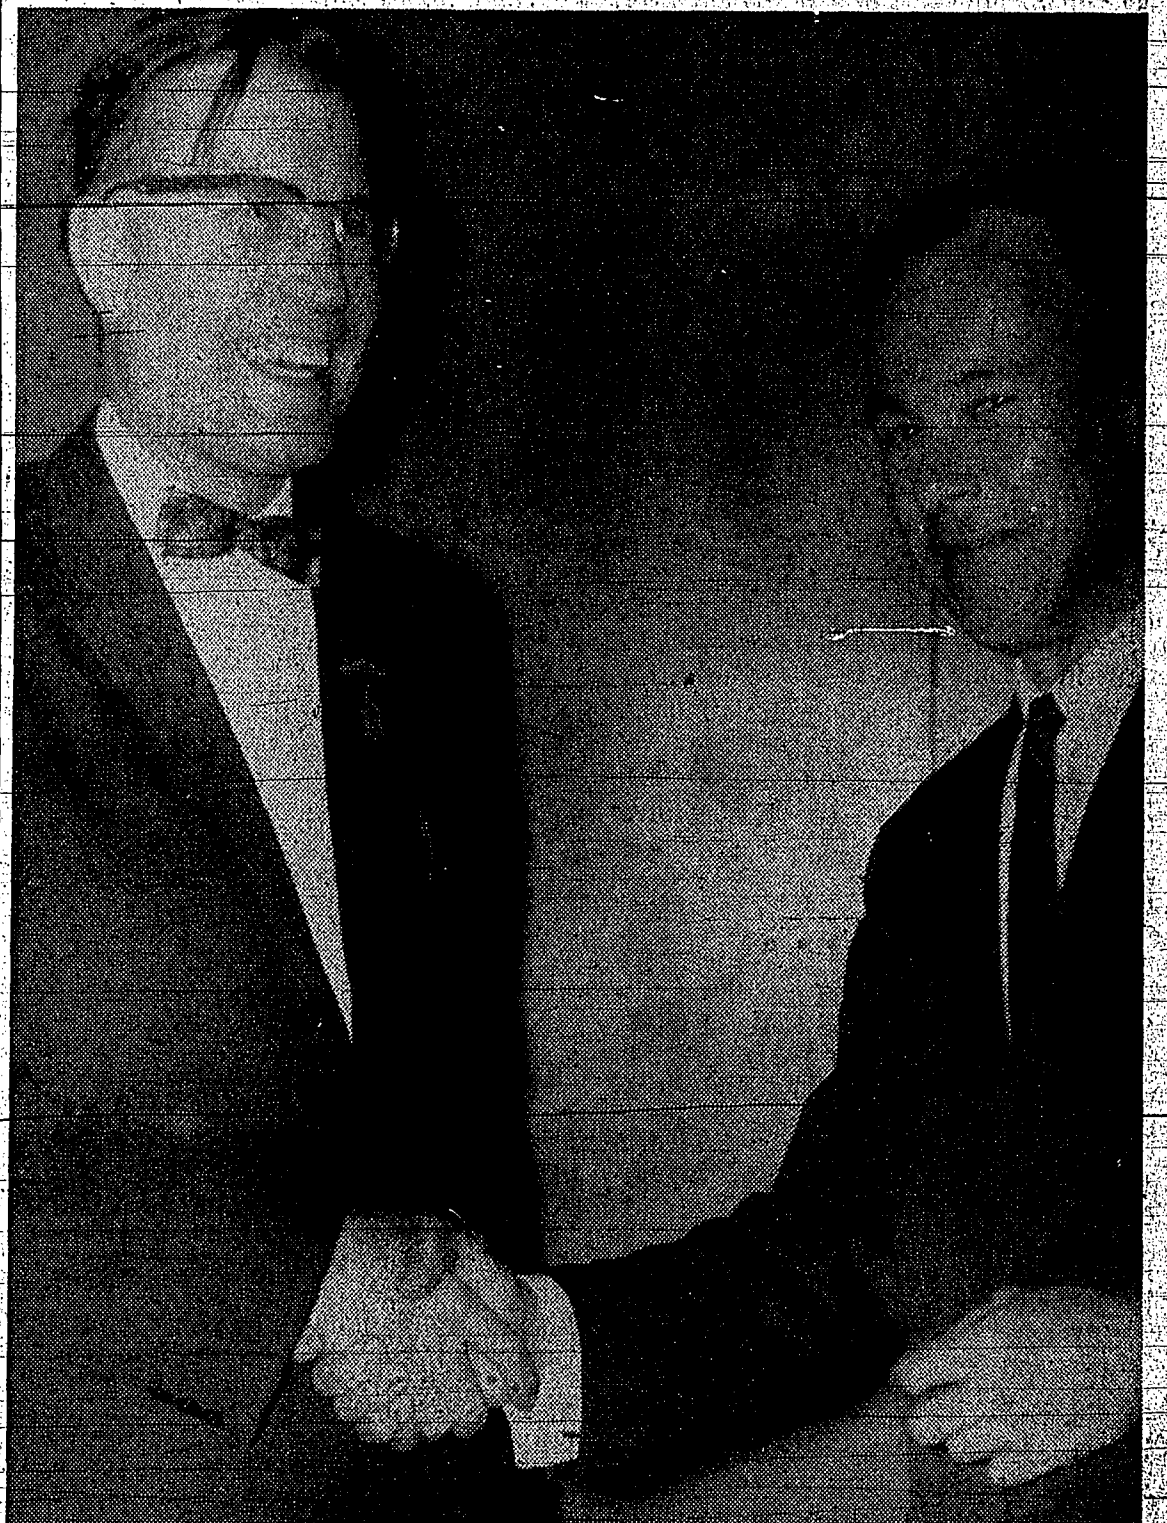

The two additional sirens would be in place within a week.

Garbage contract awarded

Owen Carney was the successful bidder for the garbage contract in the district municipality. Council received ten tenders for the service, ranging from \$500 per month to \$2700 per month.

The service will be once a week in the residential area, with three pick-ups or more in the commercial area. In commercial cases, additional cans above the number allowed in the contract will be paid for on a flat rate per can.

A compression-packer truck has been ordered specifically for this purpose.

SQUAMISH, B.C. — THURSDAY, FEBRUARY 18, 1965

Thank You, Mr. Williston...

The announcement on February 6th, that half a million dollars for river control and flood protection in the Squamish Valley was included in your department's estimates was a most welcome one.

This newspaper, as well as the municipal council and the Dyking and Drainage Committee, has long advocated such measures. We hoped that it would not be too far off when the preliminary report on a proposed plan for river and erosion control arrived last month but we certainly didn't dream that it was so close.

Now that the funds have been allocated, federal approval should be forthcoming before too long and we anticipate an early start on the protection program.

The development of the Squamish Valley, as well as future industrial growth of the area, is in a large measure, dependent on control of the rivers which run through our valley. Homes, existing industries and highways, power lines and the railway, would all be subject to serious damage unless measures are taken to confine these streams within their banks.

The introduction of the sum for flood protection in your department's estimates should lead to the prevention of any further flood damage such as the valley experienced in 1940.

Now that the monies have been allocated, we would be pleased to see an early start on the project.

Thank you, Mr. Williston.

Fighting Words, Don...

We're rather sorry that our MLA, Don Robinson chose to break a fairly long silence by referring to three towns in his riding, Ashcroft, Lillooet and Pemberton, as shantytowns. We're not too wouldn't say Pemberton is one.

Granted, the first view of Pemberton is of a small town, with some old buildings. But there are some attractive new stores, some new, modern homes and certainly the addition to the hotel is a great improvement.

Further out in the valley, we'd be inclined to say the average farm home, is certainly not shabby. Some of them are the equal of any in many good residential areas.

We also were not aware of the sawmill operations, as the economic base in the Pemberton valley. We always thought it was farming. Of course there is some logging but we assumed this was in addition to the farming and was

not the main industry. Could be we're wrong and Mr. Robinson is right.

Offbeat as the above remarks are we'd like to know what he was dreaming of, or what cloud he was sitting on, when he added that Squamish, as a result of announcements of plans for chemical and pulp plants, has new shopping centres and plenty of mortgage money available for further developments.

Shopping centres have been planned and no doubt, will be built, but there aren't any under construction yet, and as for mortgage money, he should have been present at a recent council meeting when the difficulty of obtaining it was the topic of discussion.

We'd suggest that Don pay a trip to the Squamish Valley once in a while and check his facts before he makes statements like these.

This Is A Road?...

How many of you have travelled over the Britannia-Squamish highway in the past few weeks? Would you call it a highway? We wouldn't. It's nothing except a bunch of pot holes held together with a bit of blacktop.

We're not blaming the highway crew. They have done an excellent job of keeping our roads in repair. But we do blame the short-sighted attitude of the department which has neglected to do anything about this portion of the highway except to fill in holes and patch it periodically.

It is a positive menace. If you try to evade the broken and crumbling edges, you have to straddle the centre line and in some cases you practically have to weave all over the highway in order to miss the big holes, some of which are, according to one local resident, "big enough to swallow my small car."

We have repeatedly said the road

should be relocated and rebuilt. We have repeatedly been assured that this would be done and the latest assurance came just a short time ago when Mr. Gagliardi said that it would be done in the very near future. We wonder just how far away that is.

Meanwhile the road keeps deteriorating and the already narrow stretch of pavement keeps getting narrower all the time. Some of the break-up can be blamed upon the bad winter and frost heaving, but when the highway below Britannia is in as fine a condition as it is, this argument doesn't seem to be too realistic.

We would urge the government to make an immediate attempt to improve the road, at least patching up the worst of it, and at the same time lay plans for the relocating and widening of the eight mile stretch in question.

They Deserve Your Support...

Next Sunday members of the Scout and Guide movement will celebrate the birth day of their founder, Lord Baden-Powell, with a parade and service in the high school gymnasium.

The Boy Scout Association, with an active program for boys and girls is one organization which deserves the active support of everyone who is interested in the young people in our district. Any one, young or old, would find the Scout and Guide laws a challenge and trying to live up to them would be certain to result in a finer type of person.

The association needs your support. Leaders are always needed to help carry on the work with the Cubs and Brownies, Guides and Scouts. In the East Howe

Sound District there are between three and four hundred young people in the movement.

A knowledge and love of outdoor life, training in crafts and skills as well as participation in games and around the campfire all help to arouse a youngster's interest in the world around him.

A youngster who participates in the scouting program is laying the groundwork for becoming a good citizen when he grows up. With today's interest in young people, this organization which has been making a success of its youth program for many years is well deserving of your support.

Turn out on Sunday and help the Brownies and Guides, Cubs and Scouts celebrate their founder's birthday.

Polyglotism...

If the diversity of nationalities making up the population of Canada stuck to their original speech we might be, indeed as the title implies, a nation of many languages.

Canada Year Book shows that the 1961 census gives the origins of population as follows:

British	7,996,669
French	5,540,346
German	1,049,599
Italian	450,351
Jewish	173,344
Netherlands	429,679
Polish	323,517
Russian	119,168
Scandinavian	386,534
Ukrainian	473,337
Other Europeans	711,320

Asiatic	121,753
Indian and Eskimo	220,121

17,995,738

If each language unit meant a national culture, we would outdo the Tower of Babel.

The real decision wanted in our Dominion is the will to mould a nation. A nation that shall welcome those of other nations to come and share one loyalty, one language, one flag, one culture and it shall be one people.

By the year 2000 Canada, by natural increase of population only, will be a nation of 35 million people and that time is not so far away. Unity of purpose; not plurality, will decide our worth to the world and that is really what matters.

SECOND event winners at the bonspiel by John Drenka. With Jim are Gerry Williams, Dave Brock and Jim Schutz. were Jim Kilburn's local rink who won the Squamish Mills Trophy, presented

Co-ordinated recreation area

Centralized park area planned for district

Representatives of the various organizations in the district which are interested in securing property for a park site, met last week to discuss the proposed area.

This comprises some three hundred acres and lies south of the Mamquam River and north of the former village boundaries. It is bounded by the railroad right of way on the west and the hills on the east.

The group has held several meetings and some of the uses now planned for the area include the Rod and Gun Club's range, Squamish Valley Riding Club's track, a Loggers' Sports grounds, possible fair grounds, with perhaps a community centre near the village area.

The Planning and Properties committee of the municipal council will meet with the group representatives and from

this meeting, delegates will be elected to act as an administrative body for the development and planning of the park site.

Several organizations have been interested in the area for some time with the Rod and Gun Club already having a rifle range and small building on their property near the north-east corner of the site.

The Riding Club applied for property adjacent to the Gun Club's site last year but the application was refused. However, with the area now included in the district municipality, according to G. H. Wilson of the provincial lands department, it should be possible to have land set aside for park purposes.

The Loggers' Sports Committee has also been looking for another site as the park behind the school is too small for the number of people who have

been attending the annual event. The latest suggestion is to incorporate the logging sports grounds inside the oval track, required for the Riding Club's events.

Including fair grounds in the area would permit the construction of barns and other buildings of this type which could be used by the riding group as well as the fair board.

One excellent feature of the proposed site is that it will be served by two roads, the new highway and the loggers' truck route. This would give quick access and exit to the area. The factor that much of it is crown land is also favorable as this would make it easy to obtain for park purposes.

Adequate parking facilities are a prime requisite for any park with activities such as the ones planned for this site. There should be no difficulty in providing this.

MERCHANTS TIE SOCCER MATCH

The Squamish Merchants played a 2-2 tie match with league leading CPA's in Vancouver last Sunday afternoon.

The local team was ahead up to the last four minutes when CPA got a penalty shot and tied the game.

Coach Mickey Stillwell introduced a new type of play with four four forwards and six defence-men and this worked out very well. With a little more practice this should strengthen the local team's game.

Coach Gray Mitchell commented on the Merchants' game, saying there was no outstanding player, "the whole team was terrific."

Get your permits at municipal hall

Building inspector A. E. Bird says that many residents in the newly incorporated area do not realize that building permits and some other licences must be obtained at the municipal hall.

All building permits, whether for new construction, remodeling, or additions and alterations, anywhere within the incorporated area, must be obtained at the municipal office. This also includes oil burner permits, plumbing permits and those for the installation of septic tanks.

Trades licences for any business carried out in the incorporated area are now due and these must also be obtained at the office. Licences run from January 15th to April 30th and from April 30th to Oct. 1st.

Dogs within the incorporated area should be licensed and these can also be obtained at the municipal hall.

All residents who use water from the municipal water system, including those who formerly were in the Mamquam area, will be billed from the district offices and these can be paid at the office.

Electrical permits are obtainable from the local B.C. Hydro office.

The building regulations and a sheet outlining the requirements of all building contractors in the municipality is available at the municipal office and the staff will only be too glad to be of assistance. The sheet contains a list of all permits and other regulations needed.

Be sure to check and see if you have obtained the necessary permits before planning to do any building. It may save a great deal of difficulty and expense later.

Social Notes

Visiting Mr. and Mrs. R. McCormack is her mother, Mrs. R. Laske of Los Angeles.

Mr. and Mrs. Jack Frost have been visiting Mr. and Mrs. Ed Bishop. The Frosts left Grand Rapids, Manitoba, about two months ago and have been looking up relatives and friends in Lillooet and Whitehorse. Tentatively they hope to settle in Castlegar, as they are both delighted to be back in B.C.

Alex. McGillivray of the Sun's Leisure column suggests that Vancouverites "take the drive to Squamish to watch the fishing at the small wharf. It's well worth it." Thanks, Alex.

Visiting Mr. and Mrs. G. S. Clarke is her son, Lt. D. E. Munro, RCN, of Dartmouth, Nova Scotia, who has been on a course at Rivers, Manitoba, and will proceed later to San Diego.

Straws in the wind

by Mary MacDonald

Famine, farm machinery, influence stock value

THE FARM EQUIPMENT SITUATION THROUGHOUT the world is interesting. In North America, we have a glut of farm products of every kind at each harvest time, and much the same situation prevails in the Common Market countries. Elsewhere, however, there is still want and scarcity in varying degrees.

While the attention of the public is riveted on the political problems of the so-called "developing" countries, behind all the hurly-burly and dramatic posturings, greater events are taking place.

These events comprise the change in living standards of the populations in these nations. For while the politicians cry "Freedom!" "Votes!" and much nonsense along these lines, basically their nationals are completely uneducated for democracy, or any kind of political participation, and concentrate on the prospect of a filled belly.

The United Nations Food organization is struggling to educate the farmers of these nations to produce cereal and protein crops which will fill their own needs. But to teach a man, whose ancestors for thousands of years have planted seeds with a sharp stick, to use a tractor, requires a massive amount of education and, even more, a massive supply chain of machinery manufacturers and distributors, and the credit to buy.

BIT BY BIT, PROGRESS IS BEING MADE IN THIS direction and, in the coming years, these countries will form a vast market for every kind of farm machinery.

Of more immediate impact as far as the investor is concerned is the increase in living standards brought about by the success of the Common Market, which has allowed the populations involved to increase and diversify their food consumption beyond the rosiest dreams at the time of the Market's formation.

Thus we have seen Massey Ferguson and other farm equipment companies rise to great prosperity because the overseas markets for their products, and overseas branches, allowed them freedom from the cyclical poverty-riches-poverty change in the North American food production picture.

If President Johnson can by any means convince the American electorate that semi-free distribution of U.S. surpluses to impoverished countries can be undertaken without an awesome added burden to the U.S. taxpayer, and complete disruption of international food-stuff markets, then in short years populations which have never known wheat as food as an example will learn to demand wheat products, and their own governments will be forced to produce or buy that cereal. And so on, through a wide range of North American foodstuffs.

THE FUTURE FOR THE MAJOR INTERNATIONAL farming equipment manufacturers is indeed bright, and

while I consider Massey Ferguson a sound buy for the longer term, there are other companies with bright prospects also.

One of these is Versatile Manufacturing Ltd., a recent merger of some two dozen minor manufacturers of whom most had many years of experience, but who, against the international giants, were gaining little ground.

Welded together into a single corporation and aimed solely for the moment at the Canadian agricultural market, the new company located quite logically in Winnipeg, to gain freight and labour cost advantages, has never looked back.

Their stock was offered a year ago at \$5 a share, and has now tripled in value. In my opinion, this and further increases are merited, since earnings for the fiscal year 1963/64, ending August 31, 1964, amounted to \$1.35 per share, 30c of which was paid in dividends, leaving a comfortable \$1.05 per share in retained earnings.

Projected 1965 earnings are about \$2.00 and, at the current market price of \$17, the price-earnings ratio is under the 10% factor, a highly satisfactory situation for an investor.

THE CONTINUED APPEARANCE OF CHINA IN our wheat export picture has firmed the future for the prairies farmer immeasurably, and the future of Versatile Manufacturing, as well.

Interestingly enough, Versatile Manufacturing is precisely the kind of secondary industry manufacturing activity which our country desperately needs, and it is to be expected that if any concessions are made to any companies, as the result of the Deutsch Plan, Versatile will be among them.

One other possibility for Versatile's future should be mentioned. At this moment, it is a domestic manufacturer, selling to a North American market. If, through agreement or exchange, access to a Common Market manufacturer's patent rights and selling organization could be obtained, then the lid would blow off Versatile.

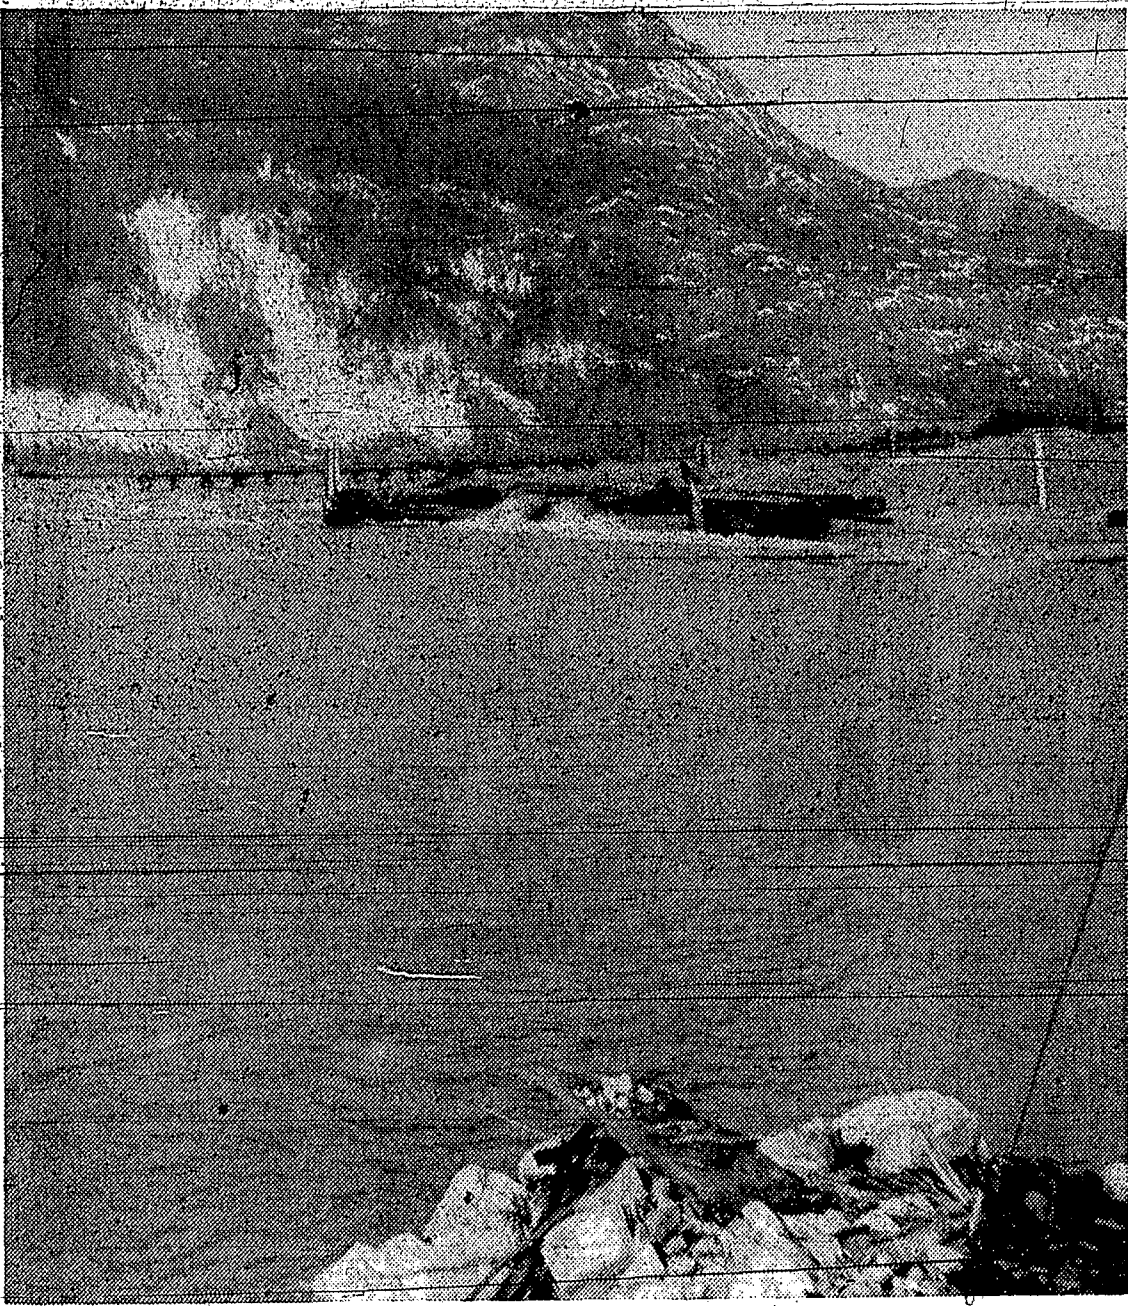

It is an interesting speculation for reasonably limited funds.

ABOUT THE AUTHOR

Mary MacDonald, a West Vancouver resident, is an investment counsellor for Doherty, Roadhouse and McCuaig Bros.

Mrs. MacDonald approaches the market world with a woman's intuition and a man's reasoning, a pretty potent combination. Her forecasts have been uncanny, and her column has a following of fiercely loyal readers.

EDITOR.

STORM lashed waterfront on Saturday morning when high winds drove the waters of the Sound against the re-

Reeve's speech

(continued from Page 1)

raise and widen the existing dykes in the Village of Squamish in 1964. They were raised about four feet and widened sufficiently to permit a car to drive along the top. This can't be seen but is very important for the safety of the Village.

Council also assisted the curling rink get started by purchasing the land for a nominal sum and turning it over to the club for five years at a low taxation rate.

As you can see, there were many accomplishments in various fields in 1964 and I am confident that the year 1965 will be a year of progress and development for our new district in the various areas which concerned a local government.

PROBLEMS TO BE FACED NOW

Some of the basic considerations at this early point in 1965 are zoning, amalgamation of all fire equipment and personnel in the valley, and a preliminary study on erosion and flood control in the lower Squamish Valley which has been conducted by the Dept. of Lands, Forests and Water Resources.

In this connection we have been advised by the Hon. Ray Williston that there is \$500,000 available for erosion and flood control in the Squamish Valley for the year 1965.

Today we sent a letter to the federal government requesting its approval for the federal share of this cost. When this approval is obtained the first stage of the program can be implemented.

PAVED ROADS FOR THE DISTRICT

Council is contemplating improvements in the new district. These include paving all roads and bringing water to Brackendale. Zoning is most important as there is an unlimited number of businesses wanting to come to this area.

Among those which have already been enquired about locating here are: motels, hotels, a fish hatchery, garden apartments, cement plant, rock quarry and there is a 90% possibility of a pulp mill within six weeks.

I should like to thank you all for your attention and leave you with the thoughts that this is your valley and we would like to carry out your wishes to the best of our ability.

Howe Soundings

After the cheering and shouted encouragement at the Howe Sound Secondary indoor track meet on Friday, February 5th, one bystander was heard to remark, "judging by the noise, which resulted the track meet was a howling success."

And on the same light note I hope the Centennial Committee appreciates the tongue-in-cheek suggestion made by one local citizen that a suitable centennial project would be completion of the Red Bridge. I sure hope we don't have to wait that long.

Have you noticed how dirty the streets in town are? The snow certainly covered a multitude of things. I'd suggest that it would be a good idea to stage a clean-up program and even if it means each merchant and businessman swept off the sidewalk in front of his premises it would go a long way towards improving the appearance of the business section.

One alert subscriber phoned me a week ago or so to tell me that Groundhog Day was on February 2nd and not the 6th. I stand corrected. Don't know where I got the idea it was on the 6th, but I was wrong. However, it didn't matter whether I was correct or not, as he would have seen his shadow on either day. Sure hope that doesn't mean we are in for another month of winter. Doesn't he think we've had enough?

Out-of-pocket costs of wages and other expenses involved in the collection of taxes average \$70,000 a year for Canadian business firms.

Call For Tender

For Alterations to the Municipal Office.

Sealed bids will be accepted until 5:00 p.m. Tuesday, February 23rd.

Tender forms and plans can be obtained at the municipal office.

Glenn M. Fell,
Municipal Clerk.

WAITING FOR SPRING TO RENOVATE AND REDECORATE?

WHY?

loans for home and farm improvement are available through your bank RIGHT NOW!

Wise Canadians take advantage of the winter.

Skilled men are usually more readily available during the cold weather, and the jobs gets done when you want it. Materials are in generous supply—and off-season discounts and extended payment plans can make your renovation budget go much farther.

Under the National Housing Act special

Home Improvement Loans are available through your bank at low interest rates. You can borrow up to \$4,000 and take up to ten years to repay.

A Farm Improvement Loan offers you up to \$15,000 with as long as ten years to repay.

Government sponsored Small Business Loans are also available through your bank for renovation and repair of smaller business premises and equipment.

EVERYBODY BENEFITS WHEN WINTER WORK IS INCREASED.

DO IT NOW!

Issued by authority of Hon. Allan J. MacEachen, Minister of Labour, Canada.

CHAMBER NAMES COMMITTEES

F. W. Allott, president of the Squamish and Howe Sound District Chamber of Commerce announced at last week's civic dinner that eight committees had been formed to work on the chamber's business in the coming year.

A member of the executive heads each committee and he may add any one he wishes to serve with him. These committees are as follows:

Commerce and Industry, J. W. Drenka and H. M. Stilson.
Citizenship, W. J. Elliott.
Membership, G. M. Behrner.
Public Health, Dr. L. C. Kindree.
Public Utilities, A. Reynolds and F. Bennett.
Publicity, Mrs. C. Tatlow.
Retail Merchants, J. Phillips, A. W. Lloyd.
Tourism, Mrs. J. Makowichuk.

Friendship Tea Friday

The Auxiliary to the Squamish General Hospital is holding a Friendship Tea in the Parish Hall tomorrow, February 19th, commencing at 2 p.m. Everyone is welcome and there is no admission fee. The auxiliary is taking this means to welcome new residents to the community and to acquaint them with the work done by their organization.

A guest speaker has been asked to open the tea and charter members of the Auxiliary have been asked to pour.

What keeps these people smiling?

Mr. R. J. Webb, construction worker, Victoria

Mr. W. J. Hainis, building contractor, Kamloops

Mr. R. M. Williamson, businessman, Prince George

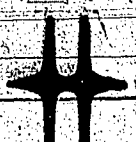

The comforts of electric heating!

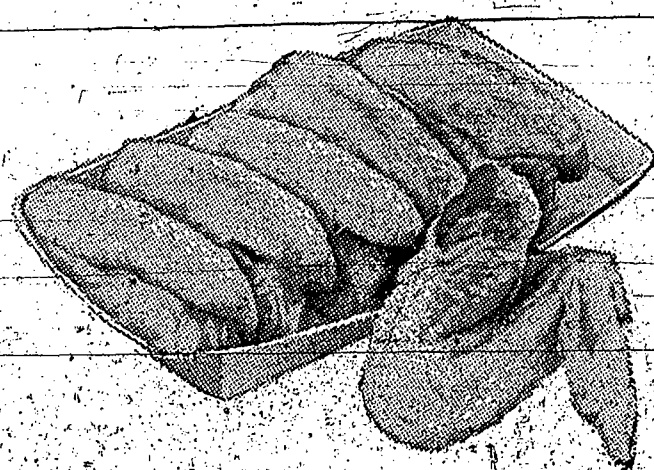

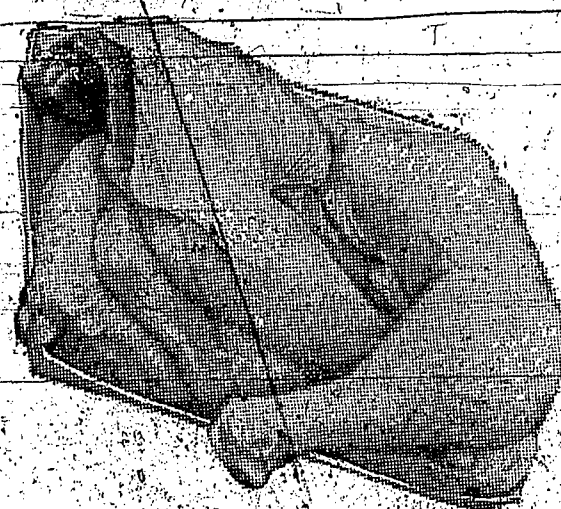

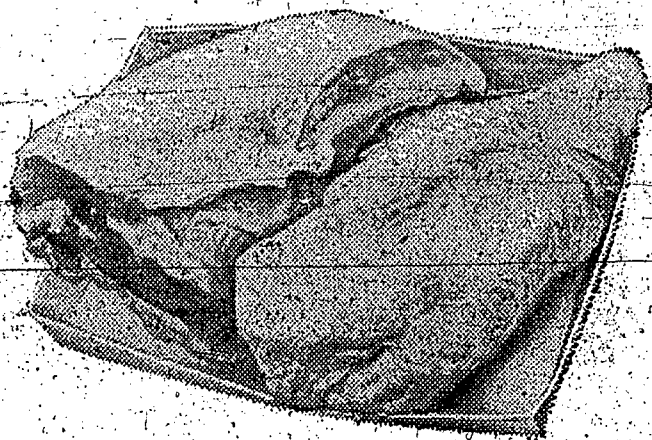

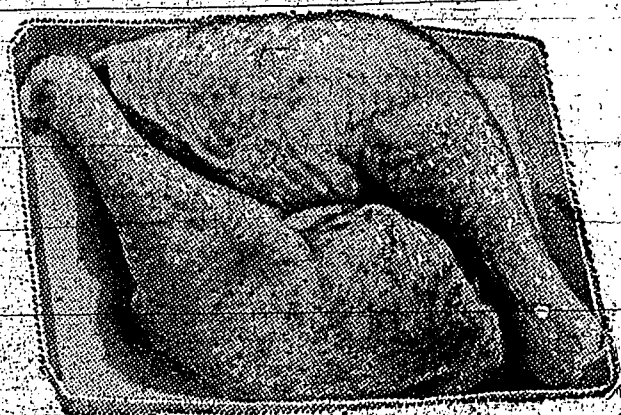

Today over 6,000 B.C. families enjoy the comforts of modern electric heating - including the happy looking people pictured here. These families live in all types of houses, in all kinds of climate, from Victoria to Prince George. What keeps them smiling? The cleanliness of electric heating. The comfort of room-by-room temperature control. The quiet, carefree operation of the most modern automatic heating

available today. And this winter they've got something extra to smile about. B.C. Hydro's new all-electric rates have cut the cost of electric heating as much as 20%. Shouldn't you get the facts on electric heating? If you're planning to build or modernize your home, ask B.C. Hydro for a free heating survey. Discover how little it costs to heat your home electrically. Then you'll be smiling, too!

TAKE YOUR CHOICE. B.C. Hydro now offers you a choice of two modern, economical heating methods - electricity and natural gas. For full information on either system, give B.C. Hydro a call.

OVERWAITEA

Joint meeting of PGE employees

Two hundred PGE employees, largely members of the crafts and trades working at the railway shops in Squamish, met in the Parish Hall on Monday, Feb. 8th.

Fred Richmond, president of the machinists' local chaired the meeting. Trades and crafts represented included machinists, carpenters, electricians, clerks, bridge and building and maintenance of way Engineers and trainmen also attended.

MLA D. F. Robinson had been invited to attend but after talking with some of the men, he decided this place was in Victoria where he might be of more help in case there had been a special night sitting because of the strike.

F. Ruddle, speaking for the trainmen, said management had stated the men accepted the same pay raises as the national railways. He said it seems to be unable to comprehend that the men wish to think for themselves.

"The company is shutting down the road instead of sitting down and bargaining," he said. "We will start negotiations any time the company asks us to," he added.

CASE OF THREE COACH CLEANERS

The case of three women coach cleaners in North Vancouver was mentioned. They were told their jobs had been abolished and they could come down to the office to pick up their time. They did this, and a short time later a company official phoned them and stated they were fired.

Pat O'Neal, secretary-treasurer of the B.C. Federation of Labor, which is made up of 272 unions and 105,000 members, said his group is fully behind the striking PGE trainmen.

He likened the situation to the Port Alberni strike where a multi-million dollar firm thought they could easily replace a 25 member office staff but through the unanimous support of the other unions, found the simplest way to get back into production was to sit down at the bargaining table.

A highlight of the meeting was the solid support of the unions which were backing the trainmen.

UNEMPLOYMENT INSURANCE

Inquiries regarding unemployment insurance were answered by a statement from Pat O'Neal that this would be looked into. Some of the employees had been unable to get their books despite a statement by J. S. Broadbent on Friday afternoon that they had been laid off.

A committee was set up consisting of two members from each trade to co-ordinate all action such as relief, investigation of complaints, etc., and to meet with the federation.

Social Notes

Mr. and Mrs. Ted Hill and their daughter have moved into one of the Dentville duplexes.

A recent visitor at the home of her sisters, Mrs. L. L. Ingraham and Mrs. E. P. Stathers, was Mrs. Rose Acres of Transcona, Man., with her daughter, Doreen.

Mrs. H. M. Stilson left last week for a two-week holiday, visiting her sister in Hawaii. She hopes that the snow will all be gone by the time she returns.

Mrs. Ed Antosh and Mrs. R. Lamport are justifiably proud and interested in the success of the Kelowna ladies team skipped by Mrs. Leslie Cmolik for the keen curler is the wife of George Cmolik, brother of Mrs. Lamport and Mrs. Antosh.

And did you notice how pleased Philip Kristianson appeared to be with the strength he felt in George Chavalo's muscles as portrayed on the Province's sports page?

Congratulations to Mr. and Mrs. R. Desjardins on the birth of a son weighing eight pounds 12 ounces at the Squamish General Hospital on February 13th.

Congratulations to Mr. and Mrs. Ronald McCormack on the birth of a son weighing seven pounds four ounces at the Lions Gate Hospital on February 12.

BUSINESS GROWTH WITH SQUAMISH

Town and Country Shoes celebrated its fourth anniversary yesterday, and in those four years Jeff Phillips said his business has grown along with Squamish.

"We opened on February 17, 1961, next to the Squamish Transfer office and at that time, we only had shoes in stock," Mr. Phillips said. "On August 15th of that same year we moved to a new location next to the barber shop and doubled our sales area. We also added a line of men's clothing."

On January 15th of last year, the business moved again, this time to its present location opposite the Star Theatre, and again the sales area was doubled. Reflecting the growth of the community, the business featured a full line of shoes for the whole family and clothing for the working man.

Mr. Phillips said further improvements to existing facilities are planned to enable him to better serve the public in the future.

"This anniversary sale is to say 'thank you' to all our friends and faithful customers," he said, and added, "Our motto is 'City Styles at City Prices'."

Letters to the editor

LIKES "TIMES"

Being an incorrigible optimist I enclose subscription for two years. You might also draw the conclusion, that this is another way of showing satisfaction; you are not so far off the track.

When a business is finding it necessary to enlarge its premises, it used to be a sign that the enterprise is flourishing. Therefore we are not astonished that the home of the Squamish Times is expanding.

Sincerely,
Carl P. Gimse

Editor, Squamish Times:

Dear Sir:

I read with a great deal of interest the attack made by MLA Ernie Lecours on law enforcement in B. C.

Among other things he said "there is too much fraternizing between rural magistrates and police officers."

I wonder where he got that idea?

R. A. MUNRO

Editor, Squamish Times:

Dear Sir:

There is an attempt to make embalming compulsory in B.C. I feel this is an injustice, unfair to our freedom of choice as well as means of making the rich, richer, and the poor poorer.

This practice has been exposed in Jessica Mitford's best seller, "American Way of Death." It is obtainable at the Squamish Public Library.

Olive Sabincz,
Britannia Beach.

Creates new administrative position

Municipal council last week agreed to the municipal clerk's request that a new senior administrative post, that of comptroller-treasurer, be created to cover many of the duties now administered by the clerk.

G. M. Fell will remain as the municipal clerk and council has decided to advertise for candidates for the new position.

Mrs. C. R. Binning, former secretary of the Mamquam Waterworks District has been added to the staff at the Municipal Hall, joining W. McDougall, Mrs. O. Cameron and Mrs. F. N. Fell.

DISTRICT OF SQUAMISH

Take notice that under the provisions of the "Municipal Act" Resident-Electors, Tenant-Electors, Corporations and V.L.A. Spouses may be placed on the Municipal Voters' List provided the necessary declaration is filed with the Municipal Clerk not later than 5:00 p.m. Friday, March 5th, 1965.

Glenn M. Fell,
Municipal Clerk.

North Vancouver, B.C.

Successful banking begins with a savings account

Like almost everyone else, you use your local chartered bank as a safe and handy place to build the savings reserve that is so important to your financial future. In doing so, you do more than build a solid foundation for financial plans. You are building a valuable banking relationship and helping to establish your credit. And as you get to know the manager and staff — as you use other banking services to meet personal or business needs — your banking contacts become even more useful to you. And it all starts with a savings account!

THE CHARTERED BANKS SERVING YOUR COMMUNITY

Through 5,650 branches, all across Canada, the chartered banks bring full-range banking within the reach of everyone.

Push the profit button

Telephones with pushbuttons on them are one of today's biggest aids to greater business efficiency (and, therefore, to greater profits). They are as convenient as having a miniature switchboard right at your finger tips and can prove a particular boon to expanding office operations.

With the compact six-button telephone, for example, you can receive outside calls on up to four separate lines, hold them and have them transferred. With the 18-button Call Director® you can do all these things several times over.

There is almost no limit to the versatility of these "key systems", as we call them, and they can be adapted for large or small organizations alike. They also cost considerably less than many people imagine.

Why not get the facts on how one or more "key systems" could help your business run more smoothly and economically. We'll gladly give you an estimate on a system tailored to your own special requirements — naturally without any obligation. Call our Marketing & Sales Department today, or have your secretary send for our free brochure.

HOUSEWARMING FOR MR. AND MRS. LASSER

Friends of Bob and Barbara Lasser surprised them with a housewarming party at their home on Parkway Crescent last Saturday evening.

The guests enjoyed an evening of music and fun followed by a generous feast of chili con carne. During the latter part of the evening the guests of honour were presented with a silver dish as a memento of their welcome return to Squamish from Gibsons.

Among those present were Mr. and Mrs. John Rudan who were the hosts, Mr. and Mrs. Ed Kristianson, Mr. and Mrs. Stan Goad, Mr. and Mrs. George Forsythe, Mr. and Mrs. Frank Hoy, Mr. and Mrs. Art Dodd, Mr. and Mrs. Bert Summerhill, Mr. and Mrs. Stan Clarke, Mrs. Eleanor Binning and her mother Mrs. Zwick, Mrs. Al Bird and Mrs. C. Tatlow.

Minchin heads Fall Fair group

The Fall Fair Association at the annual meeting last week elected L. C. Minchin to head the board for the coming year. John Hurren was re-elected vice-president and Mrs. R. Cridge, secretary with Mrs. J. Makowichuk, treasurer.

Retiring president R. Cridge reported a surplus of \$269 from last year's fair. He regretted the necessity of resigning but felt the chairmanship of the Centennial Committee would

take all his free time. Some changes will be made in payment of prizes this year. The Fair will be held on Saturday, Sept. 4th and prize money will be paid during the middle of the following week. This will allow the secretary and the treasurer ample time to make out returns to the prize winners. Payment of prize money after the Fair is proving too lengthy and tiring.

Entry forms must be sent in to the secretary by the time specified in the forms, well in advance of the Fair date. The board intends to enforce this regulation.

Some discussion concerning a centennial project followed the main business of the meeting and the association felt a building, such as a community centre, might be an excellent project.

LAND ACT
Notice of Intention to Apply
to Lease Land

In Land Recording District of Vancouver and situate Cheakamus River-Squamish area.

Take notice that I, Frances Smith of 847 No. 2 Road, Richmond B.C., occupation housewife, intends to apply for a lease of the following described lands:

Commencing at a post planted on the west bank of the Cheakamus River, 3 chains north of bridge on the N.E. corner of "Lot D", Knolls claim; thence N. 3 chains; thence W. 6 chains; thence S. 3 chains; thence E. 6 chains and containing 2 acres, more or less, for the purpose of summer cabin.

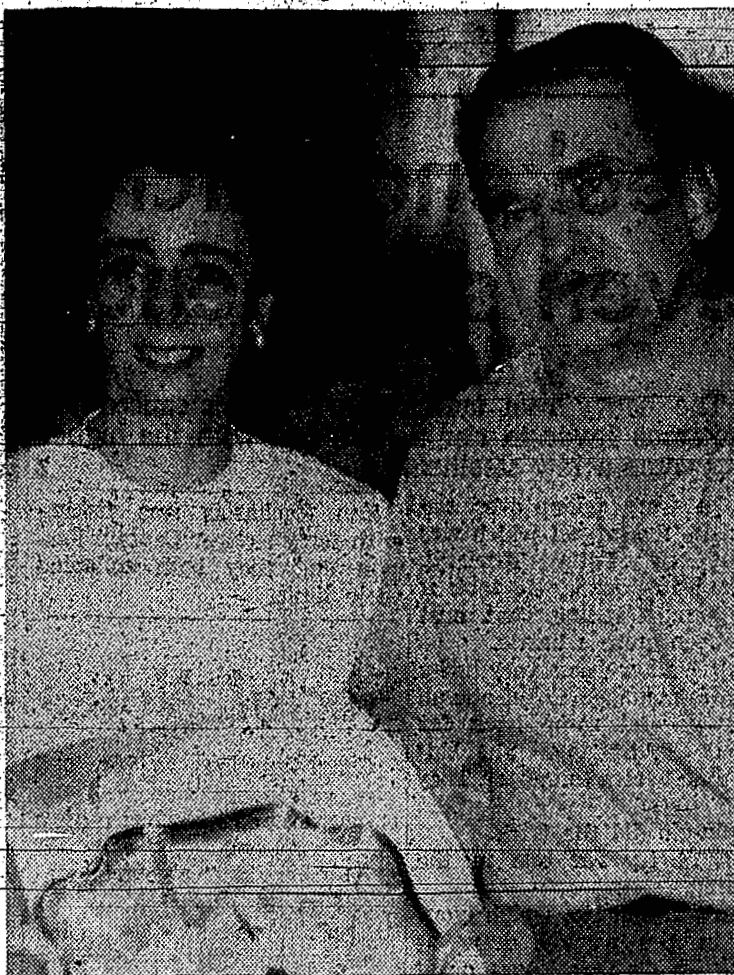

Frances Smith, Dated Jan. 18, 1965.

Pamela Hurren christened at St. John's

The five month old daughter of Mr. and Mrs. M. G. Hurren received the names Pamela Kit at a christening service in St. John's Anglican Church at 11 a.m. on Sunday, February 7.

Rev. Denis Harris officiated at the ceremony.

Dr. and Mrs. G. L. D'Appolonia and Mrs. F. D. Ross are the godparents. Attending the christening and the luncheon which followed at the home of her parents were Pamela's grandparents, Mr. and Mrs. J. M. G. Hurren of Squamish and her great aunt, Mrs. J. Johnson of Vancouver, and other relatives.

HOLDING the silver dish which they received as a housewarming gift are Mr. and Mrs. R. Lasser who recently moved back to Squamish after living at Gibsons for more than a year.

Lions Ladies host OAP

Valentine greetings and belated Christmas gifts combined to make the OAP evening sponsored by the Lions Ladies in the Parish Hall last Thursday evening a most successful occasion.

Gay cupids and red hearts adorned the walls giving the hall a festive air. Because of inclement weather the OAP Christmas party in December had been cancelled but Jack Nelson had kept watch over the Christmas gifts which had been purchased, so every one present received a delayed gift.

Not June in January exactly, but rather Christmas in February. Following a very brief business meeting Mrs. McKilligan supervised a wheel drive. The winners of the high score were Mrs. L. Rae and Wilf Rae while Mrs. M. G. Armstrong and Bob Bruce received a huge Valentine all-day sucker to console them for their low scores.

A delicious cold plate supper was served later after which the forty guests joined in a hearty vote of thanks to the ladies who had entertained them so well.

Outdoor News

Weekend catch, seven steelhead

by JOHN G. WRIGHT

The heavy rain last Friday evening caused the Cheakamus River to rise a little and with the higher water came a few steelhead.

Seven were taken over the weekend, the largest which was caught by Peter Konitski, weighed 16 pounds. He took it on a pound test line. That must have been quite a battle.

Rich Walker was a very lucky man. He managed to get one on Saturday and came back for another on Sunday. The bait used didn't seem to matter. They bit on anything: red wool, worm or spin-glo did the trick.

I shall try for one in the morning.

Don't forget to weigh your fish in the weekly draw at Frank Field's Dog House or at Fergie's where Jim Davidson is the man in charge, or better yet at both places.

Zan Zacharias was fishing with ferry skipper Captain Fossum and they both collected their limit.

Social Notes

Congratulations to Mr. and Mrs. W. C. Fairhurst (Florence Crowston) on the birth of a daughter Denise Joy, weighing three pounds five ounces, at the Squamish General Hospital on January 27.

Mr. and Mrs. Howard Brown and their children have moved into their new home, the former Goodale residence on Wilson Crescent.

Mrs. E. Johnson of North Vancouver was the guest of her brother-in-law and sister Mr. and Mrs. J. M. Hurren.

Mr. and Mrs. A. Halters and their family of Richmond have moved into their new home, the former Munro residence on Second Street.

Mrs. E. Kristianson and her son Phillip have gone to the prairies where they will spend a week in Drumheller with Mr. and Mrs. Dean Kristianson and then proceed to Gulf Lake, Saskatchewan to assist in the golden wedding anniversary celebrations of her parents.
