

THE OLYMPIC CARRIER, the largest conventional ship ever to load in the Squamish Terminal, was a recent visitor to the port.

## Summer rest planned for Centennial Field

### Playing schedule for other fields

By ROSE TATLOW

Centennial Field, which has received intensive use, and some considerable abuse since it was built as a centennial project in 1971, is scheduled for a long needed rest and build-up this summer in order to be ready for the fall soccer season.

The field, which consists of four soccer fields and which has been used extensively for softball during the summer season, has been damaged by excessive use and has not been able to come back properly to be in shape for this year's ball season.

Recreational director Dan Moon said that the ideal situation would have been to have been able to use only half the fields for part of the time in order to give them a chance to build up after the heavy use they have received in the past five years.

The fields have a thin turf and excessive use, particularly in the dry summer season, when water is not available for the fields, produces more sludge than makes it hard to keep them fit. Last summer was an extensively dry season and the fields did not come back the way they should have in order to be in prime condition for the summer ball season.

For this summer games will be scheduled for the various fields in the district, using the school fields and Pat Goode Park, and if possible none of the fields at Centennial Field will be utilized.

However, Moon pointed out that one of the fields may have to be used in order to accommodate all the teams which hope to play this summer.

"We don't intend to make it impossible for any team to play ball," Moon said. "But we hope that we will be able to prepare a schedule which will not demand the use of Centennial Field."

He pointed out that it takes years for sod to build up and the park, located on an old river bed, with excellent drainage due to the gravel below it, does tend to dry out easily, and a dry summer with little rain can damage the turf.

"The ideal situation," he said, "would be to be able to push the boundaries of the fields back far enough to move the backstops and the infield beyond the periphery of the soccer pitches. This would give the soccer people their dirt infields, and the outfield wouldn't hurt the turf at all."

Ald. Don McLennan, chairman of the Recreation Commission, said that one just had to look at the field to see that it had been damaged and that some of the fields required a lot of work. A steady summer program of cutting, fertilizing, watering and mulching, would go a long way towards improving the playability of the fields.

Moon said that last fall the soccer people had been concerned about the condition of the fields and they had agreed to the rest to give them a chance to come back.

As part of the improvement program last year, a portion of the fields was treated with the sludge from the sewage plant and this produced a lush growth of grass on the treated field. At that time permission was obtained to use the sludge, a

product of the local sewage treatment plants, and one which, in other communities which produce more sludge than Squamish does, is bagged and sold as fertilizer.

This year, in January, the sludge was spread on the fields and the rains which occurred since that time have washed it into the soil to act as a nutrient for the grass.

Complaints about the advisability of using sludge for this purpose reached the authorities and the school board asked the Coast-Garibaldi Health Unit to comment on the use of sludge to fertilize playing fields.

Dr. Laing, director of the Coast-Garibaldi Health Unit, told the Times that permission to do this must be obtained from the Pollution Control Board, that it cannot come from his department.

He also said that, although sludge has been used as a fertilizer, and the dried material is sold as fertilizer, the engineers he asked about it said there is a slight danger that the inert material may contain some organisms which might enter a cut or scrape and cause an infection. However, he said it is a very slight danger but he recommended liming the fields and the discontinuation of using the sludge for fertilizer.

Dr. Laing admitted that the inert sludge has been used for agricultural purposes and said he would advise that it not be placed on ground used for leafy vegetables eaten raw.

However, he said that after passing through the treatment plant the sludge is supposed to be inert and the action of rain and sunshine on it would render it basically harmless within a short period of time.

Since January, when the sludge was placed on the fields, there has been heavy rainfall and the material has been washed into the soil.

An engineering firm, when asked about the use of the material, said that it is safe, particularly after that period of time and the fact that the dried material can be used for fertilizer should be proof enough that it is not considered harmful.

However, when Moon and McLennan were asked if this was the reason the fields were not being used this summer, they

### SUDDEN DEATH AT BRUNSWICK POINT

Police were called to Brunswick Point, two miles north of Lions Bay at 10:30 a.m. Wednesday, March 17, and found the body of a person in a vehicle at the lookout point there.

Marie Deschamps-Graham, aged 29, was found in the car and is believed to be an attempted suicide, with death occurring from carbon monoxide poisoning.

She was from the Vancouver area.

### B.C. Tel installs new conduit

A major underground conduit installation, part of B.C. Telephone Co.'s construction program to provide for future growth in demand for phone service in the Squamish-Brackendale region, began recently.

The excavation and installation of over half a mile of heavy plastic tubing is being undertaken by J.A.C. Construction of Burnaby. The new system will go in on the west side of Highway 99 from Garibaldi Way to

the area near St. David's School. Brian Bagley, B.C. Tel district manager, said the work is being done in advance of a proposed cable installation this fall to serve expanded residential telephone requirements in the area.

"The system," he said, "has the capacity to handle cable additions for many years to come."

The company expects the conduit work which will cost \$150,000 to be completed by mid-April.

MAYOR DAVE STEWART presenting the proclamation announcing World Development Day to chairman Mildred Campbell while the ministers from the three sponsoring churches, Rev. Owen Johnston, St. John's; Rev. Jack Lindquist, Squamish United Church; and Father Griffin of St. Joseph's Church, look on. World Development Day is this Sunday, March 28.

### Plan now for this year's Fall Fair

There may have been snow on the ground last Saturday but there was spring and summer in the mail boxes when the listings for the 55th annual Howe Sound Fall Fair were put in the mail.

It's not too early to plan for the fair, to decide what you want to grow and what you intend to display. Plants have to be started early and seeds ordered, if you are a sewer you have to get the material and make the clothes you want to display and if you are knitting or crocheting, wood carving or painting you know it can't be done in a day or so before the fair.

The prize lists are constantly being revised so there may be changes from last year's book and if you are interested in

being an exhibitor please contact the secretary, Mrs. Mary Heidenreich, and she will see that you get a book. All those who exhibited at the fair last year have been sent prize lists.

There are dozens of classes for vegetables, from the ordinary to the exotic, from the giant and unusual to the garden collections, and they will be the best in the valley.

In the floral section there are house plants, flowers, flower arrangements, and even a section for the children with their own exhibits. Fruit has its own area, and here you will see displays of fruit grown in the valley as well as the individual varieties.

Canning, with jams, jellies and pickles, fruit and vegetables; honey and eggs; home baking from bread to delicious cakes and pies; and a special wine section will appeal to those who love good food and for fine needlework there is the large needlework and home arts section.

There is a special section for senior citizens' needlework; there is one for woodworking and there are sections for 13 to 18 year olds and for juniors who are under 12 years of age.

A highlight of the fall fair is the pet show, capably handled by Pat McCawley, and this is where every child brings his or her pet and every pet is a winner.

Look at the fall fair prize list; plan your entries and make the 55th annual Howe Sound Fall Fair the very best ever.

### Paul Burrows new trustee

Paul Burrows was elected as the school trustee from the Alta Lake area to serve for the balance of the term remaining in the term of C. M. Peacock, who had resigned. The election took place at the Ski Rainbow Coffee Shop Monday, March 15. Burrows' term will expire at the end of December this year.

Contesting the seat on the school board were Burrows and Mrs. Sheila Zoltay, both of whom have been attending several school board meetings during the absence of Peacock. The vote was a close one with 16 ballots for Burrows and 13 for Mrs. Zoltay.

During the time the ballots were being counted discussion took place on the community use of the new Myrtle Philip School, community use of the fields and tennis courts, moving the garbage dump, the number of teachers to be employed and other related subjects.

### Break-in in downtown area

RCMP report a break-in in the downtown area on Thursday, March 18. The incident occurred while the housewife was uptown shopping.

The house was entered and ransacked and a camera and a coin collection was taken.

Donating blood in a Red Cross blood clinic takes only thirty minutes from start to finish, including testing, registration, rest and refreshment.

### Repeat claims spraying programs not harmful

Representatives from the provincial Fish and Wildlife Branch, the federal Environmental Protection Service and B.C. Hydro, visited Squamish last week to look at the areas of the hydro lines which the utility planned to spray if the municipality gave permission to do so.

Robin Mullett and Clifford Reid of the Fish and Wildlife Branch, Mike Wan, a biologist with the Environmental Protection Service, Pacific branch, and Peter Mosby, vegetation management supervisor for B.C. Hydro, toured the area with Al Shemko to look at the northern portion where the company had planned to spray.

This area was between the northern boundaries of the municipality and the Cheekye River.

They claim that the spraying is harmless if:

- it is used properly;
- it is applied at the proper rate;
- it is applied at the proper time; and
- if the conditions of spray are correct.

Reid said that herbicides are a useful tool provided they are used properly. It was pointed out that the areas are mapped prior to the spraying; they are flagged and the helicopter pilot is shown the areas he can spray and those he cannot.

Spraying is not done close to any watercourse, and when asked what would be done in an area where there are several watercourses within a few hundred feet of each other, they said there would be no spraying in such conditions.

They pointed out that it is not harmful to fish if used in the proper strength, and that it should not be harmful to birds or to any form of wildlife.

Mullett pointed out that his department, Fish and Wildlife, is concerned with the spraying, and that it is used properly as they are interested in the protection of these species.

They pointed out that the utility is not asking to spray in an area which is populated, or one which is easily accessible. In areas such as these the company goes to mechanical cutting such as they did on the power lines by the curling rink and in Northridge.

When asked why, if the material used in spraying is harmless to bird and animal life, were dead birds, squirrels and butterflies found in an area which had been sprayed, they said it must have been the wrong mixture which had been used to spray along the forest company's roads.

They also said that if anyone found any dead birds or small mammals in such an area they should immediately be sent to the Environmental Protection

Service or to the Fish and Wildlife Service so they could determine exactly what had caused the deaths.

Mike Wan said that any spraying would be carried out under controlled conditions when the air was still; in early morning or at dusk; and would be monitored by his department. He said they had monitored the spraying program in the Squamish D'Arcy area last year, and it is not difficult to keep it within the prescribed areas at the times when the air is still.

They agreed there are two levels of toxicity, one is acute and kills directly while the other is sub-level and has effects below the killing level.

However, they suggested that in the past few years, since the confrontation with B.C. Hydro which resulted in the no-spraying bylaw, there had been many changes in the approach to the problem of vegetation control on power lines, and in areas which are rocky and of a steep and difficult terrain, it is still the most practical method.

With the increasing government control, the numerous agencies which must be satisfied before the permit to spray is issued, the officials of the Fish and Wildlife Service and the Environmental Protection Service, said it is much safer to use these herbicides today and there is less danger than in the past.

### Emergency measures in case of chlorine spill

What would you do if there was a chlorine spill at a chemical plant? Or if a tank car was damaged along Howe Sound and chlorine escaped?

Those questions were the subject of a meeting Monday night in the school board offices when representatives of industry, the police, the fire department, the police and local institutions discussed measures which could be taken.

A. E. Bird, director of the local Emergency Program, called the meeting and in a few introductory remarks said that two things bothered him; the possibility of a spill at the chemical plant and how to warn people of the danger, or the possibility of a tank car on the

railway being damaged and leaking.

Ralph Ross, resident manager of FMC of Canada Ltd., said that the two areas mentioned are the vital ones. The best action to take in case of a spill is to remember that chlorine is heavy, to get above it; if it is a minor spill stay in the house and close the doors, going to the upper floors if possible and to use a handkerchief as a mask.

If there was a spill a plan has been prepared and the first action would be to report the incident to the police. Traffic would be kept away from the small boat harbour; traffic would be directed away from the area; if the condition worsened people would be advised

to stay in homes and the ultimate would be to evacuate the area for an indefinite length of time.

"It would be imperative to have the police handle this," Ross said, "because we have discovered that in any case of evacuation people have to have someone in authority speak to them."

Ross said it is imperative to keep people out of the area; that when there was a spill in Squamish several years ago the plant people had difficulty reaching it because of the number of spectators.

Ross said one car of chlorine per week moves from the plant to the North Yard and then to Vancouver. FMC is a member

of Chlorop and TEAP, groups which cover spills. Hooker Chemicals in North Vancouver is this area representative for TEAP and if there was a spill they would offer technical advice on how to handle it. All chlorine producers in the area have kits which can repair leaks and contain breathing apparatus so they can enter trouble spots.

He said he knew of only one instance in which a tank had ruptured; there could be damage to valving apparatus in dome of cars. In Squamish Charles Kotzo and Jack Selby are on call in case of an incident and they would take action.

Once a car leaves the chemical plant property it is the responsibility of the carrier, in

this case the B.C. Railway, but the shipping pattern could change. "I've seen cars which have been badly abused," Ross said, "which have been in 90 feet of water and 20 feet of sand in the bottom of the Mississippi River, and which have been brought up in as good condition as the day they went down. It takes a lot to hurt one of these cars."

Ross said it was important to remember that chlorine is a heavy gas, that certain concentrations are tough on people and even in concentrations as high as 3 ppm (parts per million) a person can stand it for several minutes with the aid of a handkerchief as a mask.

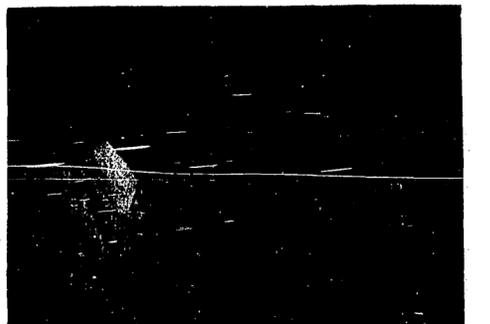

In discussing local

climatological conditions Ross said studies had been made of wind patterns, and the direction of the winds, which blows from the south or southwest for 12 hours per day.

Ross said the parameters for the allowable emission of the gas is .3 ppm at the plant's fence line and they are trying to maintain this.

Bird wanted to know what would happen if a plane crashed into the plant and Ross said the amount of emission could be controlled inside the plant; it is designed so areas can be completely isolated.

Fire Chief Doug Orser said the plant is inspected by a fact-

## Police pointers

In a recent newspaper column called "Police Pointers", West Vancouver police have been urging residents who spot anything or anybody suspicious to call them immediately. The usefulness of this advice was illustrated to use recently when we followed the advice.

Sitting at home one day, our front door handle was tested by somebody. The first thought that came to mind was that it was simply somebody who had the wrong apartment; an innocent mistake. But remembering the advice from the police, we opened the door (with the chain still on) and saw a nice looking young man walking down the hall, carrying a coat over his arm.

At this point we could have again dismissed the incident as nothing, but we remembered something else the police had said, namely that criminals look like ordinary people. You won't see too many criminals wearing those little black masks with eye holes. They don't always look mean

and tough. Their best disguise is to look ordinary.

So we called the police. We gave them a description of the young man. A few minutes later a policeman came to interview us. Later plainclothesmen brought us mug shots and we identified one of them as the man we had seen.

It turned out that the man is part of a gang of break and enter experts which has been plaguing the Vancouver area for some time now. All of them look very neat and well dressed, and are very good at their work. The police told us that they often use a pipe device to break door knobs, and that the coat-over-the-arm we had seen probably concealed the device.

We don't know if the police have caught their man yet, but we do know we did all we could to help them out. If we had dismissed the suspicious incident, the police would have just that much less information to use against this criminal.

## Controls don't work

The development industry has been saying it for years — rent controls don't work. Now they have an excellent ally in Barry Clark, B.C.'s rentalsman.

Speaking last week to a HUDAC convention in Ottawa, Clark said that in B.C. rent controls give tenants a false impression of the real cost of their accommodations. The controls sour the atmosphere for investment in housing and tenants suffer as the supply of apartments dries up and the maintenance of buildings is cut back.

If anybody still doubts the dangers of rent controls all he needs to do is look at the latest CMHC figures for Vancouver.

The city still has what amounts to a zero vacancy rate. In the entire Lower Mainland CMHC found only one empty apartment for rent per 1,000. Victoria is in the same fix.

Those are incredible figures. In one of the fastest growing population belts in Canada

we find ourselves incapable of providing one of the most basic types of housing — apartments.

There is one and only one reason for this mess — government bungling. With rent controls leading the list.

We have the land to build apartments on and we have a development industry ready and willing to build them.

We have everything we need, in fact, except a chance to show a profit by building rental apartments. Until the free marketplace is allowed to do its job this ridiculous situation will continue.

Developers cannot be expected to put up buildings they know will lose money. Unless government manages to face up to this obvious truth the rental scene in British Columbia will simply continue to get darker and darker. (Reprinted from the Journal of Commerce)

## Being a good neighbour

Winston Churchill once said in wartime, "The price of Security is eternal vigilance." These would be strong words to apply to the goings-on in our residential area, however, there is no doubt but that crime thrives on apathy.

Consider these security rules:

Keep an eye open for unfamiliar occupied vehicles parked in your area. The occupants may be watching your house, or your neighbor's. No need to get involved; inform the police of your suspicions, and they will gladly check the situation.

Locate a trusted neighbor who will watch your house while you are absent on vacation; you can do the same for him.

Many neighborhood people have formed unofficial vigilance groups for the purpose of mutual protection. They have one another's telephone numbers and are willing to call the police if they think a neighbor's property is endangered. They choose to become "their brother's keeper" because a threat to one is a threat to all — and their inherent moral sense tells them. "There is no such thing as an innocent bystander."

One of the best ways of keeping our area safe is to make it unfertile ground for the would-be burglar. The West Vancouver police suggest the following:

Do not automatically open the door when the doorbell rings. If you do not have a peephole installed in the door, insist that the visitor call out his identification.

Demand credentials before admitting salesmen or repairmen, particularly if you are not expecting them. Refuse to deal with anyone not presenting his credentials and notify the police.

Never admit on the telephone or at the door that you are alone. Never let a stranger use your phone. Offer to make the call for him, or summon police assistance if he requests.

On occasions when guests use a room for storage of coats and purses, be certain the

windows are securely fastened and the blinds closed.

When retiring for the night, check to see that your home is secure.

Very valuable possessions such as expensive jewelry, stocks, bonds, etc. should be kept in a safety deposit box at your bank or trust company.

You should keep a record of serial numbers and identification marks on your valuables in the event that they are stolen.

Cash should not be "hidden" in sugar bowls, dresser drawers, or behind pictures, etc. Thieves know enough to look in these places and other apparently secret places, coin banks are also easy targets.

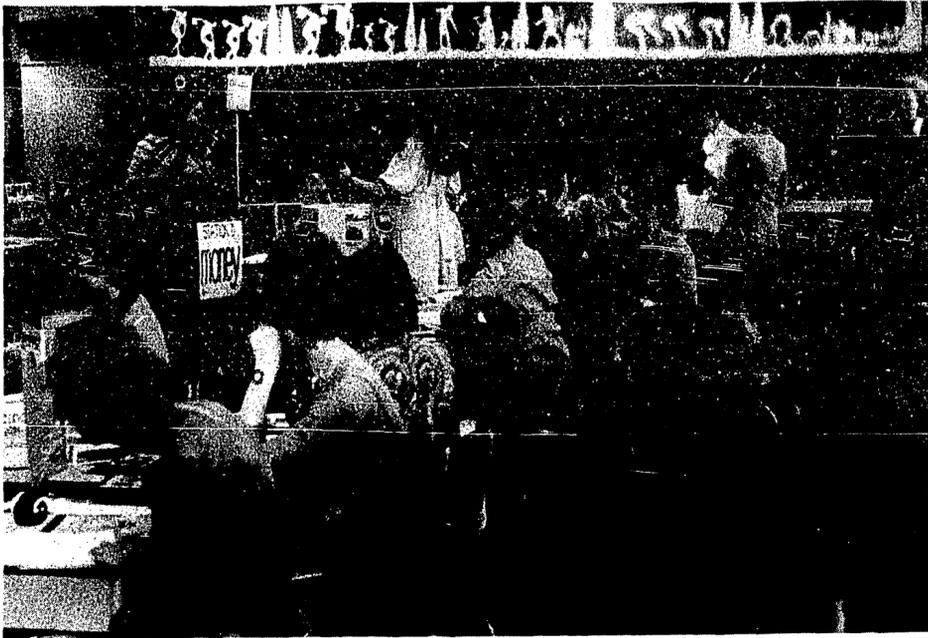

Place identifying marks on the insides of the skins of furs. In many cases, stolen furs cannot be identified when the labels and linings are removed.

If you find a door or window has been forced or broken while you were absent, do not enter, the criminal may still be inside. Use a neighbor's phone to call the police.

Do not touch anything or clean up if a crime has been committed; preserve the scene until the police can inspect for evidence.

With the garden season nearing, don't be working at the back of the house with the front door unlocked. The so-called "green thumb burglar" is prevalent each season, and he goes about his work almost without threat of arrest; this is often because if you do interrupt him, he will be able to laugh disarmingly, and ask for some fictitious person. He will have left with apologies, and your blessing, before you realize that perhaps he was not a misplaced innocent.

There are other neighborly things too. Watch for fire-pregnant situations in and around your house. Notice unaccountable smoke around your neighbor's house too, particularly if he is absent. (Reprinted from "Tally Ho", the quarterly newsletter of the British Properties and Area Homeowners' Association)

TEACHERS WERE BUSY at the mini-convention held in the Mamquam elementary school March 12 and here the primary teachers are working on one of the mathematics assignments.

# Forest industry defines policy on use of forest lands

There is new recognition of the rights of many users of forest lands. There is also a growing awareness that forests have limitations to the uses that can be served, that there are choices to be made, and that a wise and sensitive approach to environmental protection is a responsibility that all must share.

In view of this the Council of Forest Industries, composed of many forest companies in this province, has developed some environmental and land use policy statements and these will be the subject of a six-part series on various aspects of forest use and the environment; management of watersheds, reforestation, environmental policy and objectives, use of prescribed fire, land use and road access policy.

These statements should be of interest to the people of Squamish in view of the fact that this community is forest-oriented.

### PART II Reforestation

Reforestation of denuded lands is a must in order to maintain the productivity of British Columbia's forest land base. The goals of reforestation should be:

- To ensure that the productive forest lands denuded each year are promptly reforested with commercially or potentially commercially tree species.

- To rehabilitate the back-up acreage of productive forest lands which are presently not satisfactorily stocked with commercial or potentially commercial tree species.

Consideration must be given to reforestation methods and potential reforestation problems prior to the commencement of logging operations and a preliminary reforestation plan should be prepared along with the logging plan.

It is also suggested that if treatment is needed to prepare the lands for reforestation this should be done as soon as possible after the removal of the original stand of trees.

Forest lands should be reforested as soon as practically possible and restocking should be completed no later than five years after logging or site preparation. In some areas, however, particularly in the interior, this period must be extended.

In areas where there is a danger of encroachment by brush reforestation should be done as soon as the site can be prepared.

If natural means is chosen as the form of reforestation then regeneration surveys should be carried out. On the coast surveys should be carried out within four years following logging or site preparation and in the interior surveys should be conducted within three to seven years, depending on the species and the site. If natural regeneration is not adequate then replanting should be done as soon as possible after the regeneration surveys.

Evaluation of all plantations should be a regular part of checking on reforested areas and this should be done within a two-year period. If the regrowth is inadequate then replanting should be done as soon as prac-

## ASK ABOUT THE FOREST

tical. There should be a further re-examination of the site within two years.

**Seed procurement**  
An important part of the reforestation program is the acquisition of sufficient tree seed to support the provincial reforestation program. These seeds should be collected from selected stands of high quality trees. Ultimately all seed used should be of a superior genetic quality and should be obtained through a tree breeding program.

Cone collection and the extraction of seeds should be carefully supervised by qualified personnel to make sure that the quality of the seed is high. The seed should be of the species most suited to the areas planned for replanting and inventories adequate for the program should be maintained.

The report from the Council of Forest Industries recommends that the collection of the seeds should be done by the B.C. Forest Service except in cases of the Tree Farm Licences and Crown granted lands.

They already have the expertise and the organization as well as the capability to carry out the seed collection program on a province-wide basis.

Stands, whether established

by artificial or natural means, should be evaluated for stocking, growth and general health, as required; periodically during the first 15 years to determine if juvenile spacing, brush control or other stand management measures are necessary.

The report recommends that annual seedling production from nurseries must continue to be increased to meet projected requirements, and that the production of seedlings should continue to remain the major responsibility of the Forest Service.

However, there may also be a need for private nurseries to produce planting stock for use on Crown lands. This should be encouraged.

## Letters from Jane-Anne

Ed. Note: Jane Anne Manson is on a year's exchange in Brazil as a Rotary exchange student and has been sending letters home to her parents about her life and studies in the South American country.

**Dec. 15.** I have been here with my new family for almost two weeks now and I really like them. There is Tiz, who is married and has a baby and lives close by; Maria 23, a university student; Lena, 22, a psychology student; Lucia, 20, an engineering student; Ruth, 18, who is about to enter medicine; Do, who is 16 and Juliana is 14. They are all very nice. The house is absolutely enormous, with an elevator, no less.

I'm reading more in Portuguese now and my Portuguese is at a basic communications level so that it is a little more satisfying. I received two letters, old ones, via post Canada, so I will assume that all is well in the land of ice and snow and that the strike is over.

My sisters and I have been going to a club in the mountains where we swim and play volleyball, and indulge in saunas and cold showers. It is now the summer holidays.

A week ago we went to a chullasco, which is a sort of barbecue. It was excellent and on this particular farm there used to be a river running through it; now all that is left is the river bed. I took some pictures as the rock formation is rather interesting.

If you shouldn't get another letter from me before Christmas ... Merry Christmas and a very Happy New Year. Felez Natal and Novo Anã! I hope everyone is fine.

## SAM, THE TAME CROW

By MARGARET MITCHELL

He sits upon my window sill, On a Sunday, calm and still. Income-tax, it is a bore... "Sam" looks in ... what is this for? Beady eye on pencil bright Cannot figure out my plight. Flies away on wings so free Pities this poor mortal ... me.

**Dec. 29.** We had a very nice Christmas. Lots of sunshine; it doesn't feel like Christmas when you are in a bathing suit. For Christmas we exchanged gifts by pulling the name of one of the family out of a hat. You buy the person you pick a nice gift and also a joke present. My parents gave me some French perfume as well as the gift I received from my 14 year old sister Juliana. The Rotary Club gave me a Brazilian ash tray and roses.

Don't know if I told you before but in school I study Portuguese, biology, math, organic and another type of chemistry, and history. Since the school is run by Jesuit priests, once a week we have a religious class. The padre talks about family life or philosophy. He is a very good speaker and sometimes says things against the government; to do this in public is very significant.

The Rotary Club received your Christmas card and greetings. They read it at the meeting tonight and everyone applauded. I also received the present you sent for the Dr. Loes' family; they liked it very much.

We had a Christmas tree but not everyone does. We had a little roasted piggy and various meats and stuffings, and of course, the diet here is quite heavy to rice and beans.

I'm enclosing the letter to you that five of my sisters wrote. The two eldest weren't around when it was written. The "I embrace you" part is the way they close a lot of their letters.

**January, 1976.** It was my sister Lena's birthday at the end of December so I gave her one of the packages of notepaper

you sent. Did I tell you that my first sister gave me a ring for Christmas and I also received a gift from my former family, the Loes, and my Portuguese teacher gave me two books.

The other day the bus I was on hit a fellow who was standing in the street counting his money; his only injury being a bleeding nose. You learn very quickly who has the right of way here. I've learned to be very light on my feet and always pay super good attention to the traffic.

I went to a soccer game here last week. It was at a stadium which holds 100,000 people, so it is quite an experience. The people have hand fireworks at the games and when someone scores a goal they throw piles of paper in the air. They also have 6' by 10' flags which they wave enthusiastically.

Tomorrow night I'm going to Rio de Janeiro for a week to stay with the Loes at the apartment they have rented for the holidays. It is at Cabo Frio, about two hours from Rio. I also think I will be going to Salvador for Carnival with some of the Loes' family.

**Feb. 13.** I arrived in Cabo Frio on Sunday morning and the beaches are, as you can see from the card, pretty nice. The one I liked best was Praia-Arraial do Cabo. The water is the beautiful blue as shown in the postcard; the waves are small and it is not crowded.

There are two pictures of the salt works here; they use the simple system of evaporation to obtain salt.

Did I mention that I received a large card from the Squamish Rotary for Christmas? Things continue to go really well with my family. I am able to go places with my sisters, so I shall find it quite an adjustment when I have to move again. However, I will learn other things and adapt to other people which is good. I am extremely happy with this family.

I will be having extra Portuguese lessons twice a week. Tereza, my former teacher, wants some help with her course in English literature, so she will be giving me Portuguese lessons in exchange for my help. She is very close to getting her certificate.

## LETTERS

Editor, The Times;  
The History 12 Travel Club would like to take this time to inform the community that due to circumstances beyond our control (\$\$\$) we cannot take our trip to Russia. An alternate trip to Victoria has been planned.

We would also like to thank all the people who have helped us during our various activities. A special thanks goes out to our sponsor, Mr. Hubner.

We hope you will understand and will continue to support other school groups who, in the future, will have the opportunity to take the trip we were unable to.

On behalf of the History 12 Travel Club, thank you.  
History 12 Travel Club

Editor, The Times;  
The nicest Easter Bonnet in town, as far as we are concerned, is the postman's. For the past few weeks, every postie in every town has been doing one heck of a job getting the Easter Seal mail to the people of British Columbia.

More than 925,000 blue and white envelopes containing Easter Seals have been delivered throughout the province in the name of crippled children.

The 5,500 Lions of British Columbia would like to thank the 2,000 letter carriers on behalf of the 25,000 handicapped children in the province.

Yours very sincerely,  
T. H. Tait FDG

Editor, The Times;  
On reading your paper I have found that quite a few people feel that the fire department is undertrained and inexperienced. I felt that I should write and let you know that last week we had a small fire and had to call in the fire department.

I would like to say that they were here in five minutes and very well organized. We had nothing but praise for them. We felt that they knew what they were doing and executed it with speed and efficiency. They were very considerate of the house and left no mess for us to clean up.

I just felt that having been in a volunteer fire department for five years myself on Vancouver Island I know the work that is involved learning how to use new equipment and training new men. So my hat goes off to them all.

Ray Ganderton

Editor, The Times;  
We were returning to Squamish from Pemberton Saturday night and twice we almost knocked over pedestrians, one who was walking on the road with another three companions. They were walking four abreast. The other person was jogging along the edge of the road.

I guess people do not think about these things but it is very difficult to see people at night, especially when cars are passing with lights on dim. If only everyone would remember the traffic rule: When walking on the road, please walk facing the oncoming traffic! Then you can be responsible for your own safety. The life you save will be your own.

Mariene Forbes

## Manitoba vacation

Riding Mountain National Park in Manitoba is a year-round vacation paradise.

The 1,150-square-mile area includes evergreen and hardwood forests, prairies, rolling hills, valleys, lakes and streams. It accommodates a variety of vegetation that, in turn, provide sanctuary for an assortment of birds and animals.

There are luxuriant forests of white and black spruce, jack-pine, aspen, white birch, tamarack, balsam fir, green ash, elm and Manitoba maple, as well as a number of exquisitely coloured wildflowers.

Winter activities include ice-fishing, cross-country skiing, snow-shoeing, tobogganing and downhill skiing.

Ski addicts will find plenty of scope to test their ability at Mount Agassiz Ski Resort near the town of McCreary. With a vertical height of 500 feet and runs as long as 4,500 feet, the resort has facilities including T-bars, tow ropes, chalet and restaurant, as well as equipment rentals and ski instruction. A number of snowmobile trails geared for both short and longer excursions open vast areas to adventure for the whole family. You can also use your snowmobile to get to your fishing destination.

**Continued  
Emergency**

tory insurance company and in case of a spill the plant would handle the incident with its own equipment. "The fire department would send down the rescue truck with extra breathing apparatus to be sent in, and be available to take people out. It would act in a supportive role."

Orser also said that the chemical people could be used to act in an emergency involving chemicals outside the plant. This could also pertain to any chemicals carried by the BCR or other common carriers.

Ross pointed out that all the chemical cars used by FMC are heavily built, and all are pressure checked before being loaded at the plant.

Staff Sgt. Bill Bloxham wanted to know at what distance from a ruptured tank car, if one was ruptured, would it be safe and was told half a mile, and how long would it take for the company's experts to get there. He was told it would not take long if such an incident occurred near Squamish.

Bill Curran of the BCR said that it would take a massive derailment to damage one of the heavily built tank cars, or one of the domes.

Bird asked about danger to elderly people or people with respiratory ailments and suggested that perhaps Ross or one of his men might like to speak to the senior citizens and allay their fears. Ross said he would be happy to do so.

Staff Sgt. Bloxham said they would be involved in traffic control and to warn people. They would work with the Civil Defence and there are numbers of call and a number of plans to follow. "We would know who to call in case of a disaster."

Mayor Dave Stewart pointed out that if there was a problem with the plant the RCMP would be notified immediately, and they were the people to call.

Attending the meeting were Clive Applin-Flouch and Miss Davies from the Squamish General Hospital; Mayor Stewart, Squamish Emergency Program director A. E. Bird; Staff Sgt. Bloxham, Fire Chief Orser, Dr. Lam and Dr. Shellenberger, W. Curran and D. L. James, B.C. Railway; Fred Bennett, Senior Citizens; Ray Zoost, Weldwood; Ralph Ross and Charles Kotzo, FMC of Canada; Cst. T. Saperga, RCMP; R. McCormick, School District No. 48; R. Blomster, Squamish Ambulance; and Kai Larsen, deputy emergency program co-ordinator.

**Continued  
Centennial Field**

both stated that it was not. The fields have been heavily used and abused over the past five years and required a rest and some work done on them in order to have them ready for the fall season.

McLennan said that they will definitely be ready by fall but possibly one or more could be useable before that time.

"You can be assured that no matter what happens everyone who wants to play ball this summer will be able to do so," Dan Moon said, "even if we have to use one of the fields. But we just hope that we will be able to schedule all the ball games for other grounds and give these hard pressed ones a break."

**Coming Events**

Garibaldi Gals, a branch of Western Weight Controllers, bazaar in St. Joseph's Parish Hall, Saturday, April 3, from 1 to 4 p.m.

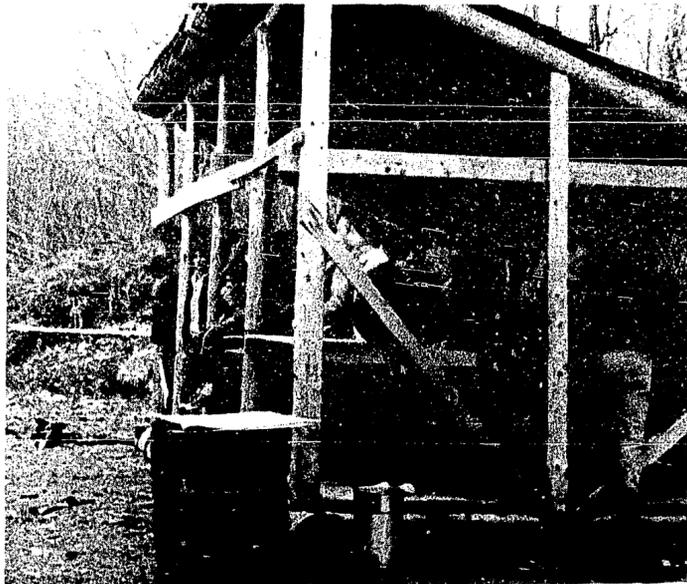

"Barefoot in the Park" Thursday, Friday and Saturday, April 8, 9 and 10 at the Manquam elementary school, 8 p.m., presented by the Howe Sound Drama Club.

Amateur Night at Howe Sound secondary school April 23 at 7 p.m. To enter or for information call Maxine Kent at 898-3067.

Garibaldi Gals, a branch of Western Weight Controllers, bazaar Saturday, April 3, from 1 to 4 p.m., in St. Joseph's Parish Hall.

**Court News**

J. A. Cherpaw was convicted of cultivating and possessing marijuana. He was given one year probation and ordered not to use drugs or associate with drug users for that period. This case was waived here from Coquitlam.

YOUNG PEOPLE taking part in the CORE program were at the Rifle and Gun Club grounds Sunday for some of the practice lessons associated with learning to handle guns.

**Mayor proclaims Sunday World Development Day**

Mayor David Stewart, acting on the authority of the municipal council, has proclaimed Sunday, March 28, as "World Development Day" and has urged citizens of Squamish to attend a public meeting on this theme on that day.

The meeting will be in the form of a rally service sponsored by the Anglican, Roman Catholic and United churches, to be held at 2:30 p.m. at the Squamish elementary school. For those arriving early there will be a song-led by a youth choir.

The Rally Service itself will be simple in structure — an opening and a closing hymn, brief Scripture reading and prayers, with the central portion given over to the speakers. Ample time will be allowed for questions and discussions.

The theme of the rally is "If You Care - Become Aware". At this time, it is important for all of us to know more about the Third World, the developing nations of our planet. We hope on Sunday to tell a little more of the story of their needs and how they are being met, particularly by the churches of our country.

The speakers obtained for this rally have outstanding qualifications. Dr. Lorne Kavic is a professor of economics at present engaged in a special project at Simon Fraser University. He has specialized in the Pacific Rim countries, and has also done research for the Canadian government. One of his projects was to assess the work of Canadian missionaries overseas, and the course of this he travelled extensively in the developing world.

The Rev. Wes Maultsaid, general secretary of the Inter-Church Committee for World

Development of B.C., has had a wide and varied experience as an Anglican priest, both at home and overseas. In his present position, he has done a great deal of travelling to the areas of concern, as well as participating in research and also consultation with governments on the problems.

WE urge the citizens of Squamish to attend and learn — and help. The text of the mayor's proclamation is below:

**WORLD DEVELOPMENT DAY**  
WHEREAS World Development Day is being sponsored by a group of local churches; AND WHEREAS the goals of this project are to educate the people of the various churches, as well as the public at

large, concerning the world's need, and to encourage some appropriate action in response;

AND WHEREAS this project is meant to be primarily educational to bring awareness to our community as to the facts of what is presently being done and just how effective it is;

NOW, THEREFORE, I DO HEREBY DECLARE March 28, 1976, as **WORLD DEVELOPMENT DAY**, and thus urge all citizens to attend a public meeting, to be held March 28, 1976, at the Squamish elementary school at 2:30 p.m.

D. D. Stewart,  
Mayor  
District of Squamish

**Approval for gravel removal**

Council last week agreed to permit the removal of gravel from the area in Brackendale, west of the B.C. Railway tracks and north of the settled area, in D.L. 3186 and D.L. 3187, provided the Squamish Indian Band, the immediate southerly property owners, do not disappear.

At the council meeting last week no word had been received from the Indian Band but the Fish and Wildlife Department had approved the request providing a number of conditions were met:

- These were that:
  - A 150 foot strip was left alongside the Cheakamus River;

- All intakes and diversions of water are screened in accordance with screening specifications;

- Water used for gravel washing purposes be recirculated in a closed system; and

- That anglers are allowed to walk through the area to the river.

The Fisheries Service is very concerned about siltation getting into the river and the environment department will work closely with fisheries on this matter.

Heinz Heidenreich has applied for the permission to remove gravel from the area in question.

**New classes for Capilano College**

In April, Capilano College will be bringing many new classes to Squamish.

On April 5, 6, 7, 12 and 13 from 9 a.m. to 4 p.m. daily will be the supervisory management course by Bob LeFlury providing practical ways of dealing with employees and management problems. The fee is \$75.

From 7:30 to 10 p.m. on Friday, April 9 Claire Culhane will be presenting a new approach to prisons. Using slide presentations and a questionnaire she will certainly present mind-spinning attitudes to prisons, as a means of reform.

Saturday, April 9 from 10 a.m. to 5 p.m. (with an hour off for lunch), Emily Oguss will give a workshop in gardening for food. She will tell how to prepare the soil and how to take care of the garden in the summer. Please pre-register your questions and problems so that she can come prepared with appropriate pamphlets, books and answers. The fee will be \$6.

On Tuesdays, April 20 and 27, a wilderness survival class will be held to explain basic first aid, snow shelters, survival kits, and many practical ideas from local outdoor people and first aid men. The course is aimed at the many hikers, campers and winter outdoors people (skiers and snowmobilers) who perhaps may need assistance or would like to provide it in an emergency. Don Basham will

also be up from the college with a presentation and film on what the recreation program at the college includes. The fee will be \$4.

Still in the planning stages are two courses. Playgroups is a co-

**Coming and going**

Mrs. Bea Russell is spending a few weeks with her son in Phoenix.

Our condolences are extended to the wife and family of John Friesen who passed away suddenly last week.

Mr. and Mrs. W. J. Boscarol and their daughter Tami spent the weekend in Seattle.

Oldtimers who remember Mr. and Mrs. Alex Leyland will be sorry to hear that he passed away in February at his home in Olympia, Washington. Mr. and Mrs. Leyland and their children lived here during the late 1920s and the early '30s.

Mr. and Mrs. Russell McBride have returned to Squamish after three enjoyable months in Mexico.

**CARD OF THANKS**

We would like to thank all of the many kind friends and people who helped us during and after the fire which destroyed our home, both for their assistance and numerous offers of further help. The Duplicate Bridge Club's generous donation is also deeply appreciated.

Phyllis and Carl Malm

**Clean your carpet faster and better with Steamex.**

**6 power jets get the dirt other methods don't reach!**

① Six Steamex power jets penetrate to ground-in dirt and old shampoo, yet are harmless to carpet fibers.

② Steamex solutions work to loosen and lift out carpet underdirt.

③ Powerful Steamex suction draws dirt and solution into plastic tube—so you can see when carpet is thoroughly clean. Restores fibers to upright position. And your carpet dries quickly.

**EL DORADO FLOORS**  
38051 2nd Ave. 892-3434

**Do it yourself and save!**  
Rent a Steamex. It's as simple to use as a vacuum. Gives professional results. Freshen and beautify your carpet. Add years to its life. For rental call telephone number below.

*Sixty Plus*

**Good banking for good living—after sixty.**

If you're sixty years old or better, you're entitled to Sixty-Plus, The Royal Bank's new bundle of special banking privileges. Free. Some of these privileges are:

- No service charge for chequing, bill payment services, or traveller's cheques.
- A specially designed cheque book that gives you a permanent copy.
- A \$5 annual discount on a Safe Deposit Box or Safekeeping Service.
- A special Bonus Savings Deposit Service with interest linked to the Consumer Price Index.
- Special term deposit that pays high interest monthly with flexible redemption privileges.

So come on in and see me or one of my staff today. Or, if you'd prefer, give me a call.

**Council briefs**

Council approved a recommendation from the Planning and Design Committee that industries such as a shake mill be located in the Industrial V zone north of the Weldwood weigh scale.

The proposal is for T. Herman to put a shake mill on this property, which is held on a 30-day lease, and he will have the equipment contained in a Quonset-type building which could be moved.

The provision would be for the construction of small shake mills employing less than 15 people in Industrial V zones.

Council decided to approve subdivision of the property named Lot 3 in Block 5, NE 1/4, Section 3, Plan 10988, south of the Mamquam Bridge, which is being purchased by Berry and Swift. Subdivision will be allowed along the lines proposed at the council meeting earlier this month.

Council agreed to support the application of the Squamish Valley Rod and Gun Club for a one-third grant for construction costs of the building on their property, the grant to come from the Recreation Facilities Fund, a provincial fund.

Raising the costs of installation of culverts from \$5 per foot to \$7.50 per foot was approved, with the proviso that these rates be reviewed yearly so that any increases in costs can be kept, if possible, to a small amount at a time instead of a large increase after several years.

Council has also requested a report on the costs of the price of cemetery lots and the opening and closing of graves and if these costs have increased substantially over the past few years, they should be revised upwards.

The costs of the reservoirs and water supply for the district was discussed and the administrator was asked to prepare a detailed report setting out the necessary work, the cost of the reservoirs and water supply and possible methods of financing.

A request to build a planter along the front of the new building planned for Stathers Home and Building Centre brought some discussion about upgrading the area but as there is not sufficient development along this street to warrant upgrading at the present time it was decided to permit a planter to be constructed, in accordance with the proposed drawings. However, it was to be understood that the construction would be of a temporary nature and that when plans are finalized for the upgrading of Cleveland Avenue that the planter be removed at the owner's expense.

Plans for a Motocross track south of Centennial Park were discussed by council and it was decided that if the work was done, clearing and construction must be carried out on a volunteer basis.

Administrator Keith Belliveau later told a recreation commission meeting that the property recently set aside for this purpose by B.C. Rail was still available.

Lions Club is assisting council with the purchase of a new furnace for the former RCMP building which is going to be renovated for a youth centre. Ald. Don McLennan said other groups have indicated a willingness to assist in the development of the building for the youth centre.

Council decided to reimburse each participant in the coaches' clinic, planned by the recreation supervisor, to be held March 21 and 28, upon the participant successfully completing the course. The course fee is \$10 and this will be returned when it is successfully completed.

Ald. Thor Froslev has done some planning on a possible route for a horse and bicycle trail in the Squamish Valley, from Brackendale to Squamish and back to Brackendale. He hopes to have the proposed route drawn on a map and presented to the Recreation Commission at a later date.

Remembering that her father had held the USC of Canada in high esteem, the daughter of a Dunneville druggist sent \$250 to USC headquarters at 56 Sparks Street, Ottawa. "I received a small sum from dad's estate and I intend to give one tenth of it to worthy causes and I do sincerely hope that wherever it goes it will ensure that some child gets more than he or she would do otherwise."

## Crashes are avoidable

"If in any country it was announced that next month and for several months to come at least 700 people would die of polio, and that ten times that number would be seriously paralysed, we can easily imagine how that country would be galvanized into action," said Norman Bortnick, executive vice-president and general manager of the Insurance Corporation of British Columbia.

"Advice, legislation and money would pour in from all quarters — and rightly so. But what happens when we are facing one of our greatest killers — death on the road?"

"More than 700 people died on the roads in B.C. last year, Bortnick said. "That is death in epidemic proportions. Road traffic crashes pose grave and extensive public health problems. The vast numbers of those maimed and killed on the roads are too often accepted fatalistically as a normal part of modern life."

"If traffic collisions are tackled by methods similar to those used against the great killing diseases, the present epidemic of road deaths could be made to disappear just as plague and smallpox have now been eliminated almost everywhere in the world," Bortnick said.

"Misunderstanding about true causes of road crashes still appears to be widespread. The public has a fatalistic attitude to 'road accidents'. Even the word 'accident' has connotations of fate, chance or luck. A motor vehicle crash is, in fact, not 'unexpected' or an 'accident'."

Bortnick continued: "Injuries can be prevented or their severity reduced. Even the likelihood of becoming involved in a crash can be lessened if the problems involved are studied using the same techniques as are used to prevent disease."

"The fatalistic approach has prevailed until now, however. Take the relatively simple example of the use of safety belts which have been proven to minimize the violent effects of a collision."

"Yet only 20 drivers out of every 100 in B.C. wear them," Bortnick said. "Ontario recently enacted legislation making seat belt usage compulsory and ICB will be watching the results of the legislation. In the meantime, the corporation urges all motorists, and their passengers, to wear seat belts at all times."

## Skiing in Nova Scotia

How would you enjoy a day of cross-country skiing with your family, followed by a delicious country home-cooked dinner of steak and farm vegetables, or fresh boiled lobster or seafood — as much as you can eat?

Then how about a country square dance or a sleigh ride in the evening?

These are some of the things which could be in store for visitors taking advantage of the farm-and-country vacations program in Nova Scotia this winter.

This year, 18 of the more than 50 registered farm-and-country vacation families in Nova Scotia are taking in guests during the winter as well as in other seasons.

Guests have the opportunity of living with a Nova Scotia family for a weekend or a week, and sharing meals, lifestyles, recreation and the friendship of the community.

Rates for Nova Scotia farm-and-country vacations average \$85 per week for each adult, and \$45 per week for each child under 12 years. Some host families have special rates for large families.

Costs include accommodation and meals.

## Fox-trot era

For the past quarter of a century, every Tuesday evening between nine and midnight, some 300 fans of oldtime cheek-to-cheek dancing have been gathering at the Troc '59 in downtown Edmonton.

There, they relive the romantic days of the fox-trot, waltz, tango, and polka.

Out-of-town ballroom dancing fans are especially welcome to this weekly nostalgic flashback.

The entrance to the Troc is typical of the 1920s.

There is a huge carpeted lobby with gold-flecked pillars, maroon-coloured walls, enormous candelabra, tables gleaming with snow-white linen, and a large, smooth, shining dance floor.

### Selects win their semi-final

By ERIC LATTER  
The Squamish Selects won their semi-final game last Saturday and on Saturday, April 10 they play the West Vancouver Firefighters for the Centennial Cup.

This cup is a new one and has never been played for before, the game is currently scheduled to be played at Ambleside, but due to a past technicality, it could be played here; let's hope so.

The semi-final game played last week was one of the best balanced and all-around played games of the year. Each team had one penalty shot, and ours proved to be the game winner.

In the first few minutes of the game, a penalty shot was awarded to the opposition. Goal tender Mark Burritt saved this shot

with a very well manoeuvred play. The Selects' first goal came when Ron Rosser made an excellent pass to Lawrence Dinwoodie who scored the goal. Early in the second half the score was tied up one apiece. Late in the second half a penalty

In 1949 a young boy at Fredericton High School heard USC executive director Dr. Lotta Hirschmanova tell the story of the world's hungry children. Twenty-six years later, and now head of the social studies department at the same school, he arranged for Dr. Hirschmanova to speak to a class of his social studies students. Dr. Hirschmanova founded the USC in 1945 in her own small apartment. USC headquarters is now at 56 Sparks Street, Ottawa.

shot was awarded to the good guys, and Bred Brohman made it count to finish the game with a 2-1 score.

The Squamish Selects would like to thank all those people who bought tickets for the hind quarter of beef, and those who contributed bottles for the bottle drive. On April 23, 24 and 25, the team plans to make a tour of Vancouver Island. They have tentatively arranged games with Nanaimo, Duncan and Victoria teams.

The soccer association is having a dance. Tickets are selling for \$2.50 per person and can be obtained from any coach, from the Squamish United players, and from Road Runner Sporting Goods. The dance will be April 3 at 9 p.m. and music is by the "99 North".

WINNERS OF THE A EVENT in the Mixed Open Bonspiel was the Gary and Vilma Hendrickson and Al and Renee McIntosh shown receiving the Halray Trophy from Scott Sherriff.

THE WELDWOOD TROPHY for the "B" event was presented by Doug Cooper of Empire Logging to a rink made up of Frank and Linda Roche and Keith and Della Stinson. The men are Weldwood employees.

THE "C" EVENT winners were Paul and Sheila Newson and Stu and Shirley Lemcke and they received the FMC Trophy from club president Jack Selby.

## Strike 'n' Spares

by Bill McAdam

Youth Bowling Council:  
Jets — Beverley Washtock, who is six years old, bowled a big game of 206 and she had a double of 310. Excellent bowling, Beverley. Jill Campbell 166S 288D, Laura Vandenberg 123S, Cheney Chadwick 123S 214D, James Baker 162S 266D, Wade Dickie 153S 295D, Ricky Hurrell 158S 248D.

Bantams — Donna Hurry 221S 541T, Tracy Rempel 180S 436D, Lisa Hurrell 164S, Danita Marlow 452T, Ken Olson 190S 436T, Danny Hall 180S 474T, Curtis McLeod 180S 448T.

Juniors — Lorna Walkey 215S 533T, Diane Koch 199S 548T, Patty Hurry 196S 542T, Liz Brennan 196S, Buddy Williams 557T, Lee Chadwick 195S, Kevin Gilmour 192S, Colin Rempel 201S 509T, Raymond Clark 201S 499T. Incidentally, Colin has been bowling with a cast on his leg. That's known as perseverance.

Seniors — Terry McGregor 257S 621T, Susan Halvorson 208S 461T, Barbara Walkey 190S 440T, Louise Clark 190S, Debbie MacLean 166S 400T, Harold Clark 312S 643T, Vince Koch 260S 611T, Ron Cox 207S 565T. Remember the "Doubles Tournament".

Majors — Mrs. Jackie Petroff 228S 571T, Mrs. Cheryl McCarriston 223S 551T, Pauline Bois 210S 494T, Pat Harney had games of 298 188 200 for total of 686T. Norm Richard 243S 599T, Fred Knudson 223S, Cecil Van Sickle 613T. Major League playoffs will be April 18.

Elks Mixed — men's hi singles, ed Antosh 290, Elof Manson 289, George Binning 270, Les Steel 267; men's hi three, Elof Manson 788, Les Steel 740, George Binning 683, Ed Antosh 655; ladies' hi singles, Bert Antosh 319, Natalie Boni 242, Mary Hoodkoff 230, Yvonne Stockley 226; ladies' hi three, Mary Hoodkoff 646, Bert Antosh 629, Yvonne Stockley 618, Natalie Boni 616.

Wednesday Ladies — ladies' hi singles, K. Muirhead 296, M. Reeves 255, D. Quinn 238; ladies' hi three, D. McNulty 646, D. DeFrancesco 640, B. Antosh 624.

Golden Age — men's hi singles, John Ryan 239, Bob Silcock 237, George Nesbitt 230; men's hi three, Bob Silcock 642, Sam Bonde 567, Scot Macdonald 553; ladies' hi singles, Eileen Johnston 286, Freda Clarke 256, Alice Bonde 239, Flo Stevens 234; Ladies' hi three, Freda Clarke 615, Alice Bonde 602, Flo Stevens 587, Eileen Johnston 585.

Royal Purple — ladies' hi singles, Sirpa Lammi 266, Dot Dawson 262, Marge Applin-Floch 252; ladies' hi three, Anne Boscarol 645, Sirpa Lammi 634, Peggy Dawson 626.

Thursday 7 p.m. — men's hi singles, Alan Harry 279, George Jacobs 262, Dale Kingston 234; men's hi three, George Jacobs 682, Alan Harry 658, Dale Kingston 638; ladies' hi singles, Hazel Calkins 255, Helen Phillips 216, Marylyn Lyons 217; ladies' hi three, Hazel Calkins 637, Helen Phillips 589, Ann Tasker 548.

## Howe Sound Baseball League

### 1976 SEASON REGISTRATION

Babe Ruth	13-15 yrs.	\$8.00
Babe Ruth Sr.	16-18 yrs.	New Div.

Parents are requested to attend. Birth certificate or proof of age must be produced.  
Tel. Chuck Elliott 892-3038

## Adams classified tournament

The Zone Roll-offs for this tournament was held here at the lane on Sunday between ladies' and men's teams from Gibsons and ourselves. The result was a very enjoyable event with the Garibaldi Lanes winning the ladies' portion and Gibsons winning the men's.

On the ladies' team were Kathy Roberts 541, Donna Smith 513, Flo Stevens 541, Peggy Dawson 628, and Doreen Quinn 779. Total 3002.

The men's team was composed of Andy Spence 558, Meldelos Santos 629, Tom Flieger 584, Vic Marteddu 664, Freeman Reynolds 772. Total 3207.

These two teams now travel to Chapman's Lanes in Vancouver to participate in the Provincial Finals. From this roll-off two teams advance to the National Finals to be held this year at Niagara Falls.

Gifts won by the lady and man in each classification were donated by the Adams People. High single games went to Carol Ewasiuk 317 and Steve Monk 299.

Our sincere thanks goes to Norma Slec who did a great job of checking and posting the scores as they were rolled and also our thanks to all the scorekeepers who did a swell job. Also to Bud Mulcaster and his lane from Gibsons. They were real sportsmen.

## Lacrosse news

The intermediate "B" team now has two confirmed pre-season exhibition games. The first of the two games will be played in Saanich April 18.

The second of the two games will be played here in Squamish April 25, the game starting at 1:30 p.m. The Saanich team was in first place on the Vancouver Island circuit last year, so we should have some good lacrosse.

### DISTRICT OF SQUAMISH WATER DEPARTMENT NOTICE

The Water Department will commence the annual program of flushing water mains on Monday, March 22, 1976, for a period of approximately one month. This might result in the water supply showing sediment in some areas. The sediment will be bacterially harmless but may cause the water to be discoloured and may affect some industrial processes.

## Financial aid for students

The department of education is to intensify its verification procedures of student loan applications to ensure that public funds set aside for student assistance are being distributed correctly and equitably.

More staff has been approved for the verification section of the student services branch, which administers the financial assistance programs, including loans, grants, special assistance for part-time study and federally funded bilingual awards.

B.C. presently assists approximately 35 percent of all full-time post-secondary students studying in the province.

Funds are granted only where the financial resources available to students from parents, spouse, summer work or other sources are insufficient to meet their estimated educational costs.

Students requiring financial assistance are asked to complete an application form designed to assess the financial strength of both the applicant and his immediate family. Loans are subsequently distributed to individuals who have demonstrated financial need in the continuation of their post-secondary studies.

Last year, British Columbia students were provided with \$25 million in student aid, based on a combination of non-repayable provincial grant up to \$1,500 and a Canada student loan program of up to \$1,800 to qualifying candidates.

### Snooker competition

## Mackenzie wins BCR championship

This past weekend featured the finals of the BCR snooker championships at Ryan's Cycle Shop.

Enroute to the championship, John Mackenzie defeated Bob Haycock, Al Stefanick, Al Walsh, Real Lapointe and Lorne Benson to win the "A" side of the double knockout event.

On the "B" side, winner Benson rolled past Willie Lewis, Don Hales, Tony Gadsby, Dennis Chapman (twice), Ron Lacoursiere, and Mackenzie to force the playoff. With some excellent shooting Mackenzie emerged the winner after twin victories over runner-up Benson.

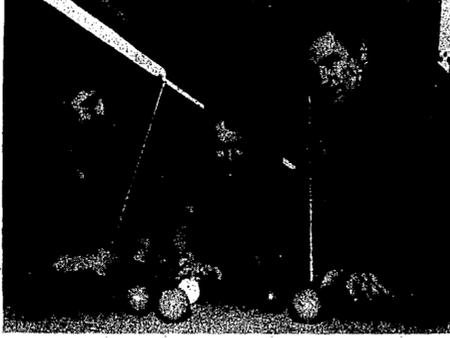

Following the final games, prizes were presented. 1st Mackenzie \$50 plus trophy; 2nd Benson, cue and carrying case

(\$25 value); 3rd Lacoursiere \$15; 4th Chapman \$12; 5th Gadsby \$12; 6th Don Langstaff \$8; 7th Lapointe \$8; 8th Walsh \$5; 9th Tom James \$5.

Winning the draw for the cue and carrying case for the non-money winners was photographer Jim Lyons.

Food and refreshments were served after the main event. Don Hales, Keith Fowler and Don Langstaff were winners in post tourney play as most of those in attendance participated in games of eight ball, 101, poker pool and snooker.

Mrs. Gail Stilwell was the class of the distaff side. A tip of the hat to the organizers for an enjoyable tournament. Special thanks to Kerry and Gail Stilwell, Steve and Anne Provencal for handling the refreshments.

GIVING SOME POINTERS to third place Ron Lacoursiere (left) and runner-up Lorne Benson was snooker champ John Mackenzie (centre).

### Badminton tournament

Forty-two players from Brackendale, Mamquam and Squamish took part in a badminton handicap tournament, held in Howe Sound secondary school gymnasium, Sunday, March 21.

Winners of the mixed doubles "A" division were Thor Halvorson and Linda Rosser who defeated Gail and Tim Dundas in the finals.

Ron Rosser and Alma Lewis defeated Dean Pontini and Debbie Domino in the finals of the "B" division.

Frank Brunn and Chris Loudon, defeated Mike Reid and Roseanna Rudolph in the finals of the "C" division.

Winners of the men's doubles "A" division were Bill Van Dinther and Kelly Clausen while Bob Moule and Brian Hopkins won in the "B" division.

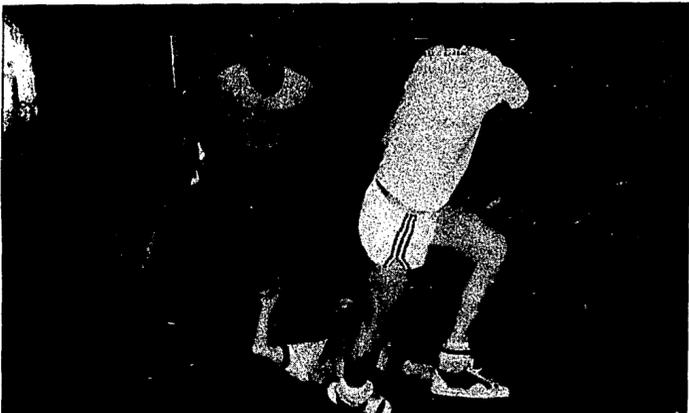

The tournament was sponsored by the Adult Education Department and was arranged by Leo Murray with the help of Alma Lewis and Bill Rempel.

### Coming events

United Church Auction Sale will be held April 10 at 11 a.m. in the annex. A pancake luncheon will be served by TICs.

Soccer Dance, Saturday, April 3 at 9 p.m., Chieftain Hotel.

The World Development Rally Sunday, March 28 at 2:30 p.m. in the Squamish elementary gym. Everyone welcome.

WOULD YOU LIKE to be dragged around a gymnasium floor by your shoe laces? Well for these students at the Howe Sound secondary indoor track meet it was just one of the events but you had to watch for flying students around the corners.

### Steelhead tagging program

The Steelhead Society of B.C. and the Fish and Wildlife Branch are undertaking a steelhead tagging and float count program in the Squamish River area.

Purpose of the program is to obtain valuable information necessary to the protection and enhancement of the steelhead population.

The fish will be sport caught in the Squamish River and tagged with colour coded and

numbered Floy spaghetti tags.

If a tagged steelhead is killed or released, please report the colour of the tag and its number to the Fish and Wildlife Branch, 435-4137, the Alice Lake Restaurant, Brackendale, 898-3114 or Bruce Sweet, Brackendale, 898-3326.

The branch adds that your cooperation will greatly aid in the success of the program.

The float count program will be done in the river in early April.

# Sewage and growth main problems discussed at Whistler

By JENNY BUSDON  
Over 300 people attended Whistler's first very successful Town Forum held at the day cafeteria on Friday evening, March 19.

Outstanding speaker of the evening was definitely Aspen's 34-year-old mayor, Stan Standley. An excellent orator and a book of knowledge Standley, who is also director of the western operations of Sno Engineering — whose company has consulted over 500 ski areas around the world — gave very interesting and knowledgeable talks on ski potential of Whistler, ski resort requirements and related problems in Aspen. Other members of the forum panel were Ald. Garry Watson, Ald. John Hetherington, Bill Kane, Rupert Bayley, Doug Webber, Tom Wells, Hugh Harris, Zoltan Kuan, Ald. Al Raine and Mayor Pat Carleton.

Mayor Carleton said that the object of the forum was to invite the audience to participate in some of the planning considerations which would effect Whistler's future growth. He said that council was concerned about the future and had purposely chosen a conservative approach to future development.

"If every land owner is allowed to fulfill his or her expectations without overall coordination or planning, we could easily develop a very undesirable sprawl that will destroy our growth potential," he said. "Year round utilization and mid-week business are an obvious challenge but the difficult questions are how much, what form, where, and how to achieve this growth."

**HISTORICAL REVIEW**  
An historical review of Whistler was given by Ald. Garry Watson, who outlined what the valley had accomplished over the past sixteen years. He said that the first community planning began in 1961 when a bid was formulated for the 1968 Olympics. It was at this time that the only access to the valley was by railway and that the minister of municipal affairs felt that this was not an opportune moment for planning controls.

"On looking back, this would have been the most opportune time for planning controls," Watson said, "but one good thing that came out of this bid was that a Crown reserve was established for a town core between Whistler and Blackcomb Mountain."

"The Olympic group stayed active, and when the lift company began studying the area in 1962/63 and planner Willy Schaeffer of Colorado at that time recommended that the north side of Whistler should be developed, it was unfortunate that this side was covered in mineral claims."

"Development, therefore, began where it is at the present time, and when the lifts were built there was no control," he added. It was in 1970 that the Squamish-Lillooet Regional District was formed and the municipal affairs department conducted a community plan study, which led to the implementation of zoning in 1971.

One of the problems identified with the provincial government plan was sewage, but an application for a community sewer system was turned down. Consequently, the area was without a unifying focus and lacked identity. In 1973/74 there was still no local administration, and the provincial government refused to support a bid for the 1980 Winter Olympics.

However, in September, 1975 the Resort Municipality of Whistler was formed and it seemed at last progress would be seen. "Unfortunately, we are now five or six years down the road, and sewage is still the critical question, and whether we get the financing will determine our future," Watson concluded.

**PLANNING**  
Ald. Hetherington outlined the rationale of using ski area capacity figures as a planning guide. He said that the comfortable carrying capacity for the present lift company installation on Whistler was 5,000 skiers, and for Whistler Mountain, north side, the area from the proposed townsite to about the top of the present Orange Chair, the comfortable capacity should be about 2,500.

For the proposed new ski area on the face of Blackcomb Mountain the comfortable capacity of 4,000 skiers was estimated, giving a total figure of 11,500 skier capacity for the Whistler area. He questioned whether increased demand would force lift expansion on the north side of Whistler, and pointed out that one of the major problems for the economy of Whistler was the great disparity between weekend and mid-week usage.

"Garibaldi Lift Company does about 60% of its business over the two day weekends and about 40% over the five day midweek, while weekend skiers use about 80% of lift capacity on the average, midweek skiers use only 20% and therefore the critical factor for the north side expansion is increased midweek use," Hetherington said.

Discussing the same subject, Mayor Stan Standley outlined the five areas studied by Sno Engineering in the area. Spruce Mountain, Powder Mountain, Brohm Ridge, Whistler and Blackcomb and discussed the various findings of these studies. He said a key issue to ski potential here was that a skier spends six hours a day skiing, eight hours a day sleeping and 10 hours a day are available to enjoy the amenities, and "where are they at Whistler?"

**YEAR ROUND USES**  
Bill Kane, director of planning for the City of Aspen, presented 60 slides of summer and winter uses in the Aspen area to outline land use planning in ski areas. He said Aspen was famous because it was successful, and the knowledge obtained from Aspen indicated that development should be concentrated. That cars should be kept out to enhance the tourist experience, and that growth should be controlled to the mountain capacities to avoid major traffic and municipal expenses. A basic geological map with considerations being given

to slopes less than 30%, snow avalanche zones, flood plains, water quality for fishing, tourism, swimming, vegetation in the alpine areas, wildlife, air pollution (car exhausts), visual vulnerability such as hydro lines, view plains, height limitations and road cuts, and employee housing, would determine a master plan for economic growth.

Randy Simmons asked Kane if there was no development in the valley at all, where would he locate summer and winter facilities, and since there is development, where would he locate them? Kane replied that summer potential is high in the number of visits by tourists, however the summer visitor was not as affluent as the winter skier. In summer people camp and stay away from big hotels, and he felt it was not practical to base the town centre on a summer economy, and that a market research was needed on the summer potential of the lakes.

Enlarging further on Simmons' question, Mayor Standley identified the problems of rapid growth and municipal financing with regards to winter versus summer use. He said that with peak demands between the hours of 9 a.m. and 3:30 p.m., in winter if development was scattered, transportation of large numbers of people becomes a problem and large areas of land are required for holding areas for cars. Street maintenance costs would therefore rise, especially in high snow belt zones, and mass transportation is then required.

**CONCENTRATED AREA**  
"Summer and winter uses should be in a concentrated area," Standley continued, "and there should not be scattered single family housing as it is expensive for municipal financing and maintenance and in my opinion it is better to concentrate the town centre as close as possible to the lift base. Summer business costs more than winter business and there is less revenue from it. The mountain economy definitely takes precedence over the lake economy," he concluded.

Questioning Kane, local resident Paul Mathews asked, how, in his capacity as a planner did he decide on which subdivisions to allow to proceed. Kane replied that subdivisions must meet objective criteria. That Aspen had identified 15 measures to decide and rate the suitability of sites and the quality of served costs etc. "Single family development is socially expensive," he said, "thus a 30% growth balance between tourist development and single family dwellings was imposed in Aspen."

Rupert Bayley, P.Eng. and a land owner at Whistler, gave an excellent and humorous report on Whistler's existing sewage situation and compared septic tanks to the human "tummy" and referred to tummy upsets during overloaded situations on weekends, such as is happening here. He described this as a mountainous area with many cracks in the rocks allowing seepage and during peak winter periods bacteria, which 'digests'

the matter does not work at peak efficiency if the temperature is below 40° F. He suggested that the situation could be helped if we all were far more careful in what we put down our toilets and sinks, that we should definitely not put down any type of grease or foreign materials as this was impossible for the bacteria to digest.

"Most septic tanks are acidic and need alkaline to neutralize them," he said, "and the sour odor created from seepage takes several months to correct." He suggested that proper sewage treatment should take place away for the lake area.

**SEWAGE SYSTEM**  
Doug Webber of Web Engineering outlined the sewage system proposed for the area and said unfortunately, sewage was a case of "out of sight, out

of mind". He said that as a result of many studies local sewage must be removed some distance from the lake area. "The plan presently being worked on delivers effluent to the Cheakamus River, in the vicinity of Millers Creek."

"The Pollution Control Board has set some stringent requirements on the effluent discharged to the Cheakamus River and this is the task for which our firm has been assigned to resolve," he said. He continued to explain that one of the unique problems in resolving sewage treatment facilities for a resort community was that of loading at weekends, and the type of plant that Web Engineering were proposing was a biological process based on a type of micro-organism.

"In addition to the biological process it is also necessary to

give some concern to the human bacteria which may pass through the whole treatment process, and this is handled by means of disinfectant," he added.

Al Schmuck asked Webber what the actual system was proposed for this valley, and he answered that it was a secondary treatment plant with some tertiary facility added. Randy Simmons asked if the Pollution Control Board had issued a permit and if the provincial government had committed to the financing. Replying to this, Mayor Carleton stated that the permit had been transferred to the municipality and money had been allocated for, but not committed to date.

Simmons further asked if financing was not available would developers be allowed to use batch treatment plants and

hook up to the sewer when it became available. Carleton replied that this use of batch systems was up to the Pollution Control Board and that council would consider it after the PCB had ruled.

Estimated first stage sewer costs it was stated stood at \$5.2 million.

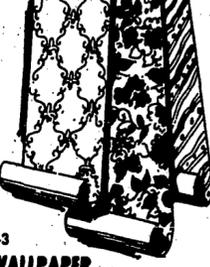

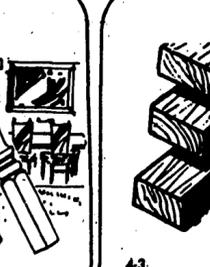

**TRAFFIC PLANNING**  
Zoltan Kuan, highway specialist in traffic planning and design was brief and to the point in his report of highway access and future potential. He said that the present highway was in bad shape. From Horseshoe Bay to Whistler there were 400 significant curves, innumerable smaller curves, 14 speed zones, three one-way bridges, many no passing zones, two right angle junctions, 23 miles of road with no shoulder, four railroad crossings, and six communities

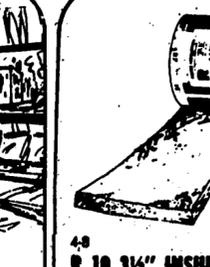

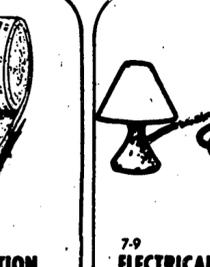

with cross traffic!  
"If standard maintenance was done the highway could accommodate double the present ski area. If the highway was improved it could handle 1,400 cars per hour in peak direction and 400 cars per hour in the off direction in summer conditions," he said, "and with minor improvement 8,000 skiers per day could be accommodated."

On the question of ski resort requirements and related problems in Aspen, Mayor Stan Standley gave an interesting slide presentation of the various good and bad aspects of ski areas, including building and development in the mountainous areas. If possible, he suggested a linear village be avoided. He considered ways of passing on

## Young couple wed at St. John's

MR. AND MRS. LYALL GOODALL

Saturday, March 5 was the day chosen for the 1:30 p.m. wedding of Kimberley Denise Madigan and Lyall Bruce Goodall in the Church of St. John the Divine at Squamish with Rev. Owen Johnston officiating.

The bride is the daughter of Mr. and Mrs. G. A. Adlington of Squamish and Whistler Mountain and the groom is the son of Mr. and Mrs. Gordon Goodall of Squamish.

For her wedding the bride chose a floor length gown of pale yellow with short cuffed sleeves and a vee neck. A tiara glittered in her dark hair and she carried a bouquet of mauve carnations.

Michelle Venor, as maid of honour, wore a navy blue floor

length gown and carried a bouquet of mauve daisies.

Maurie Davis acted as best man.

A reception at the home of the groom's parents followed the ceremony, and the toast to the bride was proposed by Keith Carmichael.

For the ceremony the bride's mother wore a blue leather pant suit with a corsage of red roses while the groom's mother wore a floor length turquoise blue dress with a corsage of red roses.

Before leaving for their honeymoon in Victoria, the bride donned a pale blue pant suit. The young couple will be living in Squamish.

Mr. and Mrs. Karl Green came from Sechelt for the wedding of her brother.

## Squamish Earful

by Maureen Gilmour

Enjoying the sun in Mazatlan were Mr. and Mrs. Rudi These and Trudi, returning home March 13. The Mexican carnival was on while they were there with a wonderful fireworks display each day and lots of music and fun.

On March 13 the senior boys bowling team travelled to Salmon Arm to compete in the provincial finals. Although the boys placed ninth in a field of 12 it was a good showing for a team that has only been together for one year.

Don't forget the date for Amateur Night has been set for April 23. It will be held at Howe Sound secondary at 7 p.m. All you talented people had better start preparing for this worthwhile community event.

Visiting their mother last week were Mrs. Warren Chic of San Francisco and Cpl. Leonard Gebhart of the CAF in Germany, who were home to see their father, Howard Gebhart, who has been ill and hospitalized. Lee was happy to say that he was on the road to recovery.

The United Church will be holding its annual Auction Sale April 10 at 11 a.m. in the church annex. Anyone wishing to donate any unused articles stored away in attics or basements please call 898-3158 or 892-5097 for pick up.

**Births**— Born to former Squamish residents Dave and Lesley Butler, in Edmonton, a girl, 8 lbs. 6 oz. on March 16.

**Birthday greets** this week to Mrs. J. Petruk, Omar Lepetre, Cindy Brooks, Vicki Hinde, Bob Robson, Trevor Harris, Gary Patullo, Willie Boscaroli, Hilda Golay, Carl Halvorson, Ron Binning, Loree Amos, April Hobbs, Lori Donaldson, Mr. and Mrs. Alf Wilkinson, Marguerite McCrae, Mr. and Mrs. Richard Eppelle, Kurt Patrick, Corey Finlay, Kristan Singer, and Harry Brightbill.

And a welcome home to our cheerful little earful who is back after her bout in hospital but a long way from being back to work. We miss you Maureen.

Wendy Fisher, sister of Hilary Sheffield, and her friend Barbara Milner arrived in Squamish March 15 from England. They will be staying with the Sheffields for a month or so before heading up to Prince Rupert and then possibly across Canada.

The Garibaldi Gals, a branch of Western Weight Controllers, are holding a bazaar on April 3 between 1 and 4 p.m. at St. Joseph's Hall. There will be a raffle, tea, white elephant, bake sale, handicrafts and a lovely display of macrame.

Home from a three-week vacation in Maui and Oahu are Mr. and Mrs. Louie Babuin. They were accompanied by Mrs. Babuin's brother and wife Mr. and Mrs. Bert Reed of Vancouver, Mr. Babuin's sister and husband Mr. and Mrs. L. Baese of Surrey, and Mr. and Mrs. Bert Chapplow, former residents of Squamish now residing in Surrey.

"Medi-cheer" to those who are either in hospital or recuperating at home. Howard Gebhart, Roy Anderson, Lori

Pederson, Lorraine Foote and Nels Birkland.

Enjoying a two-week vacation in Hawaii recently were Mr. and Mrs. Barry Arden and John and Judy West.

Mr. and Mrs. Bruce Husted just this week returned from a ten-day holiday in Las Vegas and surrounding area. They flew to southern California and motored around in a Winnebago.

Kelli Rogers raced in his first

B.X. race for 1976 in Aldergrove on March 21. He came home proudly brandishing a first place trophy for his win in the Open Senior class.

Just when we all thought winter was over for good the snow came down Saturday morning like it was going out of style. Fortunately the ground was warm and wet enough so it didn't last but for a little while we all wondered whether the weather man didn't know that the equinox had come and it was officially the first day of spring.

## DRAMA CLUB PRESENTS "BAREFOOT IN THE PARK"

The Howe Sound Drama Club, under the direction of Audrey Owen, is presenting Neil Simon's rib-tickling comedy "Barefoot in the Park" by special permission of Samuel French Inc.

The play will be presented at the Mamquam elementary school on Thursday, Friday and Saturday, April 8, 9 and 10 and local talent includes Alma Lewis as Corie Bratter and Norman Macleod as Paul Bratter.

Do you know what happens when you walk "Barefoot in the Park" in February? If not, be sure to see this hilarious play and find out just what does happen.

Others in the cast are Mike Williams as the telephone man; Bob Owen as a workman, Louise Brygadir as Corie's mother Mrs. Banks and Dave Colwell as Victor Velasco.

Curtain time is 8 p.m. and tickets are \$2 for adults; children and senior citizens \$1.

MR. AND MRS. DAVID FOLEY

## Island honeymoon follows wedding

A honeymoon on Vancouver Island followed the afternoon wedding of Diana Margaret Brunn and David Kelly Foley on Saturday, March 13 in the Church of St. John the Divine with Rev. Owen Johnston officiating.

Yellow daffodils and white daisies decorated the church for the ceremony which saw the daughter of Mr. and Mrs. Frank Brunn and the son of Mr. and Mrs. Doug Foley united in marriage.

For her wedding the bride wore a gown of white polyester satin accented by a long sleeved lace overblouse. A Juliet cap held her floor length veil in place and her sole item of jewelry was an heirloom topaz pendant belonging to a great-aunt. She carried a bouquet of yellow sweetheart roses.

Maid of honour Mona Boyce and bridesmaids Pamela Anderson, cousin of the bride, and Sandy Cliff wore identical gowns of light green crepe with sheer elbow length capes. They each carried a single yellow rose surrounded by baby's breath.

Paul Acorn was the best man and ushering were Bill Rattray and Jim Schütz.

For her daughter's wedding Mrs. Brunn wore a floor length gown of light blue, accented by a chain of baby pink roses, while for her son's wedding Mrs. Foley chose a floor length gown of deep mint green with a corsage of yellow and white carnations.

A reception at the Royal Canadian Legion Hall followed the ceremony with the bride's uncle David Brunn acting as master of ceremonies and another uncle Doug Anderson proposing the toast to the bride, while the best man proposed the

toast to the bridesmaids.

The young couple are living in Squamish.

Out of town guests included Mrs. Betty Andrews of Sacramento, Calif., Mr. T. Foley of Seattle, Mr. and Mrs. D. Cole of Anacortes, Wash., Mr. and Mrs. C. Campbell of Alert Bay, Mr. and Mrs. E. Edmunds of Sechelt, Mr. and Mrs. P. Brunn, Mr. W. Doskotch and Mr. and Mrs. B. Brunn; all of Kamloops, and many other guests from the Vancouver area.

## Band concert for seniors

This afternoon the members of the Squamish Senior Citizens Association were guests at a band concert put on by the students of the Stawamus elementary school under the leadership of Mr. J. Larcombe. Bus service was provided for those without transportation.

At the regular meeting March 16, members were urged to attend tonight's meeting of the Squamish Hospital Society at the Legion Hall at 8 p.m. in support of a move for an extended care unit at the local hospital.

A very generous resident who wishes to remain anonymous has donated a hand-knit sweater to be raffled in order to raise money for the use of senior residents — probably furniture or equipment for the lounge in Squamish Manor. Watch for the tickets!

Bob Silcock reported that the Reno trip had been so successful that he had already had requests for another trip. Tentative arrangements are under way for a trip early in October. Anyone interested is asked to contact Bob Silcock at 932-5304.

Continued

## Whistler town forum

the initial high capital costs to the user, for services, such as roads, sewer and water.

"User, in the case of a ski resort, being the developer and the skier, rather than the resident," he explained. He also went into the matter of transferable density rights and said that this was a new concept of land exchange "which may be quite appropriate to the Crown land in Whistler."

**MARKETING TRENDS**  
Tom Wells, acting chairman of Whistler Development Association, outlined the four elements of marketing related to Whistler. Elements of product, time, economics and people. He said that planning should definitely encourage summer oriented facilities and accommodation and should encourage the nine-hole golf course to expand to 18, installation of numerous tennis courts, use of creeks for canoeing, marking of trails for hiking and many others.

"Only by operating year round can we establish an economic base necessary for the foundation of a permanent community, and only through the development of private lands will an on-going tax base be established to pay for needed community services."

He said that within the terms of reference of the valley there were three distinct groups of people — permanent residents, semi-permanent residents and visitors. "Planning must consider the needs, wants and desires of each group."

Summarizing, Wells said that the planning process must consider the marketplace. It must provide for the competitive element to exist so that people have a choice and that it must encourage both summer and winter facilities in such a way that they complement each other and provide year round operation.

Due to time limitations

question periods had to be cut down and a round table discussion planned for audience and guests to participate in together, also had to be cut from the agenda.

It was at 11:15 p.m. that Mayor Carleton gave his closing remarks. On speaking for council members he felt all had learned a lot by the evening's discussions. He said that considerable discussion had been on the environmental and ecological damage, and very appropriately read a quote from an article in a recent National Geographical magazine, entitled "As We Live and Breathe" which dealt with the challenge on environment.

"This is quite appropriate following all the discussions here tonight," he said, "and the lead statement in the article specifies 'We have met the enemy and he is us'." He summarized by saying that authorities often disagree on what actually causes ecological damage and how best to prevent it, "but I believe, right here at Whistler, many people have begun to accept their ecological responsibilities."

And so the meeting closed, giving the audience much food for thought, particularly so with all the subjects covered during the evening and discussed so thoroughly by Mayor Stanley and all other guest speakers. It is unfortunate, indeed, that the big question mark is still our sewage problem and until we are given a definite answer from our provincial government on whether they are prepared to take that initial step in providing us with this big undertaking, it is inevitable that we are at a complete standstill. It is therefore hoped that when our next forum takes place the direction of our unique valley will at last have a future we can look forward to and consequently an established identity we have long been looking for.

KINSMEN CLUB OF SQUAMISH

**THE PURCELL STRING QUARTET** which will be playing at the Brackendale Art Gallery on Saturday, March 27. Left to right are Ian Hampton, cello; Philippe Etter, viola; Frederick Nelson, violin; and Norman Nelson, violin.

## Farewell party for Tullochs

On Saturday, March 20, Bruce and Ellen Tulloch were the guests of honour at a going away party held at the home of Art and Leslie Schnurr. They will be moving to Saskatchewan to try their hand at farming and friends will be interested to see how the galoshes hold up.

Among the well wishers in attendance were Art and Leslie, Ron and Val Lindstrom, Dave and Sharon Horrey, Bob and Barb McCormick, Emery and Diane Langley, Ann and Paddy McCutcheon, Jeanne and Maurice Swatsky, Gary and Irene Nikota, Janet Downer, Dean Dunk, Sean Houle, Scott Hurren and friend, and from Vancouver Bob Clegg and Ted and Joyce Fisher.

The guests of honour were presented with a metal sculpture for a going away gift, and for Ellen's birthday (which was also on Saturday), she was given a glossy photo of the Squamish mountains. Hopefully she won't miss them too much. Since Ellen came from Hamilton, Ont., she has worked as a psychiatric nurse in the Vancouver area before moving to Squamish two years ago.

Bruce came to the Squamish area in the fall of 1965 from Tonkin, Sask., and since then has worked at Woodfibre, FMC and CNR Aggregates.

They will be missed by many friends who wish them success in their new venture.

## Sawdust and Shavings

Taking a trip to Ottawa later this spring as the local Rotary student on the Adventures in Citizenship program will be Donna Marie Cyr, daughter of Mr. and Mrs. Cliff Cyr of Squamish, and a student at Howe Sound secondary school.

Some people have to have their jollies in the weirdest ways but one of the most senseless ones is taking the attractive stonies off the facing of the Mira Hotel. Doesn't take much intelligence to pry the decorative work from the building but it sure gives a black eye to the community we live in!

MP Jack Pearsall, unable to travel to Lillooet last Tuesday as planned, spent the day in the Alta Lake-Pemberton area and came back to Squamish Tuesday, sitting in on part of the council meeting and discussing the possibility of port development and the status of the Ashcroft-Clinton cutoff to link the national railroads and the BCR.

Thought it was rather amusing

when the programs for the play presented by the Howe Sound Drama Club, scheduled for April 8, 9 and 10, came out as "Barefoot in the Dark" instead of "Barefoot in the Park". Would you say it was a Freudian slip?

Maybe, though, it will be more popular under the new name. Who knows? At any rate make those days a date and try to get to the Mamquam elementary school to see this production directed by Audrey Owen.

Sorry to hear that Bob Bishop's "Snow Golf" tournament at Alta Lake was cancelled this year due to the small numbers who took part in it last year. We never did get up to it but heard that it must have been hilarious fun.

Incidentally heard that young Rob Bishop arrived home after a stay in California and that Eleanor Bishop and Vicki Hinde are motoring to Tucson to spend a few days with their mother, Mrs. A. Sullivan, who will be returning with them.

**Appropriate Names Dept:** Loved the name of the Fish & Wildlife officer I met last week. It was Robin Mullett and what could have been more suitable for his job!

## Several accidents on local roads

There were a number of accidents last week with injuries occurring in one of them.

On March 15, in a single vehicle accident, William Ernest Boll of Squamish was charged with speeding after his vehicle, southbound on Buckley Avenue, went out of control on a corner and ended in the ditch.

On the same day a car driven by Richard Hetherington of Squamish was involved in an accident with one driven by Jeannette Thompson, both of Squamish. Hetherington's vehicle crossed the road and struck the other which was proceeding in the opposite direction. Heatherington was charged with impaired driving and with refusal to blow.

On March 18, a vehicle driven by Surmail Gremal of Squamish, northbound on Highway 99, and one mile south of Furry Creek, swerved to avoid

rocks on the road and ended up in the ditch. The driver suffered rib injuries and a passenger a broken arm and bruises. Both were taken to the Squamish General Hospital.

On the same day a vehicle driven by Robert Julien of Squamish, proceeding southward on Highway 99 just south of the Mamquam bridge, pulled out to pass another vehicle and was forced off the road by the vehicle, landing against a tree on the side of the right-of-way.

On March 21, a vehicle driven by Thomas Maruk of Burnaby suffered damage amounting to \$2,000 when he lost control of his vehicle on a curve while travelling south on Highway 99 just north of the municipal boundaries, and rolled, ending up in the ditch. Maruk was charged with speeding.

## Half million Easter Seal goal

"We are a team, 'Timmy' and I. Together we are going to raise half a million dollars if you help," says Babe Pratt, honorary chairman of the 1976 Easter Seal Appeal conducted by the British Columbia Lions Society for Crippled Children. Graham Penman, "Timmy" for 1976, is one of over 25,000 disabled youngsters in the province. He goes to school at the G. F. Strong Rehabilitation Centre, cerebral palsy wing, in Vancouver. But Graham lives in Richmond ... ten miles away.

"He commutes by Easter Seal bus," says Pratt. "He even transfers from one bus to another."

The B.C. Lions Society for Crippled Children has 83 buses travelling over 1.5 million miles in more than 40 communities: Vancouver, West and North Vancouver, Burnaby, New Westminster, Coquitlam, Burquitlam, Maple Ridge, Whonnock, Fort Langley, Langley, Ladner, Delta, Surrey,

White Rock, Richmond, Abbotsford, Victoria, Sooke, Saanich, Nanaimo, Ladysmith, Comox, Cumberland, Courtenay, Duncan, Port Alberni, Kamloops, Kelowna, Rutland, Westbank, Nelson, Fernie, Powell River, Prince George, Dawson Creek and Pouce Coupe.

"In the summertime Graham has a holiday ... I mean a real holiday, just like other kids," says Pratt. "He goes to an Easter Seal camp!"

When he was younger, Graham went to Holiday House and last year he attended Camp Chehalis in the Fraser Valley.

This year a brand new camp opens in Squamish with facilities for camping round the year.

Easter Seal House, near Vancouver General on 12th, is another facility operated by the Lions for the handicapped. A

mother and handicapped child from any place in the province can stay there for \$3 a night while the youngster receives diagnosis and treatment.

The Lions help in other ways, too — crutches, wheelchairs, airfare and paying bills for children born with cleft lip.

"All of this costs money; almost \$2 million a year," says Pratt.

"The British Columbia Lions Society for Crippled Children has asked Graham and me to help raise half a million dollars with Easter Seals. Join the team, won't you? Please mail in your contribution to the Lions Easter Seal Appeal."

### Ukrainian festival

The annual Ukrainian Spring Festival will be held May 13-15 in Saskatoon, Sask.

Called the Vesna Festival, it offers visitors an atmosphere of family fun, colourful decorations, cultural displays, delicious Ukrainian food, and an evening of dancing and listening to Ukrainian music.

Entertainers this year are Syny Stepin, a Ukrainian rock band from Montreal; the Continental ensemble, a band from Saskatoon; the Pavlychenko Folkloric Ensemble and the Yevshan Ukrainian Folk Ballet Ensemble, both of Saskatoon; and the Troista Trop and Berizka Dancers of Winnipeg.

**OPEN HOUSE** at the Stawamus elementary school saw a number of youngsters entertaining their parents and showing their work.

### Good turnout at open house

Stawamus elementary school held its second annual Open House Thursday, March 11, with a good number of parents turning out.

Parents were encouraged to visit the classrooms and teachers of their children from 1:30 to 2:30 p.m. and were then invited to attend a coffee get-together in the gymnasium. Bright sunshine poured into the gym and classrooms, making the atmosphere very congenial and warm.

In the entrance hall of the school, bulletin boards of various themes were hung. One in particular was called "Memories", consisting of class pictures dating back to 1961. Pictures of the recent successful Stawamus Music Concert adorned another bulletin board while a third one was called "What's New", a display of covers from the latest books.

The hallways were imaginatively decorated with an assortment of "Limbericks",

written by the students, and colourful art work such as flowers and snowflakes.

In addition to principal T. D. Harris, who also teaches grades 5 and 6, on hand were the following teachers: Ms. Orou (Grade 2), J. K. Larcombe (Grade 7), Mr. Schwarz (Grades 6 & 7), Mr. Cromack (Grades 4 & 5), Mrs. Ingenhorst (Grades 3 & 4), Mrs. Hubner (Grade 3), Mrs. Walter (Grades 1 & 2), Ms. Giroday (Grade 1), and Ms. Black (Kindergarten).

# Fish in souffles and casseroles

Fish is also good in souffles and casseroles and a whole baked fish can be the highlight of a festive meal as well as a special family dinner.

Sole, halibut or tuna can often be substituted in casserole dishes or in fish bakes and the clever housewife experiments with different varieties to see if they appeal to her family.

### SALMON SOUFFLE

- 2 tbsps. butter or margarine, melted
- 1/2 cup milk
- 4 slices bread, torn in pieces
- 2 tins (16 oz. each) salmon, drained and flaked
- Paprika
- 2 eggs, separated
- 3 tbsps. lemon juice
- 2 tsp. minced onion
- 1 tsp. salt
- 1/2 tsp. pepper

Mix butter, milk and bread; stir in salmon, egg yolks, lemon juice, onion, salt and pepper. Beat egg whites till stiff; fold into salmon mixture. Pour into greased 1 1/2 quart casserole. Sprinkle with paprika. Bake uncovered one hour.

### SAUCY FISH BAKE

- 16 oz. fish fillets
- 1/2 tsp. salt
- 1/8 tsp. pepper
- 1 tbsps. butter or margarine
- 1 pkg. hollandaise sauce mix
- Asparagus spears, boiled
- Paprika
- French fried onion rings

Heat oven to 475 degrees. Arrange fish in ungreased baking dish, leaving space in centre of dish. Season fish with salt, pepper and dot with butter. Bake uncovered for 15 minutes. Prepare hollandaise sauce as directed on package. Cook asparagus, drain. Remove fish from oven. Place asparagus in centre of dish. Pour hollandaise sauce on asparagus; sprinkle with paprika.

Bake uncovered five minutes or until fish flakes easily with a fork. Sprinkle onion rings on fish; bake 2 minutes longer. Serves 3 or 4 people.

### BARBECUED STUFFED FISH

- 8-10 lb. fish (salmon, cod or trout), cleaned
- Salt
- Pepper
- Vegetable stuffing (see below)
- Salad oil

### 1/2 cup melted butter or margarine

- 1/4 cup lemon juice
- Wash fish quickly in cold water and pat dry. Rub cavity with salt and pepper; stuff with garden vegetable stuffing. Close opening with skewers and lace with string. Brush fish with salad oil.

Place fish in wire basket 4 to 6 inches from coals. Cook 45 minutes until fish flakes easily with fork, turning three times and basting with mixture of butter and lemon juice. If broiling set oven to broil and cook in similar manner. Serves 10 to 12.

### GARDEN VEGETABLE STUFFING

- 1 cup finely chopped onion
  - 1/4 cup butter or margarine
  - 2 cups dry bread cubes
  - 1 cup coarsely shredded carrot
  - 1 cup chopped mushrooms
  - 1/2 cup minced parsley
  - 1/2 tsp. lemon juice
  - 1 egg
  - 1 clove garlic, minced
  - 2 tsp salt
  - 1/4 tsp. pepper
  - 1/4 tsp. oregano
- Cook onion in butter till tender. Mix in remaining ingredients. Stuff fish and follow recipe as indicated above.

**ANNA YOUNG**, secretary to Jack Pearsall, who accompanied the MP on his swing round the riding, shown chatting with Lisa Rafn.

### Whippletree junction

Whippletree Junction, British Columbia, looks like a street from the late 19th century.

Located between Victoria and Nanaimo on Vancouver Island, the historic village has a lively stable, a firehall, a general store, a barber's shop, a clothing store, a blacksmith's shop, a garage and a stove store.

All the stores are filled with turn-of-the-century bric-a-brac. The oldtime drugstore displays medicines guaranteed to cure anything from a cold to

a case of worms — and the alcoholic content of some of the medicines suggests they would sell well in a government liquor store.

Other 19th century best-sellers on display: high-button boots, wicker baby carriages, an ancient horse-drawn hearse, old phonographs with huge His-Master's-Voice-type funnel mouths, hip baths, wood stoves, and a dentist's foot-powered drill.

## CANADA PROVINCE OF BRITISH COLUMBIA

**ELIZABETH** the SECOND by the Grace of God, of the United Kingdom, Canada, and Her Other Realms and Territories, Queen, Head of the Commonwealth, Defender of the Faith.

To all to whom these presents shall come —

### GREETING

H. A. CURTIS

Minister of Municipal Affairs

(WHEREAS pursuant to the provisions of Section 766 of the Municipal Act (of the Municipal Act of the Squamish-Lillooet Regional District was incorporated (by Letters Patent issued (the third day of (October, 1968:

AND WHEREAS section 766 of the Municipal Act provides, inter alia, that subject to the provisions of that section, the Lieutenant-Governor in Council, on the recommendation of the Minister, in Letters Patent or supplementary Letters Patent may redefine the boundaries of any electoral area:

AND WHEREAS the Resort Municipality of Whistler Act was proclaimed effective September 6th, 1975, by the Lieutenant-Governor in Council:

AND WHEREAS the Regional Board of the Squamish-Lillooet Regional District has petitioned that the boundaries of Electoral Areas C and D be redefined to encompass those parts of Electoral Area E that were not included within the boundaries of the Resort Municipality of Whistler:

AND WHEREAS supplementary Letters Patent granting the functions of Fireworks Regulation, Firearms Regulations, Joint Community Use of School Facilities and Refuse Disposal be amended by deleting the member municipality of Electoral Area E and adding the Resort Municipality of Whistler as a participating member municipality:

AND WHEREAS supplementary Letters Patent granting the function of Recreational Programmes dated January 9th, 1975 be amended by deleting reference to Electoral Area E and adding a defined portion of Electoral Area D and the Resort Municipality of Whistler as participating member municipalities:

AND WHEREAS supplementary Letters Patent granting the function of Television Rebroadcasting dated May 8th, 1975 be amended by deleting reference to Electoral Area E and adding defined portions of Electoral Areas C and D and the Resort Municipality of Whistler as participating member municipalities:

AND WHEREAS the Regional Board has requested the function of Public Library Service with The Corporation of the Village of Lillooet, The Corporation of the Village of Pemberton, the Resort Municipality of Whistler and Electoral Areas B, C, and D as participating member municipalities:

AND WHEREAS the provisions of the said section 766 have been duly complied with:

NOW KNOW YE THAT by these presents, We do order and proclaim that on, from, and after the date hereof the Letters Patent of the Squamish-Lillooet Regional District be amended as follows:

1. By striking out in Appendix A the description of Electoral Areas C, D, and E and substituting therefor the following descriptions for Electoral Areas C and D —

### Electoral Area C

Commencing at the northeast corner of Lot 1120, Lillooet District, being a point on the highwater mark of Anderson Lake, on the westerly shore thereof; thence westerly along the northerly boundary of said Lot 1120 to the northwest corner thereof; thence westerly in a straight line to the northeast corner of Lot 4801; thence westerly along the northerly boundary of said Lot 4801 to the northwest corner thereof; thence west to the point of intersection with the westerly boundary of the watershed of Anderson Lake; thence northerly along said boundary to the point of intersection with the northerly boundary of the watershed of Lillooet River; thence westerly along said northerly boundary of the watershed of Lillooet River to the westerly boundary of the watershed of said Lillooet River; thence southerly along said boundary and along the westerly boundary of the watershed of Clendenning Creek and continuing southeasterly and northeasterly along the southeasterly and southerly boundaries of the watershed of Sims Creek to the mouth of Sims Creek; thence east to the point of intersection with the westerly boundary of the watershed of Squamish River; thence northerly, easterly, and southerly along the westerly, northerly and easterly boundaries of the watershed of Squamish River to the summit of Mount Callaghan; thence in a general southeasterly direction along the southeasterly boundary of the watershed of Soo River to the summit of Rainbow Mountain; thence in a general southerly direction along the westerly boundary of the watershed of Twenty-one Mile Creek to the point of intersection with the boundary of the Resort Municipality of Whistler as proclaimed by Order in Council 2490, dated July 24th, 1975; thence in a general southerly and easterly direction along the boundaries of said Resort Municipality of Whistler to the point of intersection with the southeasterly boundary of the watershed of Fitzsimmons Creek; thence southeasterly and northerly along the westerly boundary of the watershed of Billygoat Creek; thence northerly and easterly along the westerly and northerly boundaries of the watershed of Billygoat Creek to a point thereon which lies due west of the northwest corner of Lot 5536, Group 1, New Westminster District; thence east to said corner; thence easterly along the northerly boundary of said Lot 5536 to the northeast corner thereof; thence east to the point of intersection with the easterly boundary of the watershed of Lillooet River; thence northerly along said boundary to and along the easterly boundary of the watershed of Birkenhead River to the point of intersection with the southerly boundary of the watershed of Haymore Creek; thence easterly, northerly and westerly along the southerly, easterly and northerly boundaries of said watershed and continuing northerly along the easterly boundaries of the watersheds of Pinney and Wade Creeks to a point thereon which lies due east of the northeast corner of Lot 2754, Lillooet District; thence west to said corner; thence westerly along the northerly boundary of said Lot 2754 to the northwest corner thereof; thence northerly along the easterly boundary of Lot 4713 to the northeast corner thereof; thence northerly in a straight line to the aforesaid northeast corner of Lot 1120, Lillooet District, being the point of commencement, save and except thereout any lands, foreshore or land covered by water lying within the corporate limits of any city, district, town, or village municipality or any land, foreshore, or land covered by water that may be hereafter incorporated thereon.

### Electoral Area D

Commencing at the northwest corner of Lot 3041, Group 1, New Westminster District, being a point on the highwater mark of Queen Charlotte Channel, on the easterly shore thereof; thence west to the middle line of Queen Charlotte Channel; thence northerly along the middle line of Queen Charlotte Channel, Montague Channel and Howe Sound to a point thereon which lies due east of the southwest corner of Lot 1663, Group 1, New Westminster District, being a point on the highwater mark of Howe Sound, on the westerly shore thereof; thence west to said corner; thence northerly along the westerly boundary of said Lot 1663 to the northwest corner thereof; thence west to the point of intersection with the easterly boundary of the watershed of Potlach Creek; thence northerly along the said boundary and continuing in a general northerly direction along the westerly boundaries of the watersheds of Howe Sound and Squamish River to the southerly boundary of the watershed of Sims Creek; thence northeasterly along the southeasterly boundary of the watershed of said Sims Creek to the mouth of Sims Creek; thence east to the point of intersection with the westerly boundary of the watershed of Squamish River; thence northerly, easterly and southerly, along the westerly, northerly and easterly boundaries of the watershed of said Squamish River to the summit of Mount Callaghan; thence in a general southeasterly direction along the southeasterly boundary of the watershed of Soo River to the summit of Rainbow Mountain; thence in a general southerly direction along the westerly boundary of the watershed of Twenty-one Mile Creek to the point of intersection with the boundary of the Resort Municipality of Whistler, as proclaimed by Order in Council 2490, dated July 24th, 1975; thence in a general southerly and easterly direction along the boundaries of said Resort Municipality of Whistler to the point of intersection with the southeasterly boundary of the watershed of Fitzsimmons Creek; thence southeasterly and northerly along the southeasterly and easterly boundaries of the watershed of Fitzsimmons Creek to the point of intersection with the northerly boundary of the watershed of Cheakamus River; thence easterly and southerly along the northerly and easterly boundaries of the watershed of Cheakamus River and continuing southerly along the easterly boundary of the watersheds of Mamquam and Indian Rivers to a point thereon which lies due east of the southeast corner of Lot 2029, Group 1, New Westminster District; thence west to the point of intersection with the middle line of Indian River; thence southerly along said middle line to a point which lies due east of the most northerly corner of Lot 1580; thence west to a point which lies due north of the northeast corner of Lot 1291; thence south to a point which lies due east of the northeast corner of Lot 1293; thence west to said corner; thence westerly along the northerly boundary of Lot 1293 and the southerly boundary of Lot 1294 to the southwest corner of said Lot 1294; thence westerly in a straight line to the northeast corner of Lot 3041; thence westerly along the northerly boundary of said Lot 3041 to the aforesaid northwest corner thereof, being the point of commencement, save and except thereout any land, foreshore, or land covered by water lying within the corporate limits of any city, district, town or village municipality, or any land, foreshore, or land covered by water that may be hereafter incorporated thereon.

2. By amending Section 3 — Member Municipalities by adding "Resort Municipality of Whistler" on line 5 following the word "Squamish" and by striking out the word "and E" on the 6th line so that the paragraph reads as follows:

### MEMBER MUNICIPALITIES

3. The member municipalities of the regional district are as follows:

Municipalities — The Corporation of the Village of Lillooet; The Corporation of the Village of Pemberton; District of Squamish; Resort Municipality of Whistler

Electoral Areas — Electoral Areas A, B, C, and D the boundaries of which are described in Appendix "A" attached to and forming part of these Letters Patent.

3. (a) Supplementary Letters Patent dated September 15th, 1970, granting the function of Fireworks Regulation be amended by adding the words "Resort Municipality of Whistler" following the word Pemberton and striking out the word and letter "and E" following the letter D on the seventh line of paragraph 2 of the preamble on page 2 so that the paragraph reads as follows:

"AND WHEREAS the Regional Board of the Squamish-Lillooet Regional District requested pursuant to the provisions of subsection (4a) of section 766 of the Municipal Act that a further function be granted the regional district, with the Corporation of the Village of Lillooet, The Corporation of the Village of Pemberton, Resort Municipality of Whistler, and Electoral Areas A, B, C, and D as participating member municipalities."

- (b) And Section 1, Division V — Fireworks Regulation, be amended by adding the words "Resort Municipality of Whistler" following the word Pemberton on line 2 of paragraph 1 and by striking out the word and letter "and E" following the letter D on line 3 so that the section reads as follows:

"1. The Corporation of the Village of Lillooet, The Corporation of the Village of Pemberton, Resort Municipality of Whistler, and Electoral Areas A, B, C, and D shall participate and share in the cost of the function of the regional district provided by this division."

4. (a) Supplementary Letters Patent dated October 10th, 1974 granting the function of Firearms Regulations be amended by adding the words "Resort Municipality of Whistler" following the word Pemberton on line 6 of paragraph 1 and striking out the word and letter "and E" following the letter D on the sixth line of paragraph 1 of the preamble on page 2 so that the paragraph reads as follows:

"AND WHEREAS the Regional Board of the Squamish-Lillooet Regional District has requested the further function of Firearms Regulation be granted the regional district under the provisions of section 766(4a) of the Municipal Act with The Corporation of the Village of Lillooet, The Corporation of the Village of Pemberton, Resort Municipality of Whistler, and Electoral Areas A, B, C, and D as participating member municipalities."

- (b) And section 1 — Division VII — Firearms Regulation be amended by adding the words "Resort Municipality of Whistler" following the word Pemberton on line 2 of paragraph 1 and by striking out the word and letter "and E" following the letter D on line 3 of paragraph 1 so that the section reads as follows:

"1. The member municipalities of The Corporation of the Village of Lillooet, The Corporation of the Village of Pemberton, the Resort Municipality of Whistler and Electoral Areas A, B, C, and D participate and share in the cost of the function of the regional district provided by this Division."

5. (a) Supplementary Letters Patent dated March 13th, 1975, granting the function of Joint Community Use of School Facilities be amended by striking out the words and letters "Electoral Areas A, B, C, D, and E" following the word "with" in the 5th line of paragraph 2 of the preamble on page 2 and substituting the words and letters "the Resort Municipality of Whistler and Electoral Areas A, B, C, and D", so that the paragraph reads as follows: "AND WHEREAS the Regional Board of the Squamish-Lillooet Regional District has requested the further function of Joint Community Use of School Facilities be granted the regional district under the provisions of section 766(4a) of the Municipal Act, with the Resort Municipality of Whistler and Electoral Areas A, B, C, and D as participating member municipalities."

(b) And Section 1, Division X — Joint Community Use of School Facilities — be amended by striking out the words and letters "Electoral Areas A, B, C, D, and E" following the word "of" on lines 1 and 2 of paragraph 1 and substituting the words and letters "the Resort Municipality of Whistler and Electoral Areas A, B, C, and D", so that the section reads as follows:

"1. The member municipalities of the Resort Municipality of Whistler and Electoral Areas A, B, C, and D participate and share in the cost of this function of the regional district provided by this Division."

6. (a) Supplementary Letters Patent dated May 1st, 1975 granting the function of Refuse Disposal be amended by adding the words "Resort Municipality of Whistler" following the word Pemberton on line 6 and striking out the word and letter "and E" following the letter "D" on the seventh line of paragraph 2 of the preamble on page 2 so that the paragraph reads as follows:

"AND WHEREAS the Regional Board of the Squamish-Lillooet Regional District has requested that the regional district be empowered to undertake refuse disposal with The Corporation of the Village of Lillooet, The Corporation of the Village of Pemberton, and Resort Municipality of Whistler, and Electoral Areas A, B, C, and D being the participating member municipalities."

- (b) And Section 1, of Division XI — Refuse Disposal — be amended by adding the words "and the Resort Municipality of Whistler" following the word Pemberton on line 8 of paragraph 1 so that the paragraph reads as follows:

### DIVISION XI — REFUSE DISPOSAL

"1. The Regional Board may establish, maintain, operate and regulate grounds for the disposal of garbage and waste, and may, by by-law, establish and impose charges for the use thereof, within the area of the regional district, comprising all electoral areas, The Corporation of the Village of Lillooet, The Corporation of the Village of Pemberton and the Resort Municipality of Whistler, which are hereby declared to be the participating member municipalities subject to the provisions of paragraphs 2 and 3 hereof."

7. Supplementary Letters Patent dated January 9th, 1975 granting the function of Recreational Programmes be amended by deleting section 1 of Division XIII — Recreational Programmes and substituting the following: "1. The Corporation of the Village of Pemberton, the Resort Municipality of Whistler, Electoral Areas A, B, C, and defined area of Electoral Area D described below participate in the function pursuant to this division:

### Defined Area of Electoral Area D

Commencing at the northwest corner of Lot 3033, Group 1, New Westminster District; thence west to the point of intersection with the easterly boundary of the watershed of Squamish River; thence northerly along said boundary to the summit of Mount Callaghan; thence in a general southeasterly direction along the southeasterly boundary of the watershed of Soo River to the summit of Rainbow Mountain; thence in a general southerly direction along the westerly boundary of the watershed of Twenty-one Mile Creek to the point of intersection with the westerly boundary of the Resort Municipality of Whistler, as proclaimed by Order in Council 2490, dated July 24th, 1975; thence in a general southerly and easterly direction along the boundaries of said Resort Municipality of Whistler to the point of intersection with the southeasterly boundary of the watershed of Fitzsimmons Creek; thence southeasterly and northerly along the southeasterly and easterly boundaries of the watershed of Fitzsimmons Creek to the point of intersection with the northerly boundary of the watershed of Cheakamus River; thence easterly and southerly along the northerly and easterly boundaries of Cheakamus River to a point thereon which lies due east of the northeast corner of Lot 3033, Group 1, New Westminster District; thence west to said corner; thence westerly along the northerly boundary of said Lot 3033 to the aforesaid northwest corner, being the point of commencement."

8. (a) Supplementary Letters Patent dated May 8th, 1975 granting the function of Television Rebroadcasting be amended by striking out the remaining words of paragraph 2 of the preamble on page 2 following the word "Pemberton" on lines 8, 9, and 10 and substituting the words "Resort Municipality of Whistler and defined portions of Electoral Areas C and D as participating member municipalities" so that the paragraph reads as follows:

"AND WHEREAS the Regional Board of the Squamish-Lillooet Regional District has requested under the provisions of section 766(4a) of the Municipal Act the function to participate in and grant financial aid toward the cost of acquisition, operation and maintenance of a television rebroadcasting system with The Corporation of the Village of Pemberton, Resort Municipality of Whistler and defined portions of Electoral Areas C and D as participating member municipalities."

- (b) And Section 1 of Division XII — Television Rebroadcasting be amended by deleting section 1 and substituting the following: "1. The Corporation of the Village of Pemberton, the Resort Municipality of Whistler and defined areas of Electoral Areas C and D described below participate in the function pursuant to this division:

### Defined Area — Electoral Area C

Commencing at the northwest corner of Lot 3265, Lillooet District; thence easterly along the northerly boundaries of Lots 3265 and 1169 to the northeast corner of Lot 1169; thence northerly, easterly and southerly along the westerly, northerly and easterly boundaries of Lot 2670 to the northwest corner of Lot 4898; thence easterly and southerly along the northerly and easterly boundaries of said Lot 4898 to the most easterly southeast corner thereof; thence easterly in a straight line to the southwest corner of Lot 3114; thence easterly along the southerly boundary of said Lot 3114 to the southeast corner thereof; thence southeasterly in a straight line to the northwest corner of Lot 3237; thence southerly and easterly along the westerly and southerly boundaries of said Lot 3237 to the southeast

corner thereof; thence southerly and easterly along the westerly and southerly boundaries of Lot 3150 to the most easterly northeast corner of Lot 3151; thence southeasterly in a straight line to the northeast corner of Lot 829; thence southerly in a straight line to the most easterly corner of Lot 8511; thence southeasterly along the southeasterly boundary of said Lot 8511 to the most southerly corner thereof; thence southeasterly in a straight line to the southeast corner of Lot 832; thence westerly along the southerly boundary of said Lot 832 to the most southerly southwest corner thereof; thence northeasterly in a straight line to a point on the easterly prolongation of the southerly boundary of Lot 4095, said point being 5000 feet distant easterly from the southeast corner of said Lot 4095; thence westerly along said prolongation to the point of intersection with the easterly boundary of the watershed of Green River; thence southerly along the easterly boundary of the watershed of Green River to the easterly boundary of the watershed of Fitzsimmons Creek; thence southerly and northerly along the easterly and southeasterly boundaries of the watershed of Fitzsimmons Creek to the point of intersection with the southerly boundary of Resort Municipality of Whistler as proclaimed by Order in Council 2490, dated July 24th, 1975; thence in a general westerly and northerly direction along the boundaries of the said Resort Municipality of Whistler to the point of intersection with the westerly boundary of the watershed of Twenty-one Mile Creek; thence northerly along the said westerly boundary of the watershed of Twenty-one Mile Creek to the summit of Rainbow Mountain; thence northerly along the southeasterly boundary of the watershed of Soo Creek to the summit of Mount Callaghan; thence in a general northerly, southeasterly and easterly direction along the westerly, northeasterly and northerly boundaries of the watershed of Soo River to a point which lies due south of the southwest corner of Lot 1549; thence north to said corner; thence northerly along the westerly boundary of Lot 1549 to the northwest corner thereof; thence north for a distance of five and one half miles; thence northerly in a straight line to the point of intersection of the southerly prolongation of the westerly boundary of Lot 2669 and the south bank of Ryan River; thence northerly along said prolongation and continuing northerly along the westerly boundary of Lot 2669 to the northwest corner thereof; thence northerly in a straight line to the most westerly southwest corner of Lot 3265; thence northerly along the westerly boundary of said Lot 3265 to the aforesaid northwest corner thereof, being the point of commencement.

### Defined Area — Electoral Area D

Commencing at the northwest corner of Lot 3033, Group 1, New Westminster District, thence west to the point of intersection with the easterly boundary of the watershed of Squamish River; thence northerly along said boundary to the summit of Mount Callaghan; thence in a general southeasterly direction along the southeasterly boundary of the watershed of Soo River to the summit of Rainbow Mountain; thence in a general southerly direction along the westerly boundary of the watershed of Twenty-one Mile Creek to the point of intersection with the westerly boundary of the Resort Municipality of Whistler, as proclaimed by Order in Council 2490, dated July 24th, 1975; thence in a general southerly and easterly direction along the boundaries of said Resort Municipality of Whistler to the point of intersection with the southeasterly boundary of the watershed of Fitzsimmons Creek; thence southeasterly and northerly along the southeasterly and easterly boundaries of the watershed of Fitzsimmons Creek to the point of intersection with the northerly boundary of the watershed of Cheakamus River; thence easterly and southerly along the northerly and easterly boundaries of Cheakamus River to a point thereon which lies due east of the northeast corner of Lot 3033, Group 1, New Westminster District; thence west to said corner; thence westerly along the northerly boundary of said Lot 3033 to the aforesaid northwest corner, being the point of commencement."

9. AND THAT We do order and proclaim that on, from, and after the date hereof, the following be added to the objects, powers, obligations, duties, limitations and conditions of the Squamish-Lillooet Regional District.

### DIVISION XIV — PUBLIC LIBRARY SERVICE

1. The member municipalities of The Corporation of the Village of Lillooet, The Corporation of the Village of Pemberton, the Resort Municipality of Whistler, and Electoral Areas B, C, and D of the regional district participate in the function granted by this Division.
2. The Regional Board may provide, operate and maintain a public library service within the area of the Regional District and may acquire and dispose of property both real and personal for the purpose.
3. For the purposes of this function, the Regional Board may, by law, enter into an agreement or agreements with the Library Development Commission and such agreements would be subject to the provisions of section 56 of the Public Libraries Act.
4. The annual net cost attributable to this function shall be apportioned among the member municipalities on the basis of assessment, as fixed for school purposes in the current year, excluding property that is taxable for school purposes only by special Act in the said member municipalities and shall not exceed the product of one and one-half mills on the taxable assessed values for school purposes in the current year, excluding property that is taxable for school purposes only by special Act in the said member municipalities.
5. No debt, other than temporary current borrowing shall be incurred for the purposes of this function.
6. Upon the amendment of supplementary Letters Patent granted to the Thompson-Nicola Region District that grant the function of Public Library Service, the powers and duties granted to the Squamish-Lillooet Regional District by this function may be jointly exercised with the Thompson-Nicola Regional District.

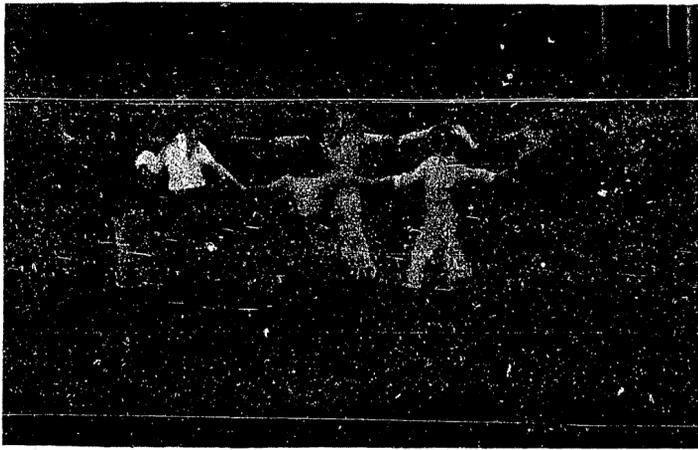

AND THAT the Letters Patent of the Squamish-Lillooet Regional District, be deemed to be further amended accordingly.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent and the Great Seal of Our said Province to be hereunto affixed.

WITNESS, Colonel, the Honourable Water S. Owen, Q.C., LL.D., Lieutenant-Governor of Our said Province of British Columbia, in Our City of Victoria, in Our said Province, this 4th day of March, in the year of Our Lord one thousand nine hundred and seventy-six and in the twenty-fifth year of Our Reign.

By Command.

Grace McCarthy  
Provincial Secretary

**GAMES FOR YOUNGER CHILDREN** were part of the program at the conventionette and here Susan Starr is working with the youngsters while the teachers look on.

## Mining needs help

The mining industry in British Columbia needs provincial and federal government action to encourage mining — and it needs such action right now.

This concern was voiced recently by J. Douglas Little, president of the Mining Association of British Columbia, at the association's annual meeting in Vancouver.

Little told the meeting that it will be the association's main task this year to press governments for a review of the industry's tax problems — for early changes in existing tax legislation.

"Let me emphasize that there is no time for delay by government," Little said. "This industry needs attention and it needs it right now."

"Most of the mining companies in B.C. are losing their shirts. If legislation doesn't change, and prices fail to improve soon, some operating mines will come to a dead halt in the same way that exploration and development effectively have been killed."

Little noted that governments want to increase tax revenues and create employment. He said new mines with their massive infusions of capital can provide

new jobs immediately as well as provide long-term continued employment and an expanded tax base.

The association president, who was re-elected for a second term, said reduced world markets and lower prices for products combined with harsh taxation measures have seriously affected the industry.

With prospects of a modest market recovery the industry needs fairer taxation laws to spur new development in the industry and to create new jobs.

Provincial royalties have to be eliminated in favour of a tax on profits to encourage development, he said.

"Sensible tax legislation combined with firm rules rather than ministerial discretion will, in the long run, provide more government revenues and more jobs than will high taxes," Little said.

Federal tax legislation discourages exploration, development and production, he said. He praised Ottawa's decision to drop the export levy which he said "would have completely discouraged any mineral development if prices improved."

However, Little said federal

tax measures still discriminate against resource industries and the association will urge Ottawa to review mining taxation with a view to establishing an equitable tax system to encourage development and employment.

"Federal and provincial governments must give recognition to the necessity for stability and confidence, not only in administrative legislation but also in tax legislation which gives full consideration to the factors requiring a return in excess of bank or mortgage interest rates commensurate with the high risks of mining," the association president said.

## Police report

The municipal policing report for the District of Squamish has been released.

There were 27 traffic warnings given; 211 complaints received and dealt with; one fire attended; seven business places unlocked; nine cases involving liquor (three of these seizures); two drug cases; eight articles lost; seven articles found; and two bicycles recovered.

There were no assaults causing bodily harm nor any to police. There was one other assault and one fraud. There were three incidences of disturbing the peace and six dog complaints.

Business break and entries numbered five while those to other buildings totalled two. Wilful damage offences numbered ten (eight to private property and two to public property). There were a total of 22 thefts (two of motor vehicles, five from motor vehicles, five over \$200, eight under \$200, and two shoplifting).

February proved to be a relatively quiet month crime-wise with offences being down as compared to February 1975.

Of the 39 road crashes in the municipality in the month of February, one person was injured. There were 82 charges laid under Provincial Traffic Statutes and four persons were charged with drinking driving offences.

## Fish is good for Lenten meals

Fish is good at any time of year but especially nice for Lenten dishes during this pre-Easter season. Canadians don't eat enough fish or seafood and here in B.C. where it is so easy to obtain it seems a shame that we neglect to take advantage of one of the finest buys possible. Sole in fillet form or otherwise is always delicious and it is obtainable either fresh or frozen. Halibut can also be used in the recipes for fish fillets and golden fish puffs shown below.

\*\*\*

**QUICK BAKED FILLETS**  
1 1/2 to 2 lbs. fish fillets, sole or halibut  
Salt and pepper  
Flour  
2 tbsp. butter, melted  
Heat oven to 500 degrees. Season fillets with salt and pepper, dip in flour. Place in lightly greased baking pan, drizzle with butter. Bake uncovered 10 to 15 minutes or till fish flakes easily with fork. Serves 6.

\*\*\*

### GOLDEN FISH PUFFS

1 lb. sole fillets  
1/4 tsp. salt  
Salt and pepper  
1 egg white  
1/4 tsp. onion juice  
1/4 cup mayonnaise  
1/4 tsp. dill seed

Heat oven to 425 degrees. Place fillets in greased baking dish; season with salt and pepper. Beat egg white and salt till stiff but not dry. Fold in remaining ingredients; spoon onto fish. Bake uncovered 12 to 15 minutes or until fish flakes easily with fork and topping is puffed and brown. Serves 4.

### LIMED FISH FILLETS

Clean and fillet a 3-pound fish, salmon, trout or whatever you wish, or use about two pounds of fish fillets. Wash fish and pat dry; brush with salad oil and sprinkle with paprika.

Place fish on grill or broiler rack; cook 5 to 7 minutes on each side or until fish flakes easily with fork. (Can be cooked outside on barbecue and is equally delicious that way.) Baste frequently with a mixture of 1/2 cup melted butter or

margarine and 1/4 cup lime juice. Just before serving sprinkle with salt and pepper. Serve with lime wedges. Serves 4 to 6.

### BROILED FISH STEAKS

Prepare mustard butter with 1/2 cup melted butter or margarine, 1 1/2 tsp. salt, 1 tsp. prepared mustard, 2 tsp. lemon juice and a dash of pepper.

Place 3 pounds fish steaks (salmon, tuna or halibut) 3/4 to 1 inch thick on lightly greased broiler pan in oven which has been preset to broil or 550 degrees. Broil 2 or 3 inches from heat for 5 to 8 minutes on each side or till fish flakes easily with a fork. Baste frequently with mustard butter. Serve with avocado sauce.

### AVOCADO SAUCE

1 small ripe avocado, peeled and pitted  
1/3 cup dairy sour cream  
Few drops red pepper sauce  
1 tsp. lemon juice  
1/4 tsp. salt  
Mix all ingredients in blender or beat with rotary beater till smooth.

## February fire dept. report

During the month of February, the fire department was called out nine times in response to two chimney fires, three false alarms, two building fires, and one car fire. In addition, there were four fires to which the department was not called: two miscellaneous fires in dwellings and two building fires.

Fire losses amounted to a total of \$6,050. Damage was done at the following: the recreational building at Centennial Field (\$400); H. Lonergan on Wilson Crescent (\$4,000); H. Morreau in the Timber Town Estates (\$200); J. Chinapin on Judd Road (\$300); N. McCartney on Clarke Road (\$750); D. Hales, a car fire (\$200); and Squamish General Hospital (\$200).

There were no injuries to civilians or firefighters with damage to equipment amounting to \$42.50.

The fire alarm system was out of service for 40 minutes due to a power interruption Feb. 25.

In the area of fire prevention, 12 routine inspections of public buildings were carried out; seven inspections and/or approvals of permits or licences were done; two sets of building plans were reviewed; seven special investigations of complaints regarding fire hazards were carried out; two fire marshal's orders to comply with regulations were issued; 12 special investigations of mobile homes were done; and seven investigations of fires were completed.

Plans to post legal occupancy

Invest in longer life! Support your Heart Fund — 1881 West Broadway, Vancouver.

limits in all places of public assembly and amusement have been drawn pursuant to the fire prevention by-law and the Fire Marshal's Act.

A review of general operations of the department for the month of February was done with the following being of significance:

—The claim for fire hose damaged in May 1975 was submitted to IBCB for consideration. Value of the claim is approximately \$2,600.

—The fire department inventory was completed and approximate replacement value of all equipment was estimated at approximately \$209,000.

—A presentation, at the request of the Squamish Lions Club, was made with regard to the Hurst Rescue Tool. The Lions Club is at present discussing the possibility of purchasing this rescue apparatus for the fire department.

—On Feb. 25, the Second Squamish Cub Pack toured the No. 1 fire station.

—On Feb. 29, the new fire truck was officially commissioned into service at No. 2 fire station. (Attending were the members of No. 2 fire station and representatives from the other stations, Mayor D. D. Stewart, Ald. D. W. McLennan, Rev. O. Johnston, and Mrs. R. Tatlow.)

—A complete street index for use by fire companies has been completed.

Concerning training during the month of February, there were four fire practices as well as an officers' meeting held to discuss practice format and training priorities. Training constituted operation of small motorized equipment (portable pumps and generators), driver training and pump operation, routine hose practices, and the use of fire extinguishers (operation and maintenance of various types).

Attendance at practices was: 43 - No. 1 Company; 42 - No. 2 Company; and 55 - No. 3 Company.

## Howe Sound High Happenings

By ERICA CUMMING

On Sunday, March 14, a floor hockey tournament was held at the high school. Seven teams played altogether. It was a long day, but the grade 11s finally came out the winners, with the ex-highschoolers placing second and the police placing third.

Report cards were handed out Monday, March 22. This is the second report card of the year, the third one will be handed out at the end of June, after finals have been written.

The intramural house trackmeet was held Friday, March 19. It started at 10 a.m. and ended at approximately 3 p.m. Decorations, which had been done the night before, were well done. The Cossacks won the

decoration competition, with Vikings second and Huns and Saxons tying for third place.

The Cossacks took over the lead as the meet continued on, with Vikings second, Huns third, and Saxons last. The teachers had their own races, which provided a great deal of amusement for the spectators.

Towards the end of the meet, the Huns (who rarely win a trackmeet) took over the lead. They continued to do so, and the end of the meet they came out as the winners. The Cossacks placed a close second, the Vikings third, and the Saxons fourth. It was a hilarious day, and those who organized it shall be thanked.

**WINNERS OF THE "D" EVENT** and the Valleau Logging Ltd. Trophy, presented by Lindsay Valleau, was the Gerry Peckham rink with Shelley Duff, Mike Gardiner and Linda Lethbridge.

## Trophies and presentations follows wind-up spiel

Saturday night was a big night at the Howe Sound Curling Club with the end of the club's wind-up bonspiel and the presentation of the trophies and pins to the leagues and league members for the season.

Winner of the "A" event in the bonspiel was the John Giesbrecht rink with Brenda Selby, John Jesson and Betty Charbonneau. In second place was the Ray Mensinger rink with George Kolatschek, Vilma Hendrickson and Doug Cooper while third place went to the Dick Reimer rink with Mary Anne Tichauer, Wes DeCook

and Cheryl Cooper and in fourth place was the Ron Valleau rink with Sue Enright, Phil Harness and Alice Peacess.

The "B" event was won by the Al Shenko rink with Doris Valleau, Gary Rae and Aline LaRiviers, with the Jim Hurlbert rink with Helen Robinson, Al Charbonneau and Keith Roberts in second place, followed by Al Bird, Shirley Halvorson, Len LaRiviere and Jean Shinnars and with Bob Valleau; Della Stinson, Bill McBride and Joan Whippich.

The "C" event was won by the Scott Sherriff rink with Tillie Shenko, Clem Whippich and Bonnie Klassen; in second place was the Keith Stinson rink with Hilary Sheffield, J. Meechenie and Warren Friesen, while in third place were Lindsay Valleau, Janet McBride, Marshall Tichauer and Gwen Osterberg, followed by Rick Reimer, April Hobbs, Anna Maria Hobbs and Rick Giesbrecht.

Winner of the Men's Mixed League trophy was the Jack Currie rink with Keith Stinson, Mike McPhillamery and Doug Cooper. They received the Dan McNaughton trophy.

Winners of the Wednesday Night Ladies League were Helen Robinson, Ethel Hurlbert, Eleanor Bowcock and Sharon Ross.

The Wednesday Afternoon Ladies League was won by the Renee McIntosh rink with Avril Gosling, Hilary Sheffield and L. Gagno while the Wednesday Afternoon Ladies League winners of the Overwaitea Trophy was the Linda Roche rink with Donna Wall, Doreen Roberts and Gwen Osterberg.

The Wednesday Afternoon League pin winners were Bonnie Breckenridge, Marianne Tichauer, Jenny Walker and Pat Yonin.

Men's League winner was the

Lyll Craig rink with Jim Doak, Ernie Wall and Gary Ray while the winners of the Terminal Contractors Trophy for the mixed league winners were Don and Alda Dickie and Warren and Karen Friesen.

The Tuesday Mixed League winners were Jim Kilburn, Thelma Kilburn and Clem and Joan Weppich while the Friday Mixed League Trophy was won by Dick and Valda Reimer and Dennis and Betty Brendeland.

Winners of the Monday Night Mixed League were Danny and Cheryl Valleau, Ray Keyes and Marg Johnson.

The Brian Valleau Memorial Trophy was won by Raymond Mensinger.

## Laura Secord country

Remember Laura Secord?  
 She won her niche in Canadian history by walking 20 miles to Beaver Dams, Ontario, to warn the British of a projected American attack during the War of 1812.

The subsequently decisive Battle of Beaver Dams was fought almost entirely by Indians in defence of Canada. Today, Laura Secord's home in Queenston, Ontario, has been restored by the candy company named after her, assisted by architect James Secord, a direct descendant of Laura's brother-in-law.

Highlight of the restored structure is the kitchen, the work centre in early 19th century homes. The large open fireplace is equipped with cooking pots and utensils, and a trolley for fixing the height of the pots over the flames.

There is a plain, pine-topped, sawbuck table with simple bench seating. A hutch cupboard displays rare cups without handles, crockery, and snow-white, hand-made linen.

## Canning lids!!

## SQUAMISH-LILLOOET REGIONAL DISTRICT

### PUBLIC NOTICE

To owners of mobile homes to be located in Electoral Area "C" generally that area from D'Arcy to the northern boundary of the Resort Municipality of Whistler, and including the Pemberton Valley.

The public is hereby advised all mobile homes brought into Electoral Area "C" on or after September 22nd, 1975 must:

- be of a size in excess of 480 square feet;
- be restricted from moving and be securely anchored against the effects of the wind;
- be on a permanent foundation;
- have a valid building permit for the mobile home foundation, pursuant to Bylaw No. 75, 1975.

Anyone proposing to locate a mobile home in Electoral Area "C" is advised to contact the Chief Building Inspector for further information and for building permit applications.

Anyone found in violation of the mobile home regulations will be subject to prosecution.
